CONCLUSIONS OF LAW

 Section 17b-2(8) of the Connecticut General Statures states that the Department of Social Services is designated as the state agency for the administration of the Medicaid program pursuant to Title XIX of the Social Security Act.

- 2. For purposes of the administration of the medical assistance programs by the Department of Social Services, "medically necessary" and "medical necessity" mean those health services required to prevent, identify, diagnose, treat, rehabilitate or ameliorate an individual's medical condition, including mental illness, or its effects, in order to attain or maintain the individual's achievable health and independent functioning provided such services are: (1) Consistent with generally-accepted standards of medical practice that are defined as standards that are based on (A) credible scientific evidence published in peer-reviewed medical literature that is generally recognized by the relevant medical community, (B) recommendations of a physician-specialty society, (C) the views of physicians practicing in relevant clinical areas, and (D) any other relevant factors; (2) clinically appropriate in terms of type, frequency, timing, site, extent and duration and considered effective for the individual's illness, injury or disease; (3) not primarily for the convenience of the individual, the individual's health care provider or other health care providers; (4) not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual's illness, injury or disease; and (5) based on an assessment of the individual and his or her medical condition. Connecticut General Statutes § 17b-259b(a).
- 3. State regulations provide that orthodontic services for services provided for individuals less than 21 years of age will be paid for when provided by a qualified dentist and deemed medically necessary as described in these regulations. [Conn. Agencies Regs. § 17-134d-35(a)]
- 4. Connecticut General Statues Supplement § 17b-282(e) provides that the Department of Social Services shall cover orthodontic services for a Medicaid recipient under twenty-one years of age when the Salzmann Handicapping Malocclusion Index indicates a correctly scored assessment for the recipient of twenty-six points or greater, subject to prior authorization requirements. If a recipient's score on the Salzmann Handicapping Malocclusion Index is less than twenty-six points, the Department of Social Services shall consider additional substantive information when determining the need for orthodontic services, including (1) documentation of the presence of other severe deviations affecting the oral facial structures; and (2) the presence of severe mental, emotional or behavioral problems or disturbances, as defined in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association, that affects the individuals daily functioning.
- 5. State regulations provide that the study models submitted for prior authorization must clearly show the occlusal deviations and support the total point score of the preliminary assessment [Conn. Agencies Regs. § 17-134d-35(f)].
- 6. Benecare was correct to approve prior authorization because meets the medical necessity criteria for orthodontic treatment in accordance with state statutes and regulations.

- 7. Uniform Policy Manual § 1570.05(C)(2) provides that the Department denies or dismisses a request for a Fair Hearing if the requester or his or her representative withdraws the request in writing.
- 8. The Appellant did not withdraw her request for the fair hearing in writing.
- 9. The Appellant's appeal is most because BeneCare approved orthodontic treatment for therefore, there is no issue on which to rule.
