

# STATE OF CONNECTICUT

## DEPARTMENT OF PUBLIC HEALTH

Deidre S. Gifford, MD, MPH  
Acting Commissioner

Ned Lamont  
Governor  
Susan Bysiewicz  
Lt. Governor

Environmental Health & Drinking Water Branch

### DWS Circular Letter 2020-60

**TO:** Public Water Systems, Certified Water Operators, Local Health Departments

**FROM:** Lori Mathieu, Public Health Branch Chief, EHDW

**DATE:** August 8, 2020

**SUBJECT:** Bulk Water Hauling During Emergencies

Handwritten signature of Lori Mathieu in blue ink, dated 2020.

As the State continues to recover from tropical storm Isaias numerous public water systems remain without power. As a reminder, all bulk water deliveries used for potable water (including temporary drinking water filling stations) must be supplied by water haulers approved by the department. A bulk water hauling notification form must be completed by the public water system and submitted to the DPH to provide notification when bulk water hauling is required at a public water system. The list of licensed water haulers and bulk water hauling notification form are found here:

- [List of licensed water hauler](#)
- [Bulk water hauling notification form](#)

If you have any questions or concerns regarding bulk water haulers or bulk water hauling, please contact the drinking water section at [dwdcompliance@ct.gov](mailto:dwdcompliance@ct.gov)
