The combination of the following influenced significant changes in the facility's balance sheet, profit and loss as well as cash flows between the 2021 and 2023 operating years. An accounting change resulted in balance sheet changes between 2022 and 2023 because of the facility's adoption of FASB ASC 841 which resulted in the recognition of a right of use asset of and an operating lease liability of \$1,808,957 as of October 1, 2022 (impacting both asset and liabilities).

During the Pandemic, there were CARES Act Provider Relief Funds recognized by the facility (\$653,182 in 2021, \$246,989 in 2022), the facility recognized \$1,825,884 as part of the Employee Retention Tax Credit which was listed under other receivables until such time as funds were received, impacting balance sheet and revenues during the 2022/2023 periods.

In addition to the increased cost of labor during the 2021-2023 period, resulting in higher operating expenses each year, the facility implemented an enhanced health benefits package that resulted in increase in employee health expense of \$414,166 from 2022 to 2023 (increased cost and participation) as well as having implemented a 10% defined contribution plan on July 1, 2022 for its staff, resulting in increased retirement expense from \$15,982 in 2021 to \$299,514 in 2023.
