PROCEDURAL BACKGROUND

On ██████████ 2016, Connecticut Dental Health Partnership (“CTDHP”) sent ██████████ ██████████ the “Appellant”) a notice of action denying a request for prior authorization of orthodontia for ██████████ indicating that the severity of her malocclusion did not meet the criteria set in state regulations to approve the proposed treatment.

STATEMENT OF THE ISSUE

The issue is whether CTDHP's denial of prior authorization through the Medicaid program for ██████████ orthodontic services was in accordance with state law.

FINDINGS OF FACT

1. The Appellant is the mother of ██████████. (Hearing record)
2. ██████████ (D.O.B. ██████/1997) is a participant in the Medicaid program, as administered by the Department. (Exhibit 1: Dental Claim Form and Hearing summary)
3. CTDHP is the Department's contractor for reviewing dental providers' requests for prior authorization of orthodontic treatment. (Hearing Record)
4. New Haven Orthodontics is the Appellant's treating orthodontist (the "treating orthodontist"). (Exhibit 1: Dental Claim Form and Hearing summary)
5. On ██████████ 2016, the treating orthodontist requested prior authorization to complete orthodontic services for ██████████ (Exhibit 1 and Hearing summary)
6. On ██████████ 2016, CTDHP received from the treating orthodontist, a Preliminary Handicapping Malocclusion Assessment Record with a score of 25 points, Dental models and Panorex films of ██████████ mouth. The record indicated that there were no severe deviations affecting her mouth and underlying structures. (Exhibit 2: Malocclusion Assessment Record and Hearing summary)
7. On ██████████ 2016, Dr. Benson Monastersky, D.M.D., CTDHP's orthodontic dental consultant, independently reviewed ██████████ models and panoramic radiographs, and arrived at a score of 21 points on a completed Preliminary Handicapping Malocclusion Assessment Record. Dr. Monastersky found no existence of severe irregular placement of ██████████ teeth within the dental arches or of irregular growth or development of the jaw bones. There was no evidence of emotional issues directly related to her mouth. (Exhibit. 3: Preliminary Handicapping Malocclusion Assessment Record)
8. On ██████████ 2016, CTDHP sent a Notice of Action letter to the Appellant explaining that ██████████ did not qualify for orthodontic services because it was not

medically necessary. (Exhibit 4: Notice of Action for Denied Services and Hearing summary)

9. On [REDACTED] 2016, the Appellant requested an administrative hearing regarding CTDHP's denial of orthodontia. (Exhibit 5: Administrative Hearing Request form and Hearing summary)
10. On [REDACTED] 2016, Dr. Geoffrey Drawbridge, D.D.S., Dental Consultant for CTDHP, reviewed [REDACTED] model's and panoramic radiographs and arrived at a score of 18 points on a completed Preliminary Handicapping Malocclusion Assessment Record. Dr. Drawbridge also found no evidence of severe irregular placement or irregular growth or development of the jaw bones. There was no evidence presented of the presence of emotional issues directly related to her dental condition. (Exhibit 7: Preliminary Handicapping Malocclusion Assessment Record and Hearing summary)
11. On [REDACTED] 2016, CTDHP notified the Appellant that a second appeal review score of 18 points did not meet the criteria for orthodontic treatment. (Exhibit 9: Appeal Review Letter and Hearing summary)
12. [REDACTED] has not received treatment by a qualified psychiatrist or psychologist for mental emotional or behavior problems, disturbances or dysfunctions related to her teeth or mouth. ([REDACTED] testimony)

CONCLUSIONS OF LAW

1. Connecticut General Statutes §17b-262 provides that the Department may make such regulations as are necessary to administer the medical assistance program.
2. Connecticut Agencies Regulations §17-134d-35(a) provide that orthodontic services for services provided for individuals less than 21 years of age will be paid for when provided by a qualified dentist and deemed medically necessary as described in these regulations.
3. Connecticut General Statutes §17b-259b provides (a) For purposes of the administration of the medical assistance programs by the Department of Social Services, "medically necessary" and "medical necessity" mean those health services required to prevent, identify, diagnose, treat, rehabilitate or ameliorate an individual's medical condition, including mental illness, or its effects, in order to attain or maintain the individual's achievable health and independent functioning provided such services are: (1) Consistent with generally-accepted standards of medical practice that are defined as standards that are based on (A) credible scientific evidence published in peer-reviewed medical literature that is generally recognized by the relevant medical community, (B) recommendations of a physician-specialty society, (C) the views of physicians practicing in relevant clinical areas, and (D) any other relevant factors; (2) clinically appropriate in

terms of type, frequency, timing, site, extent and duration and considered effective for the individual's illness, injury or disease; (3) not primarily for the convenience of the individual, the individual's health care provider or other health care providers; (4) not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual's illness, injury or disease; and (5) based on an assessment of the individual and his or her medical condition.

4. Section 17b-282e of the Supplement to the Connecticut General Statutes provides that The Department of Social Services shall cover orthodontic services for a Medicaid recipient under twenty-one years of age when the Salzmann Handicapping Malocclusion Index indicates a correctly scored assessment for the recipient of twenty-six points or greater, subject to prior authorization requirements. If a recipient's score on the Salzmann Handicapping Malocclusion Index is less than twenty-six points, the Department of Social Services shall consider additional substantive information when determining the need for orthodontic services, including (1) documentation of the presence of other severe deviations affecting the oral facial structure; and (2) the presence of severe mental, emotional or behavioral problems or disturbances, as defined in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association, that affects the individual's daily functioning.
5. Connecticut Agencies Regulations §17-134d-35(f)(D) provide that the study Models submitted for prior authorization must clearly show the occlusal deviations and support the total point score of the preliminary assessment.
6. The study models submitted for prior authorization do not show occlusal deviations and the treating orthodontist's total point score of 25 on the preliminary assessment does not meet the statutory requirement of twenty-six points or greater.
7. In the Appellant's case, a licensed psychiatrist or licensed psychologist who has limited his or her practice to child psychiatry or child psychology has not recommended that ██████ receive orthodontic treatment to significantly ameliorate her mental, emotional, and or behavior problems, disturbances or dysfunctions.
8. CTDHP was correct to find that ██████ malocclusion did not meet the criteria for severity, or 26 points, as established in Section 17b-282e of the Supplement to the Connecticut General Statutes..
9. CTDHP was correct to deny prior authorization because ██████ does not meet the medical necessity criteria for orthodontic services, in accordance with state statutes and regulations.

DISCUSSION

State regulations provide that when a person is correctly scored with at least 26 points on a Preliminary Handicapping Malocclusion Assessment Record, a test measuring severity of malocclusion and dentofacial deformity, the Medicaid program will authorize and pay for orthodontic treatment. The treating orthodontist scored the malocclusion of [REDACTED] teeth to equal 25 points. Two dentists in blind reviews independently assessed her models and scored the malocclusion to equal 21 and 18 points each. It is reasonable to conclude that the models do not support the severity of malocclusions and dentofacial deformity.

The Appellant did not provide any other evidence of a substantial nature to indicate the presence of other severe deviations affecting the mouth and underlying structures. A licensed psychiatrist or licensed psychologist has not recommended that [REDACTED] receive orthodontic treatment to significantly ameliorate her mental, emotional, and or behavior problems, disturbances or dysfunctions.

The undersigned hearing officer finds that [REDACTED] malocclusion did not meet the criteria for severity, or 26 points, as established in state regulations to allow the Medicaid program to pay for orthodontic services.
