Governor

Jewel Mullen, MD, MPH, MPA
Commissioner

ESTIMATED POPULATIONS IN CONNECTICUT AS OF JULY 1, 2014

Population estimates of Connecticut's eight counties and 169 towns for 2014 were prepared for distribution by the Connecticut Department of Public Health (DPH), Statistics Analysis and Reporting Unit within the section of Health Statistics and Surveillance. These estimates constitute the basis of birth, death, and other population-based rates for 2014 and forward.

Method of Estimation

County and town population estimates for July 1, 2014 were released by the U.S. Census Bureau's (USCB) Population Estimates Program in May of 2014. These USCB figures were adopted for the state's town-level estimates. The method used by the USCB to calculate sub-county population estimates is described in detail at http://www.census.gov/popest/methodology/2014-su-meth.pdf.

2014 Population Estimates

The July 1, 2014 population estimate for the state of Connecticut is 3,596,677. The 2014 estimate was 22,580 higher than the July 1, 2010 population estimate of 3,577,845. Population estimates for Connecticut's counties and towns are given in the attached table.

ESTIMATED POPULATION OF CONNECTICUT AS OF JULY 1, 2014

Table with 3 columns: Estimated Population, Change in Population, 2010-2014 (Number), Change in Population, 2010-2014 (Percent). Row 1: 3,596,677, +22,580, +0.63%

Notes:

- (1) Table 4. Annual Estimates of the Resident Population for Minor Civil Divisions in Connecticut, by County: April 1, 2010 to July 1, 2014 (SUB-EST2014-04-09), Population Division, U.S. Census Bureau, Release Date: May, 2014.
- (2) The April 1, 2010 Population Estimates base reflects changes to the 2010 Census population from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It does not reflect changes from the Count Question Resolution program. All geographic boundaries for the 2014 population estimates series are defined as of January 1, 2014. Additional information on these localities can be found in the Geographic Change Notes (see <http://www.census.gov/popest/about/geo/changes.html>).
- (3) Backus, K, Mueller, LM (2011) Town-level Population Estimates for Connecticut, 2010, Connecticut Department of Public Health, Health Statistics and Surveillance, Statistics Analysis & Reporting, Hartford, CT.
- (4) July 1, 2010 population estimates were estimated by CT DPH in 2011 (as described below) and may be slightly higher or lower than the USCB's estimate for July 1, 2010 published on June 28, 2013. The April 1, 2010 Census count was used as the base population figure for each town. The change in population for the three months between April 1, 2010 and July 1, 2010 was estimated by calculating the "natural increase" in population (i.e. births minus deaths) and the estimated net migration during this period. Three-month birth and death counts were based on tabulations of provisional 2010 birth and death files. Net migration was estimated for each town based on the population change and the natural increase in population over the last decade (2000-2010). The estimated three-month population change was added to the base April 1, 2010 population figure for each town to calculate the July 1, 2010 population estimate.
