# Background

- ▶ Public Act 21-58, Section 10 established a 5 cent surcharge on all miniature alcohol bottles of 50ml or less
- ▶ The surcharge took effect in October 2021
- ▶ Wholesalers collect the funds and distribute them back to the municipality of sale every April and October
- ▶ The Public Act was codified in CGS Sec. 22a-244b

# Usage of Funds

- ▶ CGS 22a-244b(d) states that the funds can be spent on environmental measures intended to:

- 1. Reduce the generation of solid waste
  - Examples
    - a. Hiring of a recycling coordinator
    - b. Recycling equipment
    - c. Educational Programs
- 2. Reduce the impact of litter:
  - Examples
    - a. Personnel costs to remove litter
    - b. Mechanical street sweepers, vacuums, or brooms

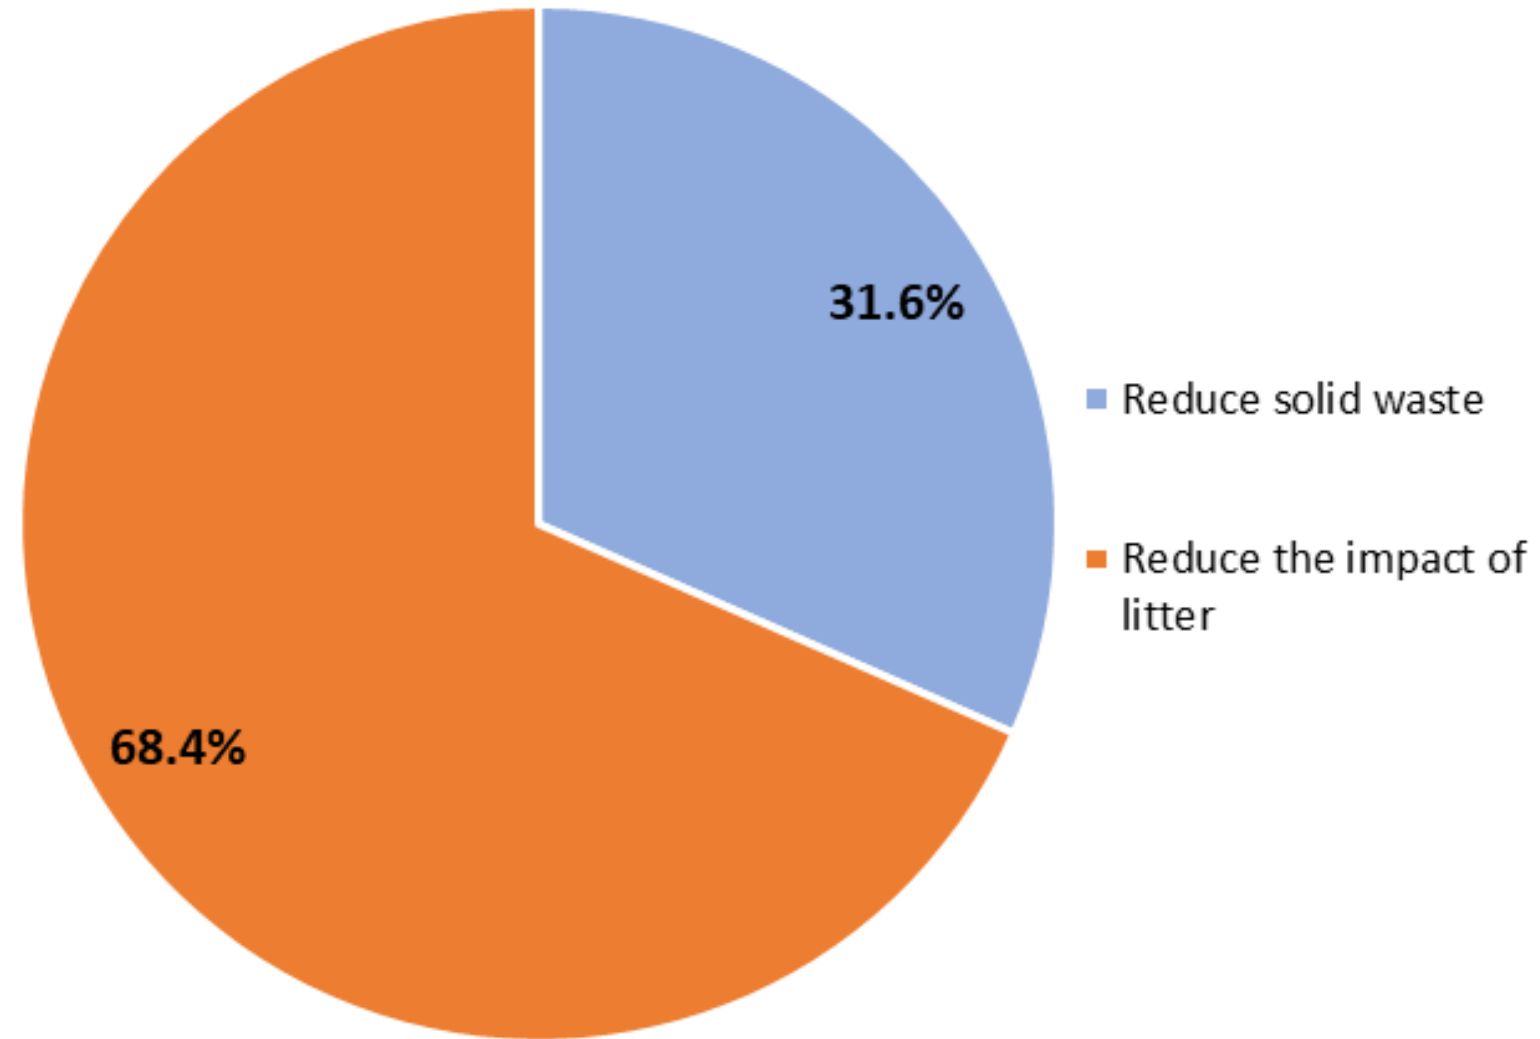

# The Council's Role

- ▶ Public Act 23-76 requires the Council to conduct a review of the program pursuant to **subsection (d) of section 22a-244b**
- ▶ From Sept 19 through mid-November, the Council conducted a survey of 162 municipalities that received funds
  - Reporting period: July 1, 2023 through June 30, 2024
  - 132 municipalities out of 162 responded (82%)
- ▶ Topics included funds spent, uses, and program feedback

# How Will These Data Be Used?

- ▶ Survey results will be summarized in aggregate and appear in the 2024 edition of the Council's annual report, *"Environmental Quality in Connecticut"*
- ▶ Results will help inform policymakers and may determine how the program might change in the future
- ▶ Survey results will inform municipalities on funding options and best practices
