Director, Office of Emergency Medical Services

Richard Kamin, MD, FACEP <sup>RK</sup>  
Medical Director, Office of Emergency Medical Services

Re: Release of Connecticut Statewide EMS Protocols – v2023.1

---

The purpose of this communications statement is to notify you that the 2023.1 version of the Connecticut Statewide EMS Protocols have been approved by the Commissioner and have been published to the [Statewide EMS Protocols page](#) of the OEMS website.

A companion summary document of the revision changes can also be found there. This update represents the ongoing work of the CEMSMAC Protocol Subcommittee through collaboration across the spectrum of medical oversight from the EMS sponsor hospitals, regional Medical Advisory Committees, Connecticut EMS Medical Advisory Committee, and the Department of Public Health.

As with previous versions, implementation for each EMS organization is under the direction of their EMS sponsor hospital.
