

Connecticut Species of Greatest Conservation Need - Public Input Form

Every ten years, each state creates a plan that maps out the next ten years of wildlife conservation. Each State Wildlife Action Plan (SWAP) identifies which species are of greatest conservation need for the state, as well as the habitats they use, the threats they face, the actions that may help them, and how to monitor their populations. Connecticut wrote our first Wildlife Action Plan in 2005, and last revised it in 2015. With 2025 rapidly approaching, we are now starting the revision process for our next one, and we want your input. For more information: [CT SWAP](#)

1. Email *

2. Were you aware of Connecticut's 2015 Wildlife Action Plan before taking this survey?

Mark only one oval.

☐ Yes

☐ No

3. Do you think you will use the 2025 Wildlife Action Plan once it is released (e.g., learning more about Connecticut's conservation programs, learning what you can do to aid conservation, applying for conservation grants)?

Mark only one oval.

☐ Yes

☐ No

4. What would you like to see in the 2025 Wildlife Action Plan that was not included in the 2015 plan, and why would this addition be useful?

5. Are there any species not considered in the 2015 Wildlife Action Plan you think the state's species experts should evaluate for inclusion as a Species of Greatest Conservation Need for the 2025 revision? (the list of 2015 Connecticut Species of Greatest Conservation Need can be found here: [CT SWAP Chapter1](#))

6. Would you be interested in receiving email updates about the 2025 Wildlife Action Plan revision and/or how you can help CT's Species of Greatest Conservation need?

Mark only one oval.

☐ Yes

☐ No

7. What is the zip code where you live?

8. Do you have any additional questions or comments concerning the 2025 Connecticut State Wildlife Action Plan Revision?
