CONCLUSION OF LAW

1. Section 19a-535(h)(1) of the Connecticut General Statutes (Conn. Gen. Stat.) authorizes the Commissioner of the Department of Social Services to hold a hearing to determine whether the transfer or discharge is in accordance with this section.
2. Conn. Gen. Stat. 19a-535(a)(4) provides that the term "discharge" means the movement of a resident from a facility to a non-institutional setting.
3. Conn. Gen. Stat. §19a-535(b) provides that a facility shall not transfer or discharge a resident from the facility except to meet the welfare of the resident which cannot be met in the facility, or unless the resident no longer needs the services of the facility due to improved health; the facility is required to transfer the resident pursuant to section 17b-359 or section 17b-360, or the health or safety of individuals in the facility is endangered, or in the case of a self-pay resident, for the resident's nonpayment or arrearage of more than fifteen days of the per diem facility room rate, or the facility ceases to operate. In each case the basis for transfer or discharge shall be documented in the resident's medical record by a physician. In each case where the welfare, health or safety of the resident is concerned the documentation shall be by the resident's physician.
4. Conn. Gen. Stat. §19a-535(a)(5) provides in part that "self-pay resident" means a resident who is not receiving state or municipal assistance to pay for the cost of care at a facility, but shall not include a resident who has filed an application with the Department of Social Services for Medicaid coverage for facility care but has not received an eligibility determination from the department for information that is necessary to make such determination.
5. The Resident has filed an application for Medicaid assistance with the Department.
6. The facility cannot discharge the Resident for non-payment as he is not a self-pay resident.
7. Conn. Gen. Stat. § 19a-535(d) provides in relevant part that no resident shall be transferred or discharged from any facility as a result of a change in the resident's status from self-pay or Medicare to Medicaid provided the facility offers services to both categories of residents.
8. Conn. Gen. Stat. §19a-535(c)(1) provides that before effecting a transfer or discharge of a resident from the facility, the facility shall notify, in writing, the resident and resident's guardian or conservator, if any, or legally liable relative or other responsible party if known, of the proposed transfer or discharge the reasons therefore, the effective date of the proposed transfer or discharge, the location to which the resident is to be transferred or discharged, the right to appeal the proposed transfer or discharge and the procedures for initiating such an appeal as determined by the Department of Social Services, the date by which an appeal must

be initiated in order to preserve the resident's right to an appeal hearing and the date by which an appeal must be initiated in order to stay the proposed transfer or discharge and the possibility of an exception to the date by which an appeal must be initiated in order to stay the proposed transfer or discharge for good cause, that the resident may represent himself or herself or be represented by legal counsel, a relative, a friend or other spokesperson, and information as to bed hold and nursing home readmission policy when required in accordance with section 19a-537. The notice shall also include the name, mailing address and telephone number of the State Long-Term Care Ombudsman. If the resident is, or the facility alleges a resident is, mentally ill or developmentally disabled, the notice shall include the name, mailing address and telephone number of the Office of Protection and Advocacy for Persons with Disabilities. The notice shall be given at least thirty days and no more than sixty days prior to the resident's proposed transfer or discharge, except where the health or safety of individuals in the facility are endangered, or where the resident's health improves sufficiently to allow a more immediate transfer or discharge, or where immediate transfer or discharge is necessitated by urgent medical needs or where a resident has not resided in the facility for thirty days, in which cases notice shall be given as many days before the transfer or discharge as practicable.

9. The Facility gave the Appellant and appropriate parties at least 30 days notice of the proposed discharge date and all other information as required by State Statute.
7. Conn. Gen. Stat. § 19a-535(e) provides that except in an emergency or in the case of transfer to a hospital, no resident shall be transferred or discharged from a facility unless a discharge plan has been developed by the personal physician of the resident or the medical director in conjunction with the nursing director, social worker or other health care provider. To minimize the disruptive effects of the transfer or discharge on the resident, the person responsible for developing the plan shall consider the feasibility of placement near the resident's relatives, the acceptability of the placement to the resident and the resident's guardian or conservator, if any or the resident's legally liable relative or other responsible party, if known, and any other relevant factors which affect the resident's adjustment to the move. The plan shall contain a written evaluation of the effects of the transfer or discharge on the resident and a statement of the action taken to minimize such affects. In addition, the plan shall outline the care and kinds of service which the resident shall receive upon transfer or discharge. Not less than thirty days prior to an involuntary transfer or discharge , a copy of the discharge plan shall be provided to the resident's personal physician if the discharge plan was prepared by the medical director, to the resident and the resident's guardian or conservator, if any, or legally liable relative or other responsible party, if known.

DISCUSSION

After reviewing the evidence and testimony presented at this hearing, I find that the Facility may not discharge the Resident for non-payment because she has filed an application for Medicaid coverage for facility care. The Facility is incorrect to transfer/discharge the Appellant while her long-term care Medicaid benefits application is still pending. Also, it is not clear whether the Appellant's personal physician or the medical director in conjunction with the nursing director, social worker or other health care professional developed the discharge plan. The plan was signed by the Facility's APRN, who is not a physician.

DECISION

The Appellant's appeal is **GRANTED**.

ORDER

1. The Facility is ordered to rescind its proposal to involuntarily discharge the Appellant from its care.
2. No later than [REDACTED] 2016, the Facility will submit to OLCRAH proof of compliance with this order.
