This list was compiled from existing data on March 27, 2013. This data was generated by the Waste Engineering and Enforcement Division and is intended for general information. This information is provided as a convenience; more complete information is available in the DEEP public file room

Waste type indicates what was understood to have been disposed at the landfills. Other types of waste may have been disposed there, as well. Abbreviations: **MSW**-Municipal Solid Waste; **BW**-Bulky Waste; **INCIN ASH**-Incinerator Ash; **UNK**-Unknown; **IND**-Industrial Waste; **C&D**-Construction and Demolition Waste; **WWTS**-Waste Water Treatment Sludge; **SPC**-Special Waste.

Note: The "Closed" designation indicates that the landfill has stopped accepting waste; it does not indicate that the landfill is necessarily closed in a regulatory sense.
