

Bringing Bag Drop to Connecticut

RECYCL%

CLYNK

**CLYNK's Bag Drop solution** transforms a time consuming chore into a 15-second easy drop off, and it all starts with convenient sustainability stations at common stop locations like grocery stores and other retail locations.

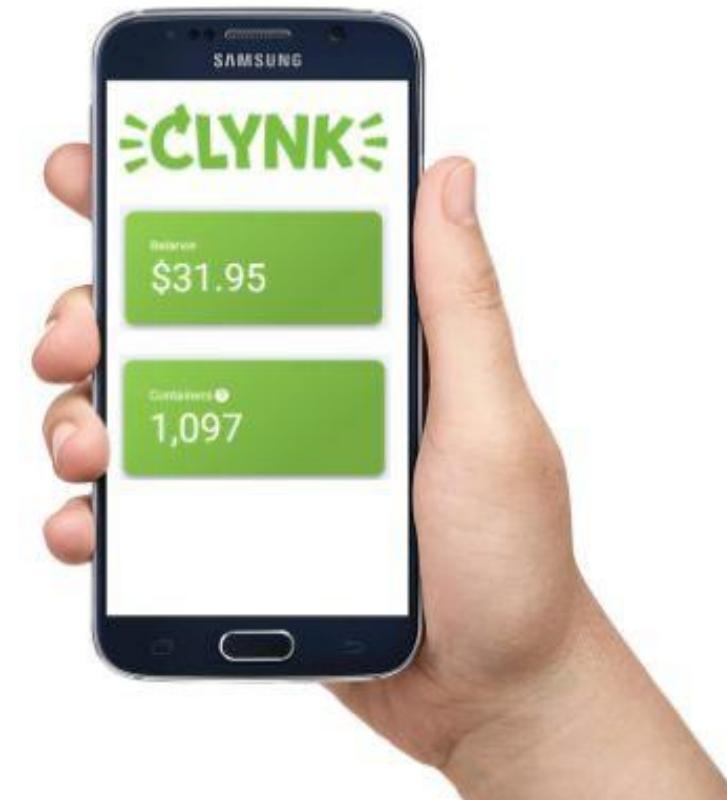

Then, we couple convenience with incentives – like points, coupons or cash – **that delight the consumer and drive behavior change.**

Modern

Fast

Convenient

And finally, we deliver world class solutions to collect, process, and return the material to IODs.

# Bag Drop Collection Goals

1. **Provide convenient redemption options for consumers**, while reducing the burden on retailers & brands
2. **Reduce anticipated fraud** from the increased deposit value in CT and manage costs of collection
3. **Establish collection system for PE film and case wrap** for impending EPR legislation in CT and manage costs of collection

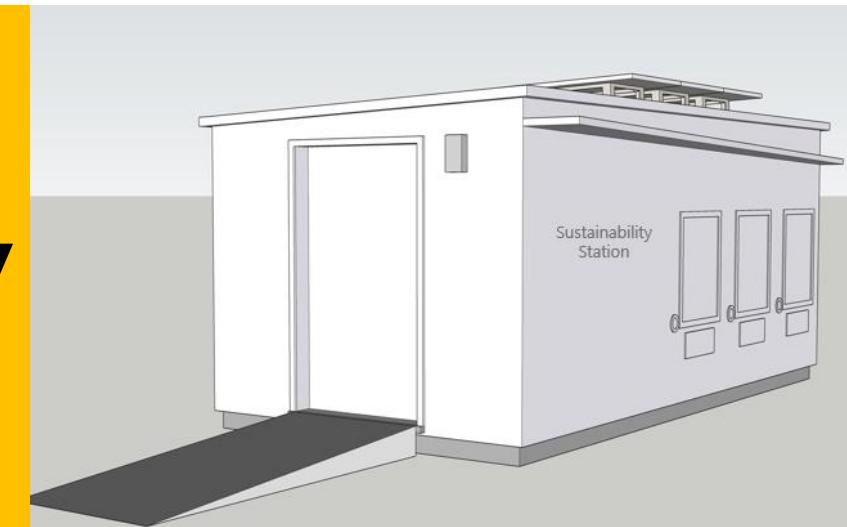

# Overview of Process

- 1. Sign up**
- 2. Get bags**
- 3. Bag, scan and drop** – at sustainability stations
- 4. Get \$\$\$** – deposited in your account

- Constructed from composite fiber panels made of recycled PET plastic
- Solar powered and cellularly enabled to be self sufficient
- This new design provides a mobile, customizable, and cost effectiveness means of implementing Bag Drop
