

# COVID-19 Provider Update

Wednesday, May 4, 2022

# First Dose of COVID-19 Vaccine Administered by Week and Age Group

Data reported to CT Wiz by 4/26/2022

# Additional Dose 1 COVID-19 Vaccine Administered by Week and Age Group

Data reported to CT Wiz by 4/26/2022

# Additional Dose 2 COVID-19 Vaccine Administered by Week and Age Group

Data reported to CT Wiz by 4/26/2022

# Shelf-Life Extensions for COVID-19 Vaccines

FDA extended the shelf-life for the J&J/Janssen COVID-19 vaccine from 9 months to 11 months. This shelf-life extension applies to refrigerated vials of J&J COVID-19 vaccine that have been held in accordance with the manufacturer's storage conditions.

The expiration date can be obtained by entering the lot number from the carton or vial using the website [www.vaxcheck.jnj](http://www.vaxcheck.jnj) or by phone using an automated response system at 1-800-565-4008.

FDA extended the shelf-life for Pfizer Tris COVID-19 vaccine product formulations below **from 9 to 12 months**:

- Pfizer Tris Pediatric vaccine (**Orange Cap** for ages 5 through 11, with diluent)
- Pfizer Adult Tris (**Gray Cap** for ages 12+, no diluent)

Vials stored in an ultra-low temperature freezer at -90°C to -60°C (-130°F to -76°F) may remain in use **for up to 12 months beyond the date of manufacture** printed on the vials and cartons. Vials stored in refrigerated vials (2°C to 8°C) are **NOT** eligible for extension, regardless of the expiration date.

Pfizer **Orange** and **Gray** Cap Tris Vaccine expiry dates based on 12 months from the date of the manufacture are shown at [Expiry Information for Pfizer COVID-19 Vaccines](#).

# Tentative VRBPAC Meetings Scheduled

FDA announced its plans to hold virtual meetings of its VRBPAC in anticipation of complete submissions of EUA requests in the coming months that have been publicly announced by COVID-19 vaccine manufacturers. It is important to note that the dates below are tentative as none of the submissions are complete. Pending submission of complete data that support a path forward, FDA will act quickly and anticipates convening the following VRBPAC meetings:

- **June 7:** EUA request for a COVID-19 vaccine manufactured by Novavax to prevent COVID-19 in individuals 18 years of age and older.
- **June 8, 21 and 22,** the FDA has held dates for the VRBPAC to meet to discuss updates to the Moderna and Pfizer-BioNTech EUAs for their COVID-19 vaccines to include younger populations. As the sponsors complete their submissions and the FDA reviews that data and information, it will provide additional details on scheduling of the VRBPAC meetings to discuss each EUA request.
- **June 28:** whether SARS-CoV-2 strain composition of COVID-19 vaccines should be modified, and if so, which strain(s) should be selected for Fall 2022. This meeting is a follow-up to the April 6 VRBPAC meeting that discussed general considerations for future COVID-19 vaccine booster doses and the strain composition of COVID-19 vaccines to further meet public health needs.

# VaccineFinder Reporting

## Inventory Reporting Update

As of May 1, 2022, providers must report COVID-19 vaccine supply levels at least *weekly* by close of business on Fridays.

All other provisions regarding data remain unchanged.

*Reminder: Providers no longer participating in COVID-19 vaccination should be zeroed out*

# Patient Reminder/Recall Reports

- The Patient Reminder/Recall report generates a list of patients due (reminder) or overdue (recall) for vaccinations.
- A patient is only included in your report if they have an active status at your clinic and your clinic gave a prior dose.
- Reminder/Recall reports are processed overnight.
- Reminder/Recall reports are based on immunization data that has been entered into CT WiZ.
- The reports are based on ACIP logic and should be used to assist with clinical decision making.

☐ Ignore Setting For "Do Not Include Patient in Reminder/Recall"?  
☐ Only Include Patients With Address (i.e., Street Address, City, State, Zip)?  
☐ Increment Patient Reminders/Recall Count?  
☐ Exclude Patients After Number of Reminders/Recalls Without Subsequent Vaccination  
☐ Generate Reminder/Recall Event?  
☐ Include Patients Due For Vaccinations (Reminders)? 8  
☐ Include Patients Overdue For Vaccinations (Recalls)?  
☐ Minimum Number Of Days Past Due To Include ☐ Maximum Number Of Days Past Due To Include  
☐ Only include patients with 2 or more non- Influenza/H1N1-09/COVID-19 vaccinations?  
☐ Exclude patients with one or more vaccine refusals?

**Vaccine Series and Optional Dose (Note: Leave Dose blank to include all doses in series)**

1. Give the report a **Run Name**
2. Make sure the selected **Provider** and **Clinic** are correct for the report you want to run
3. Select a Report Type:
  - **Patient Default Clinic** – for medical homes and routine vaccinations or
  - **Vaccination Clinic** – for non-medical homes – better serves pandemic and flu vaccines where the patient default clinic is not updated when the vaccination is documented
4. Enter a **Run Schedule Date** (Double-click to enter today's date or you may choose a future date)
  - The report will process overnight
5. Enter a **Reminder/Recall Date Range**.
  - The report will show a list of patients due or overdue for the selected date range
6. Enter an **Age Range** (This narrows the report to show a list of patients within that specified age range. Make sure that you change the UOM to years for the older patients).
- \*OR**
7. Enter a **Date of Birth Date Range** (This narrows the report to show a list of patients within that specified DOB range).
8. **Select Reminders (Due) or Recalls (Overdue)** – It is recommended that you do not check both boxes for a single report as the it does not differentiate which patients are due or overdue.

Create Cancel

There are many options you can choose when creating your report:

9. Enter a **City** or **Zip Code**

10. Select a **Gender**

11. **Increment Patient Reminder/Recall Count & Generate Reminder/Recall Event**

- Checking these boxes are important if you want to mark patients as "Lost to Follow up" after 3 Reminder Recall Runs & no vaccinations in the last 120 days.

12. Specify the **number of days past due** for Recalls

13. Select the **Vaccine Series** that you want to assess

14. **Number of Doses** that you want to assess

- Only use this if you are looking for a specific dose. e.g. if you enter 4<sup>th</sup> DTaP, you will ONLY get a listing of patients missing the 4<sup>th</sup> DTaP, and not children that missed their 1<sup>st</sup>, 2<sup>nd</sup>, or 3<sup>rd</sup> DTaP.

15. Click **Create** when done

# Tips for Running CT WiZ Reports

- Visit: [Patient Management](#) for CT WiZ Training
- If a patient leaves your clinic, [inactivate patients from your clinic in CT WiZ](#) – *before* you run reports.
- **Run smaller Reports** – they are easier to manage.
- Larger reports will slow the CT WiZ system down and your report may timeout.
- Multiple reports can be generated to cover all patients (stagger over different days).
- Use the dose box by the vaccine/s to help target the data you are looking to generate.
- For help: [Contact Us](#)

# Notice to Patients About Reporting to CT WiZ

## Reminder to Display in Your Clinics

### Notice to Patients About Reporting to CT WiZ

#### STATE OF CONNECTICUT DEPARTMENT OF PUBLIC HEALTH

#### Notice to Patients about reporting to CT WiZ

As required by law and to protect your health, your doctor will share immunization information (i.e., "shots" or "vaccines") with the State of Connecticut Department of Public Health (DPH). DPH will store your shots in its immunization system called CT WiZ. CT WiZ helps make sure you get the shots needed to protect you against vaccine preventable diseases. If your shot record is lost or not available, DPH can share it with you and your doctor. You can choose to exclude your shot information from CT WiZ by sending a signed written request to the DPH Immunization Program. Immunization systems help prevent and control disease. All information is kept confidential as required by law.

#### Notificación a pacientes acerca el reporte de inmunizaciones a CT WiZ

Según lo exige la ley y para proteger su salud, su médico compartirá la información de inmunizaciones ("vacunas") con el Departamento de Salud Pública (DPH) del Estado de CT. DPH almacenará sus vacunas en su sistema de inmunización llamado CT WiZ. CT WiZ ayuda a asegurar que reciba las vacunas necesarias para protegerlo contra enfermedades peligrosas. Si el registro de sus vacunas se pierde o no está disponible, DPH puede compartirlo con usted y su médico. Usted puede optar por excluir la información de sus vacunas de CT WiZ enviando una solicitud firmada por escrito al Programa de Inmunización de DPH. Los sistemas de inmunización ayudan a prevenir y controlar enfermedades. Toda la información se mantiene confidencial como lo exige la ley.
