Excused Members: Jessica Anderson, Wayne Woodtke, Terence Sheehan, Kate Coupe, Jason Fischel

OEMS Staff: Richard Kamin, Eliza Little, Mike Zacchera

Topic	Discussion	Action
Meeting called to order at 11:01hrs	Approval of the February 1, 2021 meeting minutes.	Motion – Josh Beaulieu Second – Mike Zacchera
<b><i>Old Business</i></b>	M. Zacchera shared reporting on CVA with a documented stroke scale. E. Little shared reporting on glucose administration for patients with documented BGL <60. Both reports provide examples of reporting capabilities but also call to question some of the potentials for inaccuracies in reporting, such as inconsistent use of check boxes. Some data is in narratives only and is difficult to report out on. The committee discussed how to identify specific performance measures for focus in CT. Example performance measures from several states were looked at. The CEMSMAC performance measures document (developed 2017) was discussed at length. Several ideas were considered for where to place the committees focus. Specific performance measure categories were agreed upon for further discussion.	OEMS will be creating the following reports for the April meeting:  <u>Trauma</u> <ul style="list-style-type: none"> <li>• Adult – Pain assessment and management</li> <li>• Pediatric – Pain assessment and management</li> </ul> <u>Operations/Safety</u> <ul style="list-style-type: none"> <li>• Use of lights and sirens during response to scene</li> <li>• Use of lights and sirens during transport</li> </ul>
