2.0 Overview

Through this Request for Proposals ("RFP"), the Injury Prevention Center (IPC) at Connecticut Children's Medical Center, under funding from the State of Connecticut Department of Public Health (CT DPH) and in consultation with the Commission on Community Gun Violence Intervention and Prevention, is seeking competitive proposals from community-based agencies to provide community violence intervention and prevention (CVIP) services as detailed herein. It is the IPC's intent to award a total of \$2 million in funded projects, conditional on adequate funds being provided by CT DPH.

2.1 Background

With support from the Connecticut Department of Public Health the IPC will fund up to \$2 million in grant funds for 2024-2025. This funding will be renewable contingent on available funding from CT DPH and successful implementation of the current grant. Awards will be made in amounts of \$200,000 per award based on an annual 12-month budget. Proposals will be accepted from A) non-profit organizations with an annual operating budget of less than \$1,000,000, B) non-profit organizations with an annual operating budget of \$1,000,000 or more, and C) local public health department/district, Youth Service Bureaus, or municipal offices charged with responsibility for community violence prevention work. As long as there are enough qualified applicants, a minimum of four (4) awards will be made to category 'A' applicants, two (2) to category 'B' applicants, and two (2) to category 'C' applicants. Current CVI Grant recipients from the first round of funding from 2023 (#RFP1-2023) are not eligible to apply for this opportunity.

2.2 Term of Agreement

The term of the agreement is expected to be September 1, 2024 ending June 30, 2025. Projects can be proposed for a term of one year. Projects can be proposed with a maximum budget of \$200,000.

3.0 Bidder's Qualifications to Propose
