

ELECTRONICS RECYCLING PSA
30 Seconds

Connecticut Department of Energy and Environmental Protection
November, 2011

HUSBAND: *(yells)* Honey, where's my brown coat?

WIFE: *(yells back from distance)* Check the back closet.

(crashing sound)

HUSBAND: Why do we have all these old computers in the closet?

WIFE: They can't go in the trash; it's bad for the environment. I just don't know what to do with them!

ANNOUNCER: Good news! Connecticut residents can now recycle their unwanted computers, monitors, printers, TVs – and it's free! Contact your town for drop-off locations or go to www.ct.gov/recycle. That's www.ct.gov/recycle.
