██████████  
██████████  
██████████

PROCEDURAL BACKGROUND

On ██████████ 2018 Connecticut Dental Health Partnership (“CTDHP”) sent ██████████ (the “Appellant”) a Notice of Action (“NOA”) denying a request for orthodontic treatment for ██████████, her minor child, indicating that severity of child’s malocclusion did not meet the medical necessity requirement.

On ██████████, 2018, the Appellant requested an administrative hearing to contest the decision to deny prior authorization of orthodontia.

On ██████████, 2018, the Office of Legal Counsel, Regulations, and Administrative Hearings (“OLCRAH”) issued a notice scheduling the administrative hearing for ██████████, 2018.

On ██████████ 2018 in accordance with sections 17b-60, 17-61 and 4-176e to 4-189 inclusive, of the Connecticut General Statutes, OLCRAH held an administrative hearing.

The following individuals were present at the hearing:

██████████, Appellant  
██████████, Appellant’s minor child  
Rosario Monteza, CTDHP Grievance Mediation Specialist  
Dr. Greg Johnson, CTDHP Dental Consultant  
Almelinda McLeod, Hearing Officer

The hearing record was held open for the submission of additional evidence. On [REDACTED] 2018, the record closed.

### **STATEMENT OF THE ISSUE**

The issue to be decided is whether the CTDHP's decision to deny the prior authorization through the Medicaid program for [REDACTED] orthodontic services is correct because such services are not medically necessary.

### **FINDINGS OF FACT**

1. The Appellant is the mother of [REDACTED], the minor child. (hearing record)
2. [REDACTED] is [REDACTED] years old and is a participant in the Medicaid program as administered by the Department of Social Services. (Exhibit 1)
3. Connecticut Dental Health Partnership ("CTDHP") is the dental subcontractor for the Ct Department of Social Services.
4. Dr. [REDACTED], DMD, MSD of [REDACTED] [REDACTED] [REDACTED] is the treating orthodontist. (Exhibit 1A, Prior Authorization form)
5. On [REDACTED] 2018, CTDHP received a prior authorization request for braces for [REDACTED] from Dr. [REDACTED]. Dr. [REDACTED] scored 43 points on the Malocclusion Severity Assessment which included scoring for overjet and overbite and cited "edge to edge". Dr. [REDACTED] commented "Loss of clinical heights/vertical dimension- all permanent first and second molars due to enamel hypoplasia. May require prosthodontics coverage before ortho." (Exhibit #2 A, Preliminary Handicapping Malocclusion Severity Assessment form)
6. The Malocclusion Severity Assessment record is a test measuring the severity of malocclusion.
7. On [REDACTED] 2018, Dr. Robert Gange (orthodontic dental consultant with CTDHP) evaluated the x-rays and models of [REDACTED] teeth and arrived at a score of 17 on the malocclusion assessment record. He indicated "Edge to edge bites do not score overjet and overbite; provider comments scored." (Exhibit #3, Preliminary Handicapping Malocclusion Assessment record)
8. On [REDACTED] 2018, Dr. Gange found no evidence of severe irregular placement of teeth within the dental arches nor irregular growth or

development of the jaw bones. Noted there was no evidence of severe deviations affecting the mouth and underlying structures nor evidence of emotional distress related to ████████ teeth. (Exhibit #3, Preliminary Handicapping Malocclusion Assessment record and Exhibit 4A, Notice of Action letter)

9. Dr. Greg Johnson, CTDHP dental consultant for this hearing clarified the following:
  - Loss of clinical height/vertical dimension means that the length and /or height of the tooth from the gum line are short.
  - Enamel hypoplasia means not enough enamel on the teeth and may need to alter or add to all of the teeth to make them longer; which means other dentistry treatments likely crowns or fillings. It is a restorative treatment prior to orthodontic treatment.
  - Edge to edge bite comment is not a scorable condition; it's an observation. It means when the top teeth touch together with the bottom teeth; or in other words they do not overlap. (Dr. Greg Johnson, CTDHP dental Consultant testimony)
  
10. On ████████ 2018, CTDHP issued a Notice of Action to the Appellant denying orthodontic treatment as not medically necessary since ████████ malocclusion score of 17 was less than the 26 points needed to be covered. ████████ orthodontic request for treatment was also denied as there was no presence found of severe deviations affecting the mouth or underlying structures, which left untreated, would cause irreversible damage to the teeth or underlying structures. There was no evidence of a diagnostic evaluation by a licensed psychiatrist or psychologist related to the condition of ████████ teeth. (Exhibit #4A, Notice of Action )
  
11. On ████████, 2018, the Appellant requested an administrative hearing. (Exhibit 5A, Hearing request)
  
12. On ████████ 2018, CTDHP dental consultant, Dr. Vincent Fazzino conducted an appeal review using the models and x-rays of ████████s teeth. The Malocclusion Severity Assessment scored 17 points. He indicated "Comments noted and scored accordingly." Dr. Fazzino did not find evidence of irregular growth or development of the jaw bones. There was no evidence of emotional issues directly related to ████████ dental issues. Dr. Fazzino's decision was to deny the approval of the prior authorization as the case did not meet the State of Connecticut's requirement of being medically necessary. (Exhibit #6, Preliminary Handicapping Malocclusion Assessment record)

13. On [REDACTED], 2018, CTDHP issued a determination notice advising the Appellant that the appeal review was conducted and has recommended that CT Department of Social Services ("CTDSS") uphold the previously denied request for braces. ( Exhibit #7, Determination Letter)
14. The Appellant testified that [REDACTED] has enamel loss. Possible reasons for the enamel loss could be attributed to teeth grinding as a child or the fact that [REDACTED] is a diabetic. Even though a concerted effort is made not to provide acidic foods to [REDACTED], it may be necessary to provide her with orange juice or other acidic foods when her sugars are low. (Appellant's testimony)
15. Orthodontic treatment does not treat nor aid in the prevention of enamel loss. (Dr. Greg Johnson testimony)
16. [REDACTED] complains of pain when she chews her food; which is treated with Advil to help with those symptoms. (Appellant's testimony)
17. [REDACTED] is not being treated by a licensed psychiatrist or psychologists for severe mental or emotional issues directly related to her teeth. (Appellant's testimony)
18. On [REDACTED], 2018, the Appellant presented with a letter from the treating orthodontist dated [REDACTED], 2018 appealing on behalf of [REDACTED] due the recent denial of the orthodontic treatment. The letter cited 30% enamel loss, edge to edge occlusion, posterior cross bite (end to end) tendency, Mild class III occlusal tendency and excessive spacing; and comprehensive orthodontic treatment is the key in [REDACTED] future dental health. ( Exhibit B, [REDACTED], DMD,MSD letter)
19. On [REDACTED] 2018, CTDHP agreed to re-evaluate the letter and provide a response by the dental consultants. ( Hearing record)
20. On [REDACTED] [REDACTED], 2018, CTDHP's dental consultant, Dr. Geoffrey Drawbridge responded to the treating orthodontist letter dated [REDACTED], 2018 by commenting: "Assessment of dental deviations completed according to Saltzmann standards. Enamel Hypoplasia is restorative problem- not orthodontic. Records submitted do not substantiate loss of vertical dimension". Dr. Drawbridge decision with regard to orthodontic treatment was not approved. (Exhibit 9- CTDHP response to treating orthodontics letter)

## CONCLUSIONS OF LAW

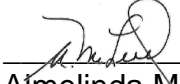

1. Section 17b-262 of the Connecticut General Statutes authorizes the Commissioner of the Department of Social Services to administer the medical assistance program.
  
2. Section 17b-259b of the Ct General Statutes (“CGS”) provides (a) for purposes of the administration of the medical assistance programs by the Department of Social Services, “medically necessary “ and “medical necessity” mean those health services required to prevent, identify, diagnose, treat, rehabilitate or ameliorate an individual's medical condition, including mental illness, or its effects, in order to attain or maintain the individual's achievable health and independent functioning provided such services are: (1) Consistent with generally-accepted standards of medical practice that are defined as standards that are based on (A) credible scientific evidence published in peer-reviewed medical literature that is generally recognized by the relevant medical community, (B) recommendations of a physician-specialty society, (C) the views of physicians practicing in relevant clinical areas, and (D) any other relevant factors; (2) clinically appropriate in terms of type, frequency, timing, site, extent and duration and considered effective for the individual's illness, injury or disease; (3) not primarily for the convenience of the individual, the individual's health care provider or other health care providers; (4) not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual's illness, injury or disease; and (5) based on an assessment of the individual and his or her medical condition.  
  
(b) Clinical policies, medical policies, clinical criteria or any other generally accepted clinical practice guidelines used to assist in evaluating the medical necessity of a requested health service shall be used solely as guidelines and shall not be the basis for a final determination of medical necessity.  
  
(c) Upon denial of a request for authorization of services based on medical necessity, the individual shall be notified that, upon request, the Department of Social Services shall provide a copy of the specific guideline or criteria, or portion thereof, other than the medical necessity definition provided in subsection (a) of this section, that was considered by the department or an entity acting on behalf of the department in making the determination of medical necessity.
  
3. Connecticut Agencies Regulations § 17-134d-35 (f) (1) provide that prior authorization is required for the comprehensive diagnostic assessment. The qualified dentist shall submit: (A) the authorization request form; (B) the completed Preliminary Handicapping Malocclusion Assessment

- Record; (C) Preliminary assessment study models of the patients dentition; and (D) additional supportive information about the presence of other severe deviations described in Section (e) if necessary. The study models must clearly show the occlusal deviations and support the total point score of the preliminary assessment. If the qualified dentist receives authorization from the Department, he/ she may proceed with the diagnostic assessment.
4. Connecticut Agencies Regulations § 17-134d-35 (b) (3) define the Preliminary Handicapping Malocclusion Assessment Record as the method of determining the degree of malocclusion and eligibility for orthodontic services. Such assessment is completed prior to performing the comprehensive diagnostic assessment.
  5. Sec. 17b-282 (e) CGS. Orthodontic services for Medicaid recipients under twenty-one years of age. The Department of Social Services shall cover orthodontic services for a Medicaid recipient under twenty-one years of age when the Salzmann Handicapping Malocclusion Index indicates a correctly scored assessment for the recipient of twenty-six points or greater, subject to prior authorization requirements. If a recipient's score on the Salzmann Handicapping Malocclusion Index is less than twenty-six points, the Department of Social Services shall consider additional substantive information when determining the need for orthodontic services, including (1) documentation of the presence of other severe deviations affecting the oral facial structures; and (2) the presence of severe mental, emotional or behavioral problems or disturbances, as defined in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association, that affects the individual's daily functioning.
  6. Connecticut Agencies Regulations §17-134d-35 (e) (2) provides in relevant part that the Department shall consider additional information of a substantial nature about the presence of severe mental, emotional, and/ or behavior problems, disturbances or dysfunctions as defined in the most current edition of the Diagnostic Statistical Manual if the American Psychiatric Association, and which may be caused by the recipient's daily functioning. The Department will only consider cases where a diagnostic evaluation has been performed by a licensed psychiatrist or a licensed psychologist who has accordingly limited his or practice to child psychiatry or child psychology. The evaluation must clearly and substantially document how the dento-facial deformity is related to the child's mental, emotional and / or behavior problems and that orthodontic treatment is necessary and in this case will significantly ameliorate the problems.

7. [REDACTED] study models submitted for prior authorization did not show the occlusal deviations necessary to support a 26 point score on the preliminary assessment.
8. CTDHP / Benecare was correct to deny the prior authorization request for orthodontic services for [REDACTED] as her Malocclusion did not meet the criteria for severity, or 26 points on the Preliminary Handicapping Malocclusion Assessment Record as required.
9. [REDACTED] is [REDACTED] years old and was not evaluated or diagnosed by a child psychiatrist or child psychologists with any severe condition which would be significantly helped with orthodontic treatment.
10. CTDHP/ Benecare was correct to deny the request for orthodontic services for [REDACTED]a as there was no evidence presented indicating she had severe deviations affecting the mouth and underlying structures and no evidence she suffered from emotional issues related to the condition of her teeth.
11. CTDHP/ Benecare correctly determined the request for braces for [REDACTED] was not medically necessary.

### **DECISION**

The Appellant's appeal is DENIED.

  
Aimelinda McLeod  
Hearing Officer

CC: Diane D'Ambrosio, CTDHP PO Box 486 Farmington, Ct 06032  
Rita LaRosa, CTDHP PO Box 486 Farmington, Ct. 06032

### **RIGHT TO REQUEST RECONSIDERATION**

The appellant has the right to file a written reconsideration request within **15** days of the mailing date of the decision on the grounds there was an error of fact or law, new evidence has been discovered or other good cause exists. If the request for reconsideration is granted, the appellant will be notified within 25 days of the request date. No response within **25** days means that the request for reconsideration has been denied. The right to request a reconsideration is based on §4-181a (a) of the Connecticut General Statutes.

Reconsideration requests should include specific grounds for the request: for example, indicate what error of fact or law, what new evidence, or what other good cause exists.

Reconsideration requests should be sent to: Department of Social Services, Director, Office of Legal Counsel, Regulations, and Administrative Hearings, 55 Farmington Avenue, Hartford, CT 06105.

### **RIGHT TO APPEAL**

The appellant has the right to appeal this decision to Superior Court within 45 days of the mailing of this decision, or 45 days after the agency denies a petition for reconsideration of this decision, provided that the petition for reconsideration was filed timely with the Department. The right to appeal is based on §4-183 of the Connecticut General Statutes. To appeal, a petition must be filed at Superior Court. A copy of the petition must be served upon the Office of the Attorney General, 55 Elm Street, Hartford, CT 06106 or the Commissioner of the Department of Social Services, 55 Farmington Avenue, Hartford, CT 06105. A copy of the petition must also be served on all parties to the hearing.

The **45** day appeal period may be extended in certain instances if there is good cause. The extension request must be filed with the Commissioner of the Department of Social Services in writing no later than **90** days from the mailing of the decision. Good cause circumstances are evaluated by the Commissioner or his designee in accordance with §17b-61 of the Connecticut General Statutes. The Agency's decision to grant an extension is final and is not subject to review or appeal.

The appeal should be filed with the clerk of the Superior Court in the Judicial District of New Britain or the Judicial District in which the appellant resides.
