

CT EMS Advisory Board

Data Committee

January 19, 2021

Member Attendees: Greg Allard, Josh Beaulieu, Kevin Ferrarotti

Excused Members: Mike Loiz, John Oates

OEMS Staff: Mike Zacchera      Guests: Danielle Beaulieu

Topic	Discussion	Action
Meeting called to order at 15:00hrs	No previous minutes to approve	
	Guest Danielle Beaulieu, MPH introduced. Danielle is the chief data scientist for a company that works in clinical trial data and disease progression research. She has agreed to provide assistance as we look to use the data available to us.	
<b>Old Business</b>	This is the second meeting of this committee. Attendees discussed goals for the committee as well as data sources the committee may be able to use. Attendees discussed how data from different sources may be used. Attendees agreed on several short term actions for the committee. Attendees agree that the overall goal of the committee is to facilitate EMS system quality improvement through the use of data to support decision-making in all aspects of EMS service delivery.	M. Zacchera will contact Heidi Fitzgerald and discuss access to the State EMS database and to invite her to our next meeting. K. Ferrarotti will investigate reporting capabilities of the ESO HDE used by many hospitals in CT. G. Allard will look into performance metrics used by ESO for system monitoring. J. Beaulieu will research the NEMSIS database and report back on performance metrics reported on nationally.
<b>New Business</b>	None	
<b>Info Sharing</b>	None	
<b>Adjournment</b>	15:45hrs	Next Meeting – Tuesday 2/16/21
