**RE:** LIHWAP Survey for the Community Public Water Systems

The Connecticut Department of Social Services (DSS) and Department of Public Health (DPH) are interested in collecting information via a survey from Connecticut's Community Public Water Systems. The collected data will then contribute towards the establishment of a Low Income Household Water Assistance Program (LIHWAP). LIHWAP intends to support qualified households by providing funds and assist low-income households with water bills.

The Department of Public Health (DPH) Drinking Water Section (DWS) encourages all Community public water systems (PWS) to complete LIHWAP survey by using the following link or QR code:
