Lt. Governor

Environmental Health and Drinking Water Branch

DWS Circular Letter #2020-78

TO: Community Water Systems and Operators Serving Multiple Water Systems
FROM: Lori Mathieu, Branch Chief, Environmental Health & Drinking Water Sections 
DATE: November 4, 2020
SUBJECT: **Mass Vaccination Planning for COVID-19**

The Department of Public Health is reaching out to you to bring to your attention this [letter](#) concerning your participation in a mass vaccination planning survey. Within the [letter](#), there's a link to the survey, which we encourage all of you to complete and submit by **11/5/2020**. We apologize for the quick turn around on this, but your participation is important to ensure that your needs are recognized during this fast-moving planning period.

For the purpose of this survey, please identify your Sector Name (i.e. item 1 in the survey) as one of the following:

- Community Water System – Privately Owned
- Community Water System – Municipally Owned (this will include quasi-public or water district)
- Community Water System – Fire District
- Community Water System – State Owned
- Multiple Water System Operator

Further, under items 11 and 12 of the survey, it's important to recognize that all of your treatment and distribution operators and workers will fall under phase 1b, while all administrative functions where social distancing can be maintained will fall under phase 2.

Any questions you may have in completing this survey please contact Kendall Bobula at 860-936-6554 or via email kendall.bobula@ct.gov

Thank you in advance for your participation in this critical public health planning survey.
