DEPARTMENT OF PUBLIC HEALTH

Dear Connecticut COVID-19 Vaccine Providers,

Thank you again for your continued efforts in the COVID Vaccine roll-out. This email contains the link to a survey that is required for providers who have received and/or administered the Janssen (J&J) vaccine. Please complete this survey no later than **Thursday May 27 at 12pm ET**.

This survey is designed to support Connecticut's overall efforts to use its J&J vaccine on a first in, first out basis and ensure that any expiration risks are avoided. Please complete the entire survey so that we have the full picture of how many doses of J&J are in your inventory and the anticipated expiration dates of those doses.

We encourage all COVID Vaccine providers to continue to promote vaccination in their communities and to vaccinate individuals seeking a dose. All vaccine products should be used on a first in, first out basis to ensure that the doses expiring first are used before the doses with a later expiration date.

The information collected in this survey will help us more effectively and efficiently manage the State's vaccine supply.

Thank you!
