PROCEDURAL BACKGROUND

On 2016, the Office of Legal Counsel, Regulations, and Administrative Hearings ("OLCRAH") issued a Notice scheduling the administrative hearing for 2016.
On 2016, in accordance with sections 17b-60, 17b-61 and 4-176e to 4-189, inclusive, of the Connecticut General Statutes, OLCRAH held an administrative hearing.

The treating orthodontist noted the presence of severe deviations affecting mouth and underlying structures and wrote in the comment section, "Large overjet, Patient is Autistic – upper study model is slightly distorted, Patient moved while pan was being taken, unable to take photos". (Ex. 2: Preliminary Handicapping Malocclusion Assessment Record completed by Treating Orthodontist)

Dr. Monastersky did not find the presence of severe deviations affecting mouth and underlying structures and commented, "overjet noted in scoring". (Ex. 3: Preliminary Handicapping Malocclusion Assessment Record completed by Dr. Monastersky)
8.	On 2016, BeneCare denied the treating orthodontist's request for prior authorization of orthodontic services for the reason that the scoring of mouth was less than the 26 points required for coverage and there was no

additional substantial information about the presence of severe deviations affecting the mouth and underlying structures that if left untreated would cause irreversible damage to the teeth and underlying structures, or evidence that a diagnostic evaluation had been done by a licensed child psychologist or a licensed child psychiatrist indicating that the dental condition is related to a severe mental health condition and that orthodontic treatment would significantly improve the mental health problems. (Ex. 4: Notice of Action for Denied Services)

- 11.On 2016, BeneCare notified the Appellant that the outcome of the appeal review was that its original decision, that orthodontic treatment is not medically necessary for was upheld. (Ex. 8: Appeal Review Decision Letter)

(Dr. Lieb's testimony, Ex. 2, Ex. 3, Ex. 7)
- 13. is autistic. (Appellant's testimony, Hearing Record)
- doctor has never suggested that there is any connection between autism and the condition of his teeth, or made any recommendation that teeth be treated to help his autistic condition. (Appellant's testimony)
- 15. has never received any type of mental health treatment from a psychiatrist or psychologist. (Appellant's testimony)
