STATEMENT OF THE ISSUE

The issue is whether BeneCare's denial of prior authorization to complete orthodontic services for as not medically necessary was in accordance with state statute and regulations.

- FINDINGS OF FACT 1. The Appellant is the mother of the minor child, _____ (the "child"). (Hearing Record) 2. The child is years old (D.O.B.) and is a participant in the Medicaid program, as administered by the Department of Social Services (the "Department"). (Hearing Record) 3. BeneCare is the Department's contractor for reviewing dental providers' requests for prior authorization of orthodontic treatment. (Hearing Record) is the child's treating orthodontist (the "treating 4. orthodontist"). (Ex. 1: Prior Authorization Claim Form) 5. On the treating orthodontist requested prior authorization to complete comprehensive orthodontic treatment for the child. (Summary, Ex. 1) 6. On Beauty, BeneCare received from the treating orthodontist a *Preliminary* Handicapping Malocclusion Assessment Record with a score of 31 points, accompanied by models and panoramic x-ray films of the child's mouth. The treating orthodontist did not indicate that he observed any presence of severe deviations affecting the child's mouth and underlying structures, and wrote no comments on the assessment. (Ex. 2: Preliminary Handicapping Malocclusion Assessment Record completed by Treating Orthodontist)
- , Geoffrey Drawbridge, D.D.S., a BeneCare orthodontic dental 7. On consultant, independently reviewed the child's models and panoramic radiographs, and arrived at a score of 20 points on a completed Preliminary Handicapping Malocclusion Assessment Record. Dr. Drawbridge indicated he found no presence of severe deviations affecting the child's mouth and underlying structures, and noted that the child did not meet any of the criteria necessary for approval of interceptive orthodontic treatment. Dr. Drawbridge's decision on the application was that the proposed orthodontic treatment was not

- approved. (Ex. 3: *Preliminary Handicapping Malocclusion Assessment Record* completed by Dr. Drawbridge)
- 8. On BeneCare denied the treating orthodontist's request for prior authorization to complete orthodontic services for the reasons that the scoring of the child's mouth was less than the 26 points required for coverage, and that there was no additional substantial information about the presence of severe deviations affecting the mouth and underlying structures that if left untreated would cause irreversible damage to the teeth and underlying structures, or evidence that a diagnostic evaluation had been done by a licensed child psychologist or a licensed child psychiatrist indicating that the dental condition was related to a severe mental health condition and that orthodontic treatment would significantly improve the mental health problems. (Ex. 4: Notice of Action for Denied Services)
- 9. On _____, the Department received the Appellant's request for an administrative hearing. (Ex. 5: Appeal and Administrative Hearing request form)
- 10.On _______, Vincent Fazzino, D.M.D., another BeneCare orthodontic dental consultant, conducted an appeal review of the child's models and panoramic radiographs and arrived at a score of <u>22</u> points on a completed *Preliminary Handicapping Malocclusion Assessment Record.* Dr. Fazzino indicated on the assessment that he found no presence of severe deviations affecting the child's mouth and underlying structures, and his decision on the application was that the proposed orthodontic treatment was not approved. (Ex. 6: Preliminary Handicapping Malocclusion Assessment Record completed by Dr. Fazzino)
- 11. The *Preliminary Handicapping Malocclusion Assessment Record* contains three sections; in the first two sections, which address Intra-Arch Deviation of the anterior (front) and posterior (rear) teeth and Inter-Arch deviation of the anterior teeth, Dr. Drawbridge's and Dr. Fazzino's assessments were in perfect agreement, scoring the same 14 teeth as maloccluded and agreeing on the type of malocclusion affecting each of the scored teeth, each arriving at a total for the two sections of <u>20</u> points. (Ex. 3, Ex. 6)
- 12. The treating orthodontist scored <u>24</u> points for the first two sections of the assessment and his scoring was substantially in agreement with the assessments of the two orthodontic consultants, with identical scoring on 11 teeth. (Ex. 2, Ex. 3, Ex. 6)
- 13. In the third section of the assessment, the treating orthodontist's scoring diverged significantly from the scoring of the two BeneCare orthodontic consultants; the treating orthodontist scored <u>7</u> points in the third section while Dr. Drawbridge scored 0 points and Dr. Fazzino scored 2 Points. (Ex.2, Ex. 3, Ex. 6)

- 14. The third section of the assessment evaluates Inter-Arch deviation of the posterior teeth, and the <u>7</u> points scored by the treating orthodontist in that section were for forward-rearward deviation between the top and bottom teeth. (Hearing Record, Dr. Gold's testimony)
- 15. Deviations in the bite that are scored in section three can be evaluated by aligning the plaster casts of the teeth in terminal occlusion (where the upper and lower teeth would be expected to meet in a bite when the jaw is closed normally); using cast models to make the evaluation is as effective or more effective than making the evaluation through direct observation of the patient. (Dr. Gold's testimony)
- 16. Under the scoring criteria of the assessment, teeth only qualify to be scored with a malocclusion if a pair of opposing upper and lower teeth make biting contact in a position that deviates forward or rearward from the normal position by a measure that extends a full cusp or more; it is possible for teeth to be positioned so that the bite is less than ideal, and for the teeth to be considered maloccluded, but for the deviation to not be of such degree that the teeth qualify to be scored as maloccluded on the assessment. (Dr. Gold's testimony)
- 17. The child has never received any mental health treatment or been diagnosed by a psychologist or psychiatrist with any emotional or mental health condition related to the condition of his teeth. (Appellant's testimony)

18	.The issuance of this decisio	n is timely under Connecticut General Statutes 17b-
	61(a), which requires that a	decision be issued within 90 days of the request for
	an administrative hearing. The	he Appellant requested an administrative hearing on
	. Based on	the request date, this decision would have been due
		. However, the hearing, which was originally
		, was rescheduled twice at the request of the
		-day delay. Because this -day delay resulted
	from the Appellant's reques	et, this decision is due not later than

CONCLUSIONS OF LAW

- 1. Connecticut General Statutes §17b-262 provides that the Department may make such regulations as are necessary to administer the medical assistance program.
- 2. Connecticut Agencies Regulations §17-134d-35(a) provides that orthodontic services provided for individuals less than 21 years of age will be paid for when provided by a qualified dentist and deemed medically necessary as described in these regulations.

- 3. Connecticut General Statutes §17b-259b provides that "(a) For purposes of the administration of the medical assistance programs by the Department of Social Services, "medically necessary" and "medical necessity" mean those health services required to prevent, identify, diagnose, treat, rehabilitate or ameliorate an individual's medical condition, including mental illness, or its effects, in order to attain or maintain the individual's achievable health and independent functioning provided such services are: (1) Consistent with generally-accepted standards of medical practice that are defined as standards that are based on (A) credible scientific evidence published in peer-reviewed medical literature that is generally recognized by the relevant medical community, (B) recommendations of a physician-specialty society, (C) the views of physicians practicing in relevant clinical areas, and (D) any other relevant factors; (2) clinically appropriate in terms of type, frequency, timing, site, extent and duration and considered effective for the individual's illness, injury or disease; (3) not primarily for the convenience of the individual, the individual's health care provider or other health care providers; (4) not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual's illness, injury or disease; and (5) based on an assessment of the individual and his or her medical condition".
- 4. Connecticut Agencies Regulations §17-134d-35(f) provides in relevant part that "The study models submitted for prior authorization must clearly show the occlusal deviations and support the total point score of the preliminary assessment...."
- 5. Connecticut General Statutes § 17b-282e provides in relevant part that "The Department of Social Services shall cover orthodontic services for a Medicaid recipient under twenty-one years of age when the Salzmann Handicapping Malocclusion Index indicates a correctly scored assessment for the recipient of twenty-six points or greater, subject to prior authorization requirements. If a recipient's score on the Salzmann Handicapping Malocclusion Index is less than twenty-six points, the Department of Social Services shall consider additional substantive information when determining the need for orthodontic services, including (1) documentation of the presence of other severe deviations affecting the oral facial structures; and (2) the presence of severe mental, emotional or behavioral problems or disturbances, as defined in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association, that affects the individual's daily functioning".
- 6. Connecticut Agencies Regulations §17-134d-35(e)(2) provides in relevant part that "...the Department shall consider additional information of a substantial nature about the presence of severe mental, emotional, and/or behavioral problems, disturbances or dysfunctions, and which may be caused by the recipient's daily functioning. The Department will only consider cases where a diagnostic evaluation has been performed by a licensed psychiatrist or licensed psychologist who has accordingly limited his practice to child psychiatry or child

psychology. The evaluation must clearly and substantially document how the dentofacial deformity is related to the child's mental, emotional, and/or behavior problems. And that orthodontic treatment is necessary and, in this case, will significantly ameliorate the problems".

Applying the scoring standards established for the Salzmann assessment, the child's study models submitted for prior authorization did not show the occlusal deviations necessary to support the required <u>26</u> point score on the preliminary assessment.

There was no substantive information regarding the presence of severe deviations affecting the child's oral facial structures that BeneCare needed to consider in determining the need for orthodontic services.

There was no substantive information that the child had any severe mental, emotional or behavioral problems or disturbances directly related to the malocclusion of his teeth that BeneCare needed to consider in determining the need for orthodontic services.

BeneCare was correct when it found that the child did not have malocclusion of his teeth to a degree that met the criteria for severity, or <u>26</u> points, as established in state statute, or have the presence of other conditions required by statute to be considered when determining the need for orthodontic services.

BeneCare was correct when it denied prior authorization to complete comprehensive orthodontic services for the child as not medically necessary, in accordance with state statute and regulations.

DECISION

The Appellant's appeal is **DENIED**.

James Hinckley Hearing Officer

cc: Diane D'Ambrosio, Connecticut Dental Health Partnership Rita LaRosa, Connecticut Dental Health Partnership

RIGHT TO REQUEST RECONSIDERATION

The appellant has the right to file a written reconsideration request within **15** days of the mailing date of the decision on the grounds there was an error of fact or law, new evidence has been discovered or other good cause exists. If the request for reconsideration is granted, the appellant will be notified within 25 days of the request date. No response within **25** days means that the request for reconsideration has been denied. The right to request a reconsideration is based on §4-181a(a) of the Connecticut General Statutes.

Reconsideration requests should include <u>specific</u> grounds for the request: for example, indicate <u>what</u> error of fact or law, <u>what</u> new evidence, or <u>what</u> other good cause exists.

Reconsideration requests should be sent to: Department of Social Services, Director, Office of Legal Counsel, Regulations, and Administrative Hearings, 55 Farmington Avenue, Hartford, CT 06105.

RIGHT TO APPEAL

The appellant has the right to appeal this decision to Superior Court within 45 days of the mailing of this decision, or 45 days after the agency denies a petition for reconsideration of this decision, provided that the petition for reconsideration was filed timely with the Department. The right to appeal is based on §4-183 of the Connecticut General Statutes. To appeal, a petition must be filed at Superior Court. A copy of the petition must be served upon the Office of the Attorney General, 55 Elm Street, Hartford, CT 06106 or the Commissioner of the Department of Social Services, 55 Farmington Avenue, Hartford, CT 06105. A copy of the petition must also be served on all parties to the hearing.

The **45** day appeal period may be extended in certain instances if there is good cause. The extension request must be filed with the Commissioner of the Department of Social Services in writing no later than **90** days from the mailing of the decision. Good cause circumstances are evaluated by the Commissioner or his designee in accordance with §17b-61 of the Connecticut General Statutes. The Agency's decision to grant an extension is final and is not subject to review or appeal.

The appeal should be filed with the clerk of the Superior Court in the Judicial District of New Britain or the Judicial District in which the appellant resides.
