Katherine Yacavone

Southwest Community Health Center

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Access to Health Services/Infrastructure

SHIP Objective

Combined HS-3, HS-8, and HS-11

NEW Objective HS-3 (Developmental)

Increase the quality and performance of clinical and public health entities as measured by:

- Number of accredited PCMH that include dental
- Number of Connecticut Health and social service agencies that have adopted CLAS
- The number of voluntarily accredited public health departments

Dashboard Indicators:

- Number of accredited PCMH that include dental
- Number of Connecticut Health and social service agencies that have taken steps to implement CLAS in health and health care
- Percentage of governmental public health jurisdictions that meet National Public Health Accreditation Board standards.

Strategies	Actions and Timeframes	Partners Responsible	Progress
Provide financial incentives to health jurisdictions for accreditation and to those who are accredited.	 a. Identify funding sources and incentives b. Consider increase in per capita for those health departments/districts achieving accreditation. c. Communicate financial sources available d. Seek to increase funding available including but not limited to, ensuring grant funds can be used for accreditation activities. e. Ask health jurisdictions for input on what incentives would be most effective f. Provide education to raise awareness of accreditation and promote benefits (e.g., training already available, no cost webinars) 	Leads: DPH, Yale PHTC, CT Association of Local Boards of Health (CALBOH); CADH	

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Access to Health Services/Infrastructure

SHIP Objective

Combined HS-3, HS-8, and HS-11

NEW Objective HS-3 (Developmental)

Increase the quality and performance of clinical and public health entities as measured by:

- Number of accredited PCMH that include dental
- Number of Connecticut Health and social service agencies that have adopted CLAS

	,	Align Community Health Improvement Plans with goals and strategies in Healthy Connecticut 2020. b. c. d. Establish a listing/registry of practices that are Patient-Centered Medical Home (PCMH) accredited. b. Support establishment of training for health and social service providers b. Establish inclusion criteria and baseline. (CLAS)	Align Community Health Improvement Plans with goals and strategies in Healthy Connecticut 2020. b. Develop a crosswalk template/tool to make HCT2020 easy to understand and check off areas of alignment with local CHIPs. c. Distribute template to all depts/districts developing CHIPs from 2015 on. d. Determine baseline number of Health departments / districts working collaboratively with hospitals and health systems through health improvement coalitions e. Establish a listing/registry of practices that are Patient-Centered Medical Home (PCMH) accredited. Establish ment of training for health and social service providers Establish inclusion criteria and baseline. (CLAS) Establish inclusion criteria and baseline. (CLAS) a. Begin with small sample such as local and state agencies. Year 2: Develop criteria for what to count C. Assess who is currently using CLAS and how they are implementing CLAS d. Identify how to collect baseline data	Align Community Health Improvement Plans with goals and strategies in Healthy Connecticut 2020. 8

December 2015

Focus Area 7: Health Systems

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Access to Health Services/Infrastructure

SHIP Objective

Combined HS-3, HS-8, and HS-11

NEW Objective HS-3 (Developmental)

Increase the quality and performance of clinical and public health entities as measured by:

- Number of accredited PCMH that include dental
- Number of Connecticut Health and social service agencies that have adopted CLAS
- The number of voluntarily accredited public health departments

Resources Required (human, partnerships, financial, infrastructure or other)

• Partnerships; human resources of lead person/agency;

Monitoring/Evaluation Approaches

Provide quarterly report outs

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Access to Health Services

SHIP Objective HS-4: Decrease the number of patients expressing difficulty in accessing health services due to the lack of non-emergency

transportation services. (DEVELOPMENTAL)

Dashboard Indicator: Number of patients expressing difficulty in accessing health services due to non-emergency transportation services

• BRFSS data is available for years 2013 and 2014 and may provide a proxy or refine indicator

Strategies	Actions and Timeframes	Partners Responsible	Progress
Establish a baseline and monitor progress by exploring use of existing survey vehicles such as Connecticut Behavioral Risk Factor Surveillance System (BRFSS).	a. Invite representatives from key organizations to a meeting to present the Year 1 Action Agenda for this objectives, and gauge the level of interest in their participation in a small, core group to be responsible for leading the implementation efforts.	Subgroup of HS Action Team (A.Fountain to initially investigate and attend a DOT regional planning meeting) Suggested groups: Office for Health Care Advocate, CT Hospital Association, CT Chapter of American Planning Association, DSS	
	b. Conduct an assessment to determine coverage of existing non-emergency transportation services. (Complete in Yr. 2) Timing: Complete in Yr 2	Support/Implement: Establish or link with an existing Transportation Work Group DOT, Local Health Depts, Graduate students/ Student Consulting Group at Yale (Kathi will check to see if they are booked), UConn Transportation Institute (Prof. Lownes), Ombudsmen (quarterly meetings), Regional planning orgs, CT Conference of Municipalities – may have access/transportation work group?	
	c. Develop/update a mapping of coverage of existing non-emergency transportation services. Timing: Yr 2		
	d. Identify gaps in coverage of existing non- emergency transportation services. Timing: Yr 2		

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Access to Health Services

Area of Concentration: Access to Health Se	ervices
	umber of patients expressing difficulty in accessing health services due to the lack of non-emergency
transportation	services. (DEVELOPMENTAL)
	e. Determine the quality of the current
	transportation systems and define "adequate
	transportation" in this context
	Timing: Yr 2
	f. Identify new or refine strategies to address
	gaps"
	Timing: Yr 2
	MONITOR PROGRESS
	g. Monitor updates in data from the above listed
	sources in order to track
	changes/improvements in coverage of
	existing non-emergency transportation services and gauge the impact of strategies
	implemented in future years.
	Timing: Yr 2 and 3
	h. Determine if Performance
	measures/reporting exists and where this
	data housed (e.g., state contracts)?
	Timing: future years of implementation
	i. Explore ways to communicate information to
	identified target audiences
	Local planning process identified lack of
	information and awareness about rural
	transportation. Missing Northwest corner
	of the state.
	Timing: Yr 2 or 3 depending upon progress

Resources Required (human, partnerships, financial, infrastructure or other)

- Partnerships with existing initiatives
- Human resources to represent to existing groups working in this area, issues related to access to health services and relationship to statewide health improvement
- Financial costs may be associated with assessment and analysis unless graduate students or other are available to do this work.

Monitoring/Evaluation Approaches

- Provide quarterly report outs
- Ask that questions on transportation be added to all Community health assessments
- Passengers per hour, # turned down for transportation

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Public Health Infrastructure

SHIP Objective HS-12: All Connecticut communities are covered by a community health assessment. (DEVELOPMENTAL)

Dashboard Indicator: Percentage of Connecticut communities covered by a community health assessment

- # hospitals conducting assessments (all; and starting 2nd round of assessments in 3 yr cycle)
- # health depts. conducting assessments (38 of 73)
- # FQHC's conducting assessments
- # communities covered by assessments (from hospital assessments several north central communities not covered)

Strategies	Actions and Timeframes	Partners Responsible	Progress
1. Encourage regional health assessments.	a. Establish a baseline of the number of communities currently covered by a community health assessment (within the past 3 years).	Lead: Core Group comprised of DPH/CHA/CADH Support/Implement: CTSIM DataHaven- Interviews were conducted in every town. The samples in small towns are small. Universities FQHC's (uniform data system) Boards of Health Local Health Depts	
	b. For assessments conducted, determine the level of partnering/collaboration with/between Hospitals, FQHC's, Local health department(s), CADH, Other agencies		
	 Identify those communities NOT covered by any type of assessment (remember, we're not looking at covering every person, but every community). 		
	d. Generate and explore options for getting the communities covered who are not already covered by an assessment (e.g., expanding areas for hospital assessments, establishing partnerships to expand assessment areas). Timing: Yr 2		
	e. Establish a systematic process for conducting assessments that includes greater alignment and rigor Timing: Yr 2		

December 2015

Focus Area 7: Health Systems			
Goal 7: Align efforts of health systems stake	eholders to achieve sustainable, equitable, and optimal population health.		
Area of Concentration: Public Health Infrastructure			
SHIP Objective HS-12: All Connecticut communities are covered by a community health assessment. (DEVELOPMENTAL)			
	f. Explore establishing/expanding use of templates and data sharing agreements. Timing: Yr 2 or 3 depending upon progress		
Described (houses and realistic financial infrastructure and how)			

Resources Required (human, partnerships, financial, infrastructure or other)

- Costs of doing assessments explore other partners who are interested in the health of their communities
- Partnerships link to existing groups working on and discussing community health assessments
- Human/people

Monitoring/Evaluation Approaches

- Provide quarterly report outs
- Healthy CT 2020 Performance dashboard (see indicator above)
 (Notes: other relevant data sources for Assessments and indicators include BRFSS/YBRFS; SIM Population Health Assessment and evaluation data)

Goal 7: Align efforts of health systems stakeholders to achieve sustainable, equitable, and optimal population health.

Area of Concentration: Public Health Infrastructure

SHIP Objective HS-13 NEW (DEVELOPMENTAL) COMBINED HS-13 AND HS-14

Increase the capacity of the current clinical and public health workforce (e.g., number, skills, diversity, geography) as measured by:

- The total number of those employed in workforce categories
- Graduation rates of those with public health related or clinical degrees
- Racial/ethnic demographics of the workforce
- The number of continuing professional development certificate/CEU's for those in established public health and clinical careers.
- The number of clinical and public health workforce employees by geographic area.

Dashboard Indicator:

- Identify and reduce professional health workforce shortages
- Increase the diversity of the health workforce

Strategies	Actions and Timeframes	Partners Responsible	Progress
Monitor health and health care workforce data	 a. Identify the resources needed for state level leadership to assess and plan for a workforce capacity development. b. Look at existing groups (e.g., Allied Health Workforce Policy Board and their data sources (assessment) c. Determine which state agencies have data on public health and clinical workforce. d. Gather data from identified sources 	No Lead Identified Yet	
	 Year 2: Analyze data (advocate for resource or look into graduate students/universities). Have meeting with university and hospital HR heads to identify the shortages and why there are shortages 	Support/Implement:	

Resources Required (human, partnerships, financial, infrastructure or other)

• Partnerships and human resources needed for this objective and strategy

Monitoring/Evaluation Approaches

Provide quarterly report outs
