Definition of Uncompensated Care:

The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 77904 dated December 19, 2008 and the 79 Fed. Reg. 71679 dated December 3, 2014. The calculated uncompensated care costs (UCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The UCC for these patient groups was calculated using Medicare cost reporting methods, and utilized the Medicare cost report, Medicaid Paid Claims Summaries, and Hospital-Provided Data. Total uncompensated care costs represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid In-State and out-of-State payment categories: Fee-for-Service Medicaid primary, Fee-for-Service Crossovers, Managed Care Medicaid primary, Managed Care Medicaid Crossover, and Uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost of services for each of these payment categories was calculated using the appropriate per diem or cost-to-charge ratios from each hospital's Medicare Cost Report. These costs were then reduced by the total payments received for the services provided, including any supplemental Medicaid payments and Section 1011 payments where applicable.

Definition of Uncompensated Care:

The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 77904 dated December 19, 2008 and the 79 Fed. Reg. 71679 dated December 3, 2014. The calculated uncompensated care costs (UCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The UCC for these patient groups was calculated using Medicare cost reporting methods, and utilized the Medicare cost report, Medicaid Paid Claims Summaries, and Hospital-Provided Data. Total uncompensated care costs represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid in-State and out-of-State payment categories: Fee-for-Service Medicaid primary, Fee-for-Service Crossovers, Managed Care Medicaid primary, Managed Care Medicaid Crossover, and Uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost of services for each of these payment categories was calculated using the appropriate per diem or cost-to-charge ratios from each hospital's Medicare Cost Report. These costs were then reduced by the total payments received for the services provided, including any supplemental Medicaid payments and Section 1011 payments where applicable.

Definition of Uncompensated Care: The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 77904 dated December 19, 2008 and the 79 Fed. Reg. 71679 dated December 3, 2014. The calculated uncompensated care costs (UCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The UCC for these patient groups was calculated using Medicaid cost reporting methods, and utilized the Medicare cost report, Medicaid Paid Claims Summaries, and Hospital-Provided Data. Total uncompensated care costs represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid in-State and out-of-State payment categories: Fee-for-Service Medicaid primary, Fee-for-Service Crossovers, Managed Care Medicaid primary, Managed Care Medicaid Crossover, and the uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost of services for each of these payment categories was calculated using the appropriate per diem or cost-to-charge ratios from each hospital's Medicare Cost Report. These costs were then reduced by the total payments received for the services provided, including any supplemental Medicaid payments and the 1011 payments where applicable.
