

Connecticut Department of Energy and Environmental Protection License*

Structures, Dredging & Fill Permit Section 401 Water Quality Certification

Licensee(s): Electric Boat Corporation, c/o
Paul Harren

Licensee Address(s): 75 Eastern Point Road
Groton, CT 06340

License Number(s): 202407693-SDFWQC

Municipality: City of Groton

Project Description: Conduct new dredging, install a new bulkhead, construct new piers to facilitate submarine maintenance and construction.

Project Address/Location: 75 Eastern Point Road

Waters: Thames River

Authorizing CT Statute(s) and/or Federal Law: CGS Section 22a-359 to 363g; CGS Section 22a-90 to 112;
Section 401 CWA (33 USC 1341)

Applicable Regulations of CT State Agencies: 22a-426-1 to 9

Agency Contact: Land & Water Resources Division,
Bureau of Water Protection & Land Reuse, 860-424-3019

License Expiration: Ten (10) years from the date of issuance of this license.

*Connecticut's Uniform Administrative Procedure Act defines License to include, "the whole or part of any agency permit, certificate, approval, registration, charter or similar form of permission required by law . . ."

Project Site Plan Set: Fifty-six (56) sheets of plans prepared by Whitman, Requardt & Associates, LLP (“WRA”), a plan entitled “VICINITY MAP,” printed April 29, 2024; Sheets G0-01, C1-00, PS1-00, PS1-01, RI1-01, DP1-01, DS1-01, DS1-02, ES1-01, C5-01, ET.01, ET.02, ET.03 dated May 17, 2024; Sheets C1-01, SWM1-01 dated June 28, 2024; Sheets G-001, G-002, G-101, G-102, G-201, B-101, B-102, C-001, C-101 through C-108, CD-101, CD-102, C-501, S-001, S-002, S-101, S-101A, S-101B, S-101C, S-102, S-102A, S-102B, S-102C, S-103, S-103A, S-103B, S-103C, S-301, S-401, S-501, S-502, S-503, S-601, S-701 dated May 31, 2024.

License Enclosures: LWRD Dredging and General Conditions; LWRD Dredging Report; Land Record Filing; LWRD Work Commencement Form; LWRD Compliance Certification Form; Site Plan Set

Authorized Activities:

The Licensee is hereby authorized to conduct the following work as described in application # 202407693-SDFWQC and as depicted on any site plan sheets / sets cited herein:

1. Conduct improvements within an area identified as the “Wet Berth” located between Graving Docks 1 and 2 and Graving Dock 3 consisting of:
 - a. remove approximately 3,000 cubic yards of bedrock over an approximately 22,000 square foot area using controlled blasting techniques and remove the bedrock using mechanical equipment;
 - b. install approximately 850 linear feet of steel sheet pile bulkhead with a top of bulkhead elevation of +16.1’ NAVD88 (+17.9’ MLLW) with associated tie-back anchors, deadmen or rock-grouted anchors and walers and place approximately 31,087 cubic yards of backfill over an approximately 39,273 square foot area. The total volume of backfill to be placed landward of the bulkhead is 42,993 cubic yards;
 - c. install two (2) new 18” diameter stormwater outfall pipes through the bulkhead identified above;
 - d. using mechanical equipment, dredge a total of approximately 138,801 cubic yards of sediment from an approximately 538,179 square foot area to a depth of -36.4’ NAVD88 (-34.6’ MLLW) including an allowable 2’ of over-dredge, and including the removal of approximately 2,338 cubic yards of existing rock from an approximately 17,495 square foot area;
 - e. amend the dredged sediment with Portland cement and place the sediment and rock at an approved upland location;
 - f. construct two (2) “wet berth” piers consisting of new 53’ wide by 510’ long concrete decked piers supported by approximately eighty-four (84) of 3’ diameter concrete drilled shaft piles per pier (168 piles total), associated fender piles and associated mechanical, power and communication utilities, rail-mounted portal cranes and security booths;

- g. construct two (2) 20' wide and 20' long concrete mooring dolphins, each consisting of nine (9) 3' diameter shaft supports drilled into bedrock and filled with concrete (18 piles total);
- h. sidecast the sediment from the drilled support shafts identified above within the wet berth pier and mooring dolphin footprint; and
- i. relocate approximately 381 linear feet of floating security barrier with associated mooring tackle and anchors and install approximately 893 linear feet of new floating security barrier with associated mooring tackle and anchor systems.

Failure to comply with the terms and conditions of this license shall subject the Licensee and / or the Licensee's contractor(s) to enforcement actions and penalties as provided by law.

This license is subject to the following Terms and Conditions:

1. **License Enclosure(s) and Conditions.** The Licensee shall comply with all applicable terms and conditions as may be stipulated within the License Enclosure(s) listed above.
2. The Licensee shall dispose of the approximately 138,801 cubic yards of material in accordance with all applicable requirements of Chapter 446k Water Pollution Control, Chapter 445 Hazardous Waste, and Chapter 446d Solid Waste of the Connecticut General Statutes. The Licensee shall notify the Commissioner in writing if a modification of the placement location is necessary within two (2) weeks of the commencement of the dredging.
3. Prior to the commencement of the work authorized herein, the Licensee shall file a Conditional Letter of Map Revision (CLOMR) with FEMA. Upon completion of the work authorized herein, the Licensee shall file a Letter of Map Revision (LOMR) with FEMA.
4. All unconfined dredging shall be prohibited from February 1st through June 30th, inclusive, of any calendar year to protect winter flounder spawning and early juvenile development and diadromous finfish unless otherwise authorized in writing by the Commissioner. Confined dredging is acceptable at any time of year and the methods of confinement may include cofferdams or full-depth Type III turbidity curtains. Installation and removal of these confinement devices is permitted at any time of year.
5. No pile driving of any method shall be permitted between sunset and sunrise from April 1st through June 30th, inclusive, of any calendar year to protect diadromous finfish unless otherwise authorized in writing by the Commissioner.
6. Any pile driving conducted between February 1st through October 30th, inclusive, of any calendar year should employ a "soft start" to protect winter flounder, diadromous finfish and sturgeon unless otherwise authorized in writing by the Commissioner. A soft-start when pile driving with an impact hammer is defined as an initial set of three strikes with the hammer at 40% energy, followed by a one-minute waiting period, then two subsequent 3-strike sets at 40% energy, with one-minute waiting periods, before initiating continuous impact driving. A soft-start when pile driving with a vibratory hammer should initiate for 15 seconds at reduced energy followed by a one-minute waiting period. The sequence of

15 seconds of reduced energy driving and one-minute waiting periods should be repeated two additional times, followed immediately by pile driving at full rate and energy. When employing either of these methods, a soft-start should be employed whenever pile driving has ceased for 30 minutes or longer.

7. All blasting shall be prohibited between February 1st through October 31st, inclusive, of any calendar year to protect winter flounder, diadromous finfish and sturgeon unless otherwise authorized in writing by the Commissioner.
8. Within forty-five (45) days prior to conducting the blasting, the Licensee shall submit for the Commissioner's review and written approval the Final Blasting Plan ("Plan"). Such Plan shall include, but is not limited to, a schedule for blasting, hours of blasting, blasting density, and shall include a provision requiring notification to DEEP-LWRD and DEEP-Fisheries staff in writing no later than two (2) weeks prior to the blasting and shall provide written confirmation one (1) day prior to the blasting event.
9. Prior to the commencement of the work authorized herein the Licensee shall obtain all necessary local, state and federal authorizations for the work authorized by this license.
10. The Licensee shall install and maintain turbidity curtains around the work area identified in **Authorized Activities** paragraph 1., above.
11. The Licensee shall install and maintain water quality improvement structures on the upland which pretreat stormwater runoff prior to discharging to Long Island Sound. These improvement structures shall be maintained in optimal condition for the life of the structures.
12. All waste material generated by the performance of the work authorized herein shall be placed by the Licensee at an upland site approved for the placement of such waste materials, as applicable. The Licensee shall ensure that no waste material enters the Thames River and must immediately remove any debris that enters the water.
13. On or before ninety (90) days after completion of the work authorized herein, the Licensee shall submit to the Commissioner an "as-dredged" survey of the work area showing contours, bathymetries, tidal datums, including any proposed elevation views and cross sections included in the license. Such plans or survey shall be the originals and be signed and sealed by an engineer, surveyor or architect, as applicable, who is licensed in the State of Connecticut.

Issued under the authority of the Commissioner of Energy and Environmental Protection on:

Date

Emma Cimino
Deputy Commissioner
Department of Energy & Environmental Protection

LWRD Dredging and General Conditions

1. **Time-of-Year Restriction.** Unless otherwise noted in the License, unconfined in-water excavation, dredging, filling or removal of debris or other material is prohibited, inclusive, in any year from June 1 through September 30 in order to protect spawning shellfish in the area unless otherwise authorized in writing by the Commissioner.
2. **Dredging Report.** Not later than two (2) weeks subsequent to the completion of any dredging activity authorized herein, the Licensee shall submit to DEEP.LWRDRegulatory@ct.gov a completed Dredging Report. A separate form shall be submitted by the Licensee for each distinct dredging activity conducted pursuant to this license.
3. **Bottom Disturbance.** Dragging the bottom with a spoil barge, scow, vessel, beam or similar equipment outside of any authorized area is prohibited.
4. **Material Handling.** Sidecasting or in-water rehandling of dredged or excavated material is prohibited.
5. **Barge Control.** Spoil scows or barges shall be loaded and navigated in a manner which prevents uncontrollable motion or spillage and washout of dredged or excavated materials.
6. **Sale of Sediment.** Sediment dredged pursuant to the license shall not be sold nor shall any fee for its use be charged without the express prior written authorization of the Commissioner and payment of a \$4.00 per yard royalty to the state of Connecticut Department of Energy & Environmental Protection, pursuant to CGS section 22a-361(e).
7. **Sediment Disposal.** The Licensee shall dispose of aquatic sediments in accordance with the terms and conditions of the license.
8. **Submission of As-Dredged Plans.** On or before ninety (90) days after completion of the work authorized herein, the Licensee shall submit to DEEP.LWRDRegulatory@ct.gov an “as-dredged” survey of the work area showing contours, bathymetries, tidal datums and structures, as applicable. Such survey shall be the original one and be signed and sealed by an engineer, surveyor or architect, as applicable, who is licensed in the State of Connecticut.

Open Water Disposal, if authorized in Project Description

1. **Material Disposal.** The Licensee shall dispose of dredged or excavated material in accordance with the requirements of the United States Army Corps of Engineers-New England District, except that if the authorized disposal site is modified, the Licensee shall submit a request for modification of the location to the Commissioner and shall not dispose of the material until such location modification has been approved in writing by the Commissioner.
2. **Disposal Site / Use Modification.** The Commissioner may modify the authorized disposal site

and direct dredged sediment to an alternate site for use as cap material, provided that no modification will take effect if such modification imposes uncompensated additional costs solely attributable to such modification on the Licensee.

3. **Disposal Monitoring.** The Licensee shall not dispose of dredged or excavated material unless said disposal is supervised and witnessed by an on-board inspector or documented by an automated disposal monitoring program approved by the United States Army Corps of Engineers-New England District.
4. **Barge Navigation.** Spoil scows or barges used by the Licensee for disposal of dredged or excavated material shall travel to and from the authorized disposal site utilizing sea lanes defined by the United States Army Corps of Engineers-New England District.
5. **Point Dumping.** The Licensee shall point-dump dredged or excavated materials at a specified buoy or set of coordinates identified by United States Army Corps of Engineers-New England District within the authorized disposal site.

LWRD General Conditions

1. **Land Record Filing.** The Licensee shall file the Land Record Filing on the land records of the municipality in which the subject property is located not later than thirty (30) days after license issuance pursuant to Connecticut General Statutes (CGS) Section 22a-363g. A copy of the Notice with a stamp or other such proof of filing with the municipality shall be submitted to DEEP.LWRDRegulatory@ct.gov no later than sixty (60) days after license issuance. If a Land Record Filing form is not enclosed and the work site is not associated with an upland property, no filing is required.
2. **Contractor Notification.** The Licensee shall give a copy of the license and its attachments to the contractor(s) who will be carrying out the authorized activities prior to the start of construction and shall receive a written receipt for such copy, signed and dated by such contractor(s). The Licensee's contractor(s) shall conduct all operations at the site in full compliance with the license and, to the extent provided by law, may be held liable for any violation of the terms and conditions of the license. At the work site, the contractor(s) shall, whenever work is being performed, have on site and make available for inspection a copy of the license and the authorized plans.
3. **Work Commencement.** Not later than two (2) weeks prior to the commencement of any work authorized herein, the Licensee shall submit to DEEP.LWRDRegulatory@ct.gov, on the Work Commencement Form attached hereto, the name(s) and address(es) of all contractor(s) employed to conduct such work and the expected date for commencement and completion of such work, if any.
 - For water diversion activities authorized pursuant to 22a-377(c)-1 of the Regulations of Connecticut State Agencies, the Licensee shall also notify the Commissioner in writing two weeks prior to initiating the authorized diversion.
 - For emergency activities authorized pursuant Connecticut General Statutes Section 22a-6k, the Licensee shall notify the Commissioner, in writing, of activity

commencement at least one (1) day prior to construction and of activity completion no later than five (5) days after conclusion.

4. **License Notice.** The Licensee shall post the first page of the License in a conspicuous place at the work area while the work authorized therein is undertaken.
5. **Unauthorized Activities.** Except as specifically authorized, no equipment or material, including but not limited to, fill, construction materials, excavated material or debris, shall be deposited, placed or stored in any wetland or watercourse on or off-site. The Licensee may not conduct work within wetlands or watercourses other than as specifically authorized, unless otherwise authorized in writing by the Commissioner. Tidal wetlands means “wetland” as defined by section 22a-29 and “freshwater wetlands and watercourses” means “wetlands” and “watercourses” as defined by section 22a-38.
6. **Excavated Materials.** Unless otherwise authorized, all excavated material shall be staged and managed in a manner which prevents additional impacts to wetlands and watercourses.
7. **Best Management Practices.** The Licensee shall not cause or allow pollution of any wetlands or watercourses, including pollution resulting from sedimentation and erosion. In constructing or maintaining any authorized structure or facility or conducting any authorized activity, or in removing any such structure or facility, the Licensee shall employ best management practices to control storm water discharges, to prevent erosion and sedimentation, and to otherwise prevent pollution of wetlands and other waters of the State. For purposes of the license, “pollution” means “pollution” as that term is defined by CGS section 22a-423. Best Management Practices include, but are not limited, to practices identified in the *Connecticut Guidelines for Soil Erosion and Sediment Control* as revised, *2004 Connecticut Stormwater Quality Manual*, Department of Transportation’s *ConnDOT Drainage Manual* as revised, and the Department of Transportation Standard Specifications as revised.
8. **In-Water Work Vessel Staging and Storage. (for Structures Dredging & Fill, Tidal Wetlands, Certificate of Permission, and Long Island Sound General Permit Licenses only).** For any barge, vessel, skiff or floating work platform (“work vessels”) utilized in the execution of the work authorized herein, the Licensee shall ensure that such work vessels:
 - do not rest on, or come in contact with, the substrate at any time, unless specifically authorized in the license.
 - are not stored over intertidal flats, submerged aquatic vegetation or tidal wetland vegetation or in a location that interferes with navigation. In the event any work vessel is grounded, no dragging or prop dredging shall occur to free it.
9. **Work Site Restoration.** Upon completion of any authorized work, the Licensee shall restore all areas impacted by construction, or used as a staging area or accessway in connection with such work, to their condition prior to the commencement of such work.
10. **Inspection.** The Licensee shall allow any representative of the Commissioner to inspect the project location at reasonable times to ensure that work is being or has been conducted in accordance with the terms and conditions of this license.

11. Change of Use. (Applies only if a use is specified within the License “*Project Description*”)

- a. The work specified in the license is authorized solely for the purpose set forth in the license. No change in purpose or use of the authorized work or facilities as set forth in the license may occur without the prior written approval of the Commissioner. The Licensee shall, prior to undertaking or allowing any change in use or purpose from that which is authorized by this license, request permission from the Commissioner for such change. Said request shall be in writing and shall describe the proposed change and the reason for the change.
- b. A change in the form of ownership of any structure authorized herein from a rental/lease commercial marina to a wholly-owned common interest community or dockominium may constitute a change in purpose as specified in paragraph (a) above.

12. De Minimis Alteration. The Licensee shall not deviate from the authorized activity without prior written approval from the Commissioner. The Licensee may request a de minimis change to any authorized structure, facility, or activity. A de minimis alteration means a change in the authorized design, construction or operation that individually and cumulatively has minimal additional environmental impact and does not substantively alter the project as authorized.

- For diversion activities authorized pursuant to 22a-377(c)-2 of the Regulations of Connecticut State Agencies, a de minimis alteration means an alteration which does not significantly increase the quantity of water diverted or significantly change the capacity to divert water.

13. Extension Request. The Licensee may request an extension of the license expiration date. Such request shall be in writing and shall be submitted to DEEP.LWRDRegulatory@ct.gov at least thirty (30) days prior to the license expiration. Such request shall describe the work done to date, what work still needs to be completed, and the reason for such extension. The Commissioner may extend the expiration date of this license for a period of up to one year, in order for the Licensee to complete the authorized activities. It shall be at the Commissioner’s sole discretion to grant or deny such request. No more than three (3) one-year extensions will be granted under this license.

14. No Work After License Expiration. Work conducted after the license expiration date is a violation of the license and may subject the licensee to enforcement action, including penalties, as provided by law.

15. License Transfer. The license is not transferable without prior written authorization of the Commissioner. A request to transfer a license shall be submitted in writing and shall describe the proposed transfer and the reason for such transfer. The Licensee’s obligations under the license shall not be affected by the passage of title to the license site to any other person or municipality until such time as a transfer is approved by the Commissioner.

16. Document Submission. Any document required to be submitted to the Commissioner under the license or any contact required to be made with the Commissioner shall, unless otherwise specified in writing by the Commissioner, be directed to:

DEEP.LWRDRegulatory@ct.gov or

Regulatory Section
Land & Water Resources Division
Department of Energy and Environmental Protection
79 Elm Street
Hartford, Connecticut 06106-5127
860-424-3019

- 17. Date of Document Submission.** The date of submission to the Commissioner of any document required by the license shall be the date such document is received by the Commissioner. The date of any notice by the Commissioner under the license, including but not limited to notice of approval or disapproval of any document or other action, shall be the date such notice is personally delivered or the date three (3) days after it is mailed by the Commissioner, whichever is earlier. Except as otherwise specified in the license, the word “day” as used in the license means calendar day. Any document or action which is required by the license to be submitted or performed by a date which falls on a Saturday, Sunday or a Connecticut or federal holiday shall be submitted or performed on or before the next day which is not a Saturday, Sunday, or a Connecticut or federal holiday.
- 18. Certification of Documents.** Any document, including but not limited to any notice, which is required to be submitted to the Commissioner under the license shall be signed by the Licensee and by the individual or individuals responsible for actually preparing such document, each of whom shall certify in writing as follows: “I have personally examined and am familiar with the information submitted in this document and all attachments and certify that based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief, and I understand that any false statement made in this document or its attachments may be punishable as a criminal offense.”
- 19. Accuracy of Documentation.** In evaluating the application for the license, the Commissioner has relied on information and data provided by the Licensee and on the Licensee’s representations concerning site conditions, design specifications and the proposed work, including but not limited to representations concerning the commercial, public or private nature of the work or structures, the water-dependency of said work or structures, its availability for access by the general public, and the ownership of regulated structures or filled areas. If such information proves to be false, deceptive, incomplete or inaccurate, the license may be modified, suspended or revoked, and any unauthorized activities may be subject to enforcement action.
- 20. Limits of Liability.** In granting the license, the Commissioner has relied on all representations of the Licensee, including information and data provided in support of the Licensee’s application. Neither the Licensee’s representations nor the issuance of the license shall constitute an assurance by the Commissioner as to the structural integrity, the engineering feasibility or the efficacy of such design.
- 21. Reporting of Violations.** In the event that the Licensee becomes aware that they did not or

may not comply, or did not or may not comply on time, with any provision of this license or of any document incorporated into the license, the Licensee shall immediately notify the agency contact specified within the license and shall take all reasonable steps to ensure that any noncompliance or delay is avoided or, if unavoidable, is minimized to the greatest extent possible. In so notifying the agency contact, the Licensee shall provide, for the agency's review and written approval, a report including the following information:

- a. the provision(s) of the license that has been violated;
- b. the date and time the violation(s) was first observed and by whom;
- c. the cause of the violation(s), if known;
- d. if the violation(s) has ceased, the duration of the violation(s) and the exact date(s) and times(s) it was corrected;
- e. if the violation(s) has not ceased, the anticipated date when it will be corrected;
- f. steps taken and steps planned to prevent a reoccurrence of the violation(s) and the date(s) such steps were implemented or will be implemented; and
- g. the signatures of the Licensee and of the individual(s) responsible for actually preparing such report.

If the violation occurs outside of normal business hours, the Licensee shall contact the Department of Energy and Environmental Protection Emergency Dispatch at 860-424-3333. The Licensee shall comply with any dates which may be approved in writing by the Commissioner.

22. Revocation/Suspension/Modification. The license may be revoked, suspended, or modified in accordance with applicable law.

23. Other Required Approvals. License issuance does not relieve the Licensee of their obligations to obtain any other approvals required by applicable federal, state and local law.

24. Rights. The license is subject to and does not derogate any present or future property rights or powers of the State of Connecticut, and conveys no property rights in real estate or material nor any exclusive privileges, and is further subject to any and all public and private rights and to any federal, state or local laws or regulations pertinent to the property or activity affected hereby.

25. Condition Conflicts. In the case where a project specific special condition listed on the license differs from, or conflicts with, one of the general conditions listed herein, the project specific special condition language shall prevail. It is the licensee's responsibility to contact the agency contact person listed on the license for clarification if needed prior to conducting any further regulated activities.
