RE: MRC Training Survey

Thank you for your participation in the recent MRC CT Responds Training Series. Your involvement and engagement were invaluable, and we hope you found the sessions both informative and beneficial.

To continually improve and tailor our training programs to better meet your needs, we are conducting a post-training survey. The purpose of this survey is to gather your feedback on the efficiency, applicability, and areas for improvement regarding the training series. Your insights and experiences are critical in helping us understand what worked well and what could be enhanced.

The results of this survey will inform future MRC learning opportunities. By sharing your honest feedback, you will contribute directly to the development of more effective and relevant training programs for participants.

We appreciate your time and effort in completing this survey. Your input is highly valued and will help us ensure that future training initiatives are as impactful and as successful as possible.

Thank you once again for your participation and for your commitment to improving our emergency response capabilities. Should you have any questions or require further assistance, please do not hesitate to contact me at makayla.andrews@ct.gov in the DPH Office of Public Health Preparedness and Response.

Please find the survey link here: [MRC Survey](#)
