Annual

2024

The Crime in Connecticut 2024 Annual Report

is prepared under the authority of

Honorable Ned M. Lamont, Governor
State of Connecticut

Ronnell A. Higgins, Commissioner
Department of Emergency Services and Public Protection

2024 In Memoriam

This publication is dedicated to the memory of all LOCAL, STATE, FEDERAL, and TRIBAL law enforcement officers who lost their lives while on duty serving the citizens of the State of Connecticut

Connecticut State Police Trooper First Class Medal of Honor Recipient

Aaron Pelletier

End of Watch 05.30.24

Table of Contents

Forward

 The 2024 publication of Crime in Connecticut is presented to the Legislature pursuant to Connecticut General Statutes § 29-1c(e). This report is the product of the cooperative data collection and submission efforts of 108 law enforcement agencies and it continues to be Connecticut's most comprehensive compilation and analysis of crime data.

This publication is derived from crimes reported to law enforcement agencies and subsequently submitted to the Crimes Analysis Unit at the Department of Emergency Services and Public Protection. The Crimes Analysis Unit's objective is to produce reliable crime statistics and informative facts for the purposes of public safety; policy analysis; and law enforcement administration, operations, and management. This report is also used by criminal justice professionals, scholars, and others with a vested interest in crimes analysis for research, planning, and reporting purposes.

We are proud to have 100 percent participation of state, local, and tribal law enforcement agencies across the state in the Connecticut Uniform Crime Reporting (UCR) program and the National Incident-Based Reporting System (NIBRS). This publication would not be possible without the sworn and civilian personnel at our law enforcement agencies who spend their time and utilize their expertise to contribute complete, accurate, and substantive data to the Connecticut Incident-Based Reporting System. We extend a special thank-you to all of our law enforcement partners in Connecticut.

Connecticut law enforcement has consistently provided the necessary resources to make the Connecticut UCR program one of the most effective programs in the United States. The Department of Emergency Services and Public Protection sincerely appreciates the continued participation of law enforcement in the Connecticut UCR program.

Data used to create this report was current as of April 1, 2025. The NIBRS data base is publicly available at https://ct.beyond2020.com and is updated daily.
Introduction

Uniform Crime Reporting Program

Since 1930, participating local, county, state, tribal, and federal law enforcement agencies have voluntarily provided the nation with crime statistics through the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting Program (UCR) via the Summary Reporting System (SRS). On January 1, 2021 that system was retired, and the country shifted to the National Incident-Based Reporting System (NIBRS). All of Connecticut's law enforcement agencies have been submitting data in incident-based format to NIBRS since that time. The Crimes Analysis Unit collects, maintains, analyzes, and submits Connecticut's crime data to the FBI.

Crime Reporting in Connecticut

Connecticut published its first annual Crime in Connecticut report in 1978. Data collection began with the recruitment and training of 70 agencies. Today, 108 Connecticut law enforcement agencies participate in the UCR program and report incident-based data to the statewide crime repository (see page vi for a complete list), which is managed by the Crimes Analysis Unit. The repository is accessible online at **Crime Insight Beyond2020**.

National Incident-Based Reporting System

When the FBI's UCR Program officially launched in 1930 with the Summary Reporting System (SRS), national crime data was collected for seven Index Offenses: murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft; arson was added in 1979. The National Incident-Based Reporting System (NIBRS) was developed from a study on improving crimes statistics and it was launched as a pilot program in 1987. The law enforcement community quickly came to a consensus that this new system should be implemented nationally. NIBRS was adopted by the FBI and it ran concurrently to the SRS for several decades. Eventually it was decided that all reporting law enforcement agencies would be required transition from SRS to NIBRS by January 1, 2021.

Some Connecticut law enforcement agencies began submitting incident-based data in 1994 and over time all of our agencies began the transition to incident-based reporting. The first year that had complete incident-based reporting data was 2021 and the following year was the first year in which Connecticut used these data in the annual report.

Impact of NIBRS Transition

One of the most impactful results of the move to incident-based reporting is the elimination of the SRS Hierarchy Rule, This rule allowed only the most "serious" crime in a criminal incident to be reported for statistical purposes. For example, if a murder, robbery, and sexual assault all occurred in one incident, only the murder would be counted in SRS. In NIBRS, all three of these crimes would be reported and subsequently counted. Incident-based reporting allows up to 10 offenses committed in a single incident to be counted. Therefore, crime counts in SRS will be lower than crime counts in NIBRS, and data from the two systems are not comparable.

The year 2021 should be considered "year one" in NIBRS since it is the first year all agencies in Connecticut reported their data in this format. However, nationally only about 67% of agencies across the country had made the switch to NIBRS, which was below the 70 percent confidence level threshold required by the FBI for reporting crime statistics. This led the FBI and the Bureau of Justice Statistics to produce national NIBRS estimations for the year 2021 and to allow those agencies to continue to submit their data in SRS format.[1]

Incident-based data is a "living" dataset, meaning the data changes over time as law enforcement agencies submit updated information on previously reported incidents. For example when property is recovered or an arrest is made. It also means that the data in this report is not the final data for 2024. The FBI allows for a two-year window to submit or update incidents. This continual submission of data reflects the outcome of criminal investigations by law enforcement after the initial report is made.

Group A and B Offenses

Incident-based reporting divides offenses into two categories: Group A Offenses and Group B Arrest-Only Offenses. Group A offense data includes time, date, and location of a criminal event; use of weapons or force; circumstances of certain violent crimes; criminal activity for certain crimes; victim-to-offender relationships; drug types seized; premise type entered/damaged; method of entry; property stolen, burned, counterfeited/forged, damaged, and recovered with estimated value; and the demographics of the victims, offenders, and arrestees. Incident-based data collection can link an arrest directly to an incident and the reporting agency can specify if the crime was attempted or completed.

[1]https://www.justice.gov/opa/speech/file/1563061/dl

Overall, incident-based data collection gathers rich, detailed information on each criminal event's offenses, victims, and offenders, and it provides context that was not previously available in the SRS.

All offenses are classified based on law enforcement investigations in accordance with the incident-based offense definitions and are not necessarily identical to the Connecticut General Statutes Penal Code or local ordinances. The Group A Offenses, while unique to NIBRS, were generally derived from the four-digit National Crime Information Center Uniform Offense Classification Codes to facilitate interrelating offense data between the NCIC and the FBI UCR Program. The UCR Program does not collect infractions, violations, or information on traffic offenses except for Driving Under the Influence, Hit and Run of a person, and Vehicular Manslaughter.

The Group A offenses collected in the NIBRS program are as follows: Animal Cruelty; Arson; Assault offenses (3); Bribery; Burglary; Counterfeiting/ Forgery; Destruction/Damage/ Vandalism of Property; Drug/Narcotic offenses (2); Embezzlement; Extortion/Blackmail; Fraud offenses (7); Gambling offenses (4); Homicide offenses (2); Human Trafficking offenses (2); Kidnapping/ Abduction; Larceny/ Theft offenses (8); Motor Vehicle Theft; Sex offenses (4); Pornography/Obscene Material; Prostitution offenses (3); Robbery; Stolen Property Offense; and Weapons Law Violations.

Group B offenses are collected when an arrest is made, and they are as follows: Curfew/Loitering/Vagrancy; Disorderly Conduct; Driving Under the Influence; Family Offenses, Nonviolent; Liquor Law Violations; Trespass of Real Property; and All Other Offenses (not traffic).

NIBRS divides the Group A offenses into three (3) categories, Crimes Against Persons, Crimes Against Property, and Crimes Against Society. Crimes Against Persons, e.g., Murder, Rape, Assault, are those offenses whose victims are always individuals. The object of Crimes Against Property, e.g., Robbery, Bribery, and Burglary, is to obtain money, property, or some other benefit. Crimes Against Society, e.g., Animal Cruelty, Drug/Narcotic offenses, and Gambling represent society's prohibition against engaging in certain types of activity.

Offense classifications are not based on filings of the prosecutor, court, medical examiner, jury, other judicial agency, or subsequent findings, but solely on law enforcement categorization.

Changes to NIBRS Offenses in 2023

The Federal Bureau of Investigation made several changes to the National Incident-Based Reporting System in 2023. The definition of Rape was rewritten to incorporate the offenses of Sodomy and Sexual Assault with an Object. Therefore, in this report and in the **crime data repository** those offenses were combined with the offense of Rape for reporting purposes. To compare the year-over-year fluctuation for this offense, the number of reported Rapes from 2021 forward include the offenses of Sodomy, and Sexual Assault with an Object. In addition, the offense of Fondling was renamed Criminal Sexual Contact; the definition remained unchanged.

Connecticut UCR Program Objectives

The five fundamental objectives of the Connecticut UCR Program are to:

- Inform the Governor, Legislature, other governmental officials, and the public as to the nature, magnitude, and trends of crime in Connecticut.

- Provide law enforcement administrators with statistics for administrative and operational use.

- Provide arrestee demographics to find the proper focus for crime prevention and law enforcement.

- Provide data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.

- Provide the FBI with complete Connecticut crime data to include in the national examination of Crime in the United States.

Uniform Crime Reporting (UCR) Limitations

The UCR Program measures the extent, fluctuation, and distribution of crime in the United States. There are inherent limitations in current crime-reporting practices. **One of the most notable limitations is the data only includes crimes that the public reports to law enforcement.** The degree to which the public reports crime varies from area to area, and it is known that a certain amount of crime is not reported to law enforcement agencies due to a variety of factors. These factors include the following: victims may consider the offenses against them to be of very little consequence; they may think that the likelihood of apprehending the suspect is small; they may fear retaliation from offenders; they may be a

participant in the crime and; they may be reluctant due to immigration status. Even with these limitations, the UCR Program provides the best network of actual state and national crime figures currently available. The **National Crime Victimization Survey** which is administered annually by the Bureau of Justice Statistics, provides a complimentary picture to both Crime in Connecticut and Crime in the United States by estimating those unreported crimes.

Data Fluidity

The data in this report is only as accurate or current as the data reported to the Connecticut Uniform Crime Reporting Program by our law enforcement agencies. Although there is a **statutory requirement** governing crime data reporting, there are numerous factors which could lead to delayed or missing reports. For example, a victim may choose not to report or may delay reporting a crime as noted above in the Uniform Crime Reporting (UCR) Limitations section. Some investigations take time to determine what crime occurred. Changes in law enforcement personnel, especially in smaller agencies, could contribute to a delay in submitting or correcting errored incident reports. Data found at **Crime Insight Beyond 2020** are updated as agencies submit their data throughout the month. Consequently, any changes or additions made to the incident reports submitted may cause fluctuations in the data if the same query is conducted on separate occasions. This will primarily impact data from the last twelve months, but as previously noted there are instances where updated information is received on incidents older than twelve months.

Domestic/Family Violence

Domestic/Family Violence crime statistics are collected as mandated by Connecticut General Statutes § 46b-38(d). Domestic/Family Violence is defined as an event that results in physical harm, bodily injury or assault, or an act of threatened violence that constitutes fear of imminent physical harm, bodily injury, or assault, including, but not limited to, stalking or a pattern of threatening, between family or household members. Offenses collected in the State UCR Program include a domestic violence indicator that is derived from the relationship between the victim(s) and the offender at the time of the offense. By using the rich data that is additionally reported by law enforcement agencies to the Crimes Analysis Unit on form *DPS-230-C (2013)*, three annual reports on Domestic/Family violence are created: the Family Violence Homicide report; Family Violence Arrest report; and the Family Violence Detailed report. All of these reports available on our **website.**

Hate/Bias Motivated Crime

Connecticut General Statutes § 29-7(m) requires that information related to crimes motived by bias or bigotry directed against victims perceived to be of a particular race; color; religion; ancestry; national origin; gender; sexual orientation; gender expression or identity; and/or mental or physical disability be compiled. Like domestic/family violence offenses, bias motivated crimes are not distinct or separate offenses. They are offenses that were motivated in whole, or substantial part, by the offender's bias against the victim. Data collected with the bias motivated crime indicator are forwarded to the FBI for aggregation and publication on the **Crime Data Explorer**. The Crimes Analysis Unit previously published an annual supplement to this report regarding bias motivated crime, the Connecticut Bias Motivated Crimes Annual Report, which are available on our website **here**. The 2024 bias motivated crime data is incorporated into this report.

Law Enforcement Officers Killed or Assaulted

This report includes the results of data collected throughout the year regarding officers who were killed, either feloniously or accidentally, and officers who were assaulted while performing their duties. These data are forwarded to the FBI for their ongoing Law Enforcement Officers Killed or Assaulted (LEOKA) study and are available on the Crime Data Explorer.

Police Employee Counts and Missing Persons

This report includes the results of an annual survey of Connecticut's law enforcement agencies regarding the number of sworn and civilian employees they employ. The annual number of persons reported missing in Connecticut annually are also provided in this report.

Reporting, Collection, and Verification

The primary focus of the collection of criminal statistics in Connecticut is the accuracy and completeness of the data. Incident reports uploaded from law enforcement agency's records management systems must meet the FBI's minimum requirements for submission before being accepted into the state crime data repository. Incidents that do not pass the FBI's standards for accuracy or completeness are not included in this report, Connecticut's Crimes Repository Beyond2020, or the FBI's Crime Data Explorer.

Throughout the year, the Crimes Analysis Unit works with law enforcement agencies to provide training opportunities and technical assistance to increase reporting accuracy. Ongoing communication by phone, in writing, and in-person, with

reporting agencies is essential to ensure data accuracy and quality. Incoming reports are examined for adherence to program rules. Necessary adjustments or unusual variations are brought to the attention of the submitting agency. The Connecticut UCR Program is audited by the FBI every three years and completed and passed its most recent audit in 2024.

Offenses and Clearances

Every month, law enforcement agencies throughout the state submit incident-based crime data. They indicate the number of offenses brought to their attention through such sources as victims, police, or witness reports. Contributors provide the number of actual offenses (minus unfounded complaints) and the number of incidents cleared. Clearances occur on the incident-level rather than the offense-level, meaning an arrest for one offense in an incident clears the entire incident.

For a criminal offense to be cleared in incident-based reporting, one of the two following situations must occur: (1) at least one person is arrested, charged, and turned over to the court for prosecution; or (2) the incident is cleared by "exceptionally". Exceptional clearances can occur in one of the following ways: some element beyond police control precludes the physical arrest of the offender, such as their death; the prosecution has declined to pursue the case (for reasons other than the lack of probable cause); the offender is in the custody of another jurisdiction; the victim refused to cooperate in the prosecution; or the incident involved a juvenile without taking him/her into custody.

Counting Methodology

Incident-based reporting is a more complex data collection than SRS which results in a variety of ways to count the data submitted. For that reason, the Crimes Analysis Unit has outlined the methodology below for how data in the report are counted.

Group A Offenses are counted as follows:

- Crimes Against Persons are counted as one offense per distinct victim.

- Crimes Against Property are counted as one offense per distinct operation, except for Motor Vehicle Thefts where the count is set to the number of attempted motor vehicle thefts plus the number of actual stolen motor vehicles.

- Crimes Against Society are counted as one offense per distinct crime against society.

- Group B Offenses are counted by the number of distinct arrestees of a Group B offense who had an arrest date in the calendar year of 2024, regardless of what year the offense took place.

- Offense specific information such as weapon type (up to five), premise type, and criminal/gang activity (up to three) are counted by each distinct offense regardless of crime category.

- Property loss, value, and type are counted by the distinct property item at the incident level.

- Due to rounding, percentages may not precisely reflect the absolute figures.

Crime Rate

A crime rate is the number of crimes committed per unit of population. Crime rate is normally calculated per 100,000 units, i.e., people. To calculate the crime rate per 100,000 people, the number of crimes is divided by the population, then multiplied by 100,000. The result is the rate of occurrence of that crime per 100,000 people.

For example, if there were 5,000 burglaries committed in Connecticut, the rate of occurrence would be calculated as follows using the 2024 population of Connecticut of 3,657,567:

5,000 burglaries /3,657,567 people = .001367
.001367 x 100,000 = 136.7

This means that for every 100,000 people in Connecticut, 136.7 people were the victim of a burglary in this hypothetical example.

How to Use this Report

Crime in Connecticut is a publication based on crime data submitted from Connecticut law enforcement agencies using the Connecticut Incident-Based Reporting System. There are important factors the reader must consider when reading or using this report, as well as any crime statistic report available from the FBI or other sources.

The data used to compile this report are based on a snapshot

of the state crime data repository on April 1, 2025, which is the FBI cutoff date for data submissions from the states to be included in the FBI Crime Data Explorer. In incident-based reporting, there are no fixed statistics because this collection creates a living dataset as discussed in the data fluidity section. Therefore, the statistics are preliminary. Incidents that have not passed FBI edits for completeness and accuracy are not included.

The data used in the Connecticut Incident-Based Reporting System section of report are derived from the incident-based reporting system. Data reported in the NIBRS system cannot be compared to data reported in the SRS system.

The UCR program does not measure or consider all factors that have an impact on crime. Superficial conclusions are sometimes drawn from crime and arrest data, particularly when attempts are made to compare jurisdictions. These conclusions may lead to simplistic and/or incomplete analyses that can create misleading perceptions which may adversely affect communities and their residents. For this reason, the FBI does not recommend that law enforcement agencies be ranked based on crime data alone. Local ordinances and criminal justice administrative policies, record-keeping practices, and the degree of adherence to UCR standards all affect the number of crimes and arrests reported. Additionally, socioeconomic conditions and the characteristics and attitudes of the local population influence the extent and nature of criminal behavior in a community. Valid assessments are possible only with careful study and analysis of the range of unique conditions affecting each local law enforcement jurisdiction.[2]

There are a variety of variables[3] which contribute to crime in a particular jurisdiction, including the demographic, economic, and cultural make-up of its population; the local industrial and economic base; their dependence upon neighboring jurisdictions; the transportation system; their economic dependence on nonresidents (such as tourists, shoppers, or other day-time visitors); and the proximity to military installations, correctional facilities, universities /colleges, or state hospitals.

their dependence upon neighboring jurisdictions; the transportation system; their economic dependence on nonresidents (such as tourists, shoppers, or other day-time visitors); and the proximity to military installations, correctional facilities, universities /colleges, or state hospitals.

CRIME SUMMARY

Reported Crimes Against Persons declined

Crimes Against Persons reported by law enforcement agencies **decreased** in 2024. Crimes Against Persons have declined since Q2 of 2024. The count of Crimes Against Persons in Q4 of 2024 is the lowest count of any quarter since Q1 of 2021. Notable percent decreases in 2024 were among Murder/Nonnegligent Manslaughter (34.8%), Statutory Rape (18.8%), Criminal Sexual Contact (17.7%), and Aggravated Assault (6.7%) compared to 2023.

	Q1	Q2	Q3	Q4
2021	7100	8551	8634	8196
2022	7683	8486	8302	7623
2023	7432	7947	7962	7401
2024	7441	7982	7569	7012

(2025, 2026, 2027, 2028, 2029 — no data)
Reported Crimes Against Property declined

Crimes Against Property reported by law enforcement agencies **decreased** in 2024. The count of Crimes Against Property in Q1 of 2021 is the lowest count of any quarter since Q1 of 2021. Notable percent decreases in 2024 were among Identity Theft (66.1%), Impersonation (34.5%), Purse-snatching (36.9%), Impersonation (34.5%), Theft of Motor Vehicle Parts/Accessories (34.1%), and Arson (29.4%) compared to 2023. While Fraud Offenses as a category have decreased (37.9%), Wire Fraud has increased (24.5%) compared to 2023.

	Q1	Q2	Q3	Q4
2021	19464	21119	23680	23284
2022	20305	21532	25683	22138
2023	22194	26255	27181	23574
2024	20077	20180	22660	19561

(2025, 2026, 2027, 2028, 2029 — no data)
Reported Crimes Against Society declined

Crimes Against Society reported by law enforcement agencies **decreased** in 2024. The count of Crimes Against Society in Q4 of 2024 is the lowest count of any quarter since Q1 of 2021. Notable percent decreases were among Weapon Law Violations (17.8%) and Pornography/Obscene Material (7.4%) compared to 2023 while a notable percent increase in 2024 was seen in Animal Cruelty (36.7%).

Statewide Incident-Based Reporting Overview

2024 Percentage Changes compared to 2023

2.4% ⬇	**Crime Against Persons**
Crime Against Property	16.9% ⬇
4.3% ⬇	**Crime Against Society**
There were 122,535 Group A Crimes and 42,118 Group B Crimes reported in Connecticut in 2024

Crimes Against Persons include Murder/Nonnegligent Manslaughter, Negligent Manslaughter, Kidnapping/Abduction, Assault Offenses (3 offenses), Sex Offenses (4 offenses), and Human Trafficking Offenses (2 offenses). In 2024, there were 30,004 Crimes Against Persons, which is a 2.4% decrease from 2023.

Crimes Against Property include Arson, Bribery, Burglary/Breaking and Entering, Counterfeiting/Forgery, Destruction/Damage/Vandalism of Property, Embezzlement, Extortion/Blackmail, Fraud Offenses (7), Larceny/Theft Offenses (8), Motor Vehicle Theft, Robbery, and Stolen Property Offenses. In 2024, there were 82,478 Crimes Against Property, which is a 16.9% decrease from 2023.

Crimes Against Society include Animal Cruelty, Drug/Narcotic Violations, Drug Equipment Violations, Gambling Offenses (4), Pornography/Obscene Material, Prostitution Offenses (3), and Weapon Law Violations. In 2024, there were 10,053 Crimes Against Society, which is a 4.3% decrease from 2023.

Crimes Against Persons

2.4%

Crimes Against Persons offenses have decreased by 2.4% compared to 2023.

24.5%
Crimes Against Persons were roughly 24.5% of the Group A crimes that were reported in Connecticut in 2024.

Summary

- 30,004 Offenses Reported
- 61.6% Cleared
- 16,225 Total Arrests‡

820.3

Rate per 100,000 Population

Group A Offenses	2021	2022	21-22 Change (%)	2023	22-23 Change (%)	2024	23-24 Change (%)
Crimes Against Person	32,481	32,094	-1.2%	30,742	-4.2%	30,004	-2.4%
Simple Assault	15,777	15,846	0.4%	15,367	-3.0%	15,406	0.3%

Trespass of Real Property

To unlawfully enter land, a dwelling, or other real property.
All Burglary offenses include the element of trespass. Trespassing, however, involves entry with no intent to commit a felony or theft while Burglary is the unlawful entry into a structure with the intent to commit another crime.

17.7%

Trespass of Real Property arrests have increased by 17.7% compared to 2023.

5.3%

Trespass of Real Property were roughly 5.3% of the Group B Arrest-Only Offenses that occurred in Connecticut in 2024.

2024 Analysis

There were 199 Group A and 113 Group B crimes reported at Other Agencies in 2024. This was a 29.9% decrease for Group A crimes and a 24.2% decrease for Group B crimes from 2023. The month with the highest total crime counts was December and the month with the lowest counts was April. Of all the arrests, 163 were for crimes that occurred in 2024. The most common Group A crime committed was Damage/Destruction/Vandalism and the most common Group B crime was Trespass of Real Property. Roughly 20% of arrestees of a crime at Other Agencies were female. The most common age to be an arrestee was 35-44 for males and 25-34 for females.

HATE/BIAS MOTIVATED CRIMES

Hate crimes are not separate, distinct crimes, they are criminal offenses motivated by an offender's bias. Because of this, it was not necessary for the creation of an entirely new crime category to collect data on Hate crime offenses. Hate crime data is collected by capturing additional information about offenses already being reported to the Federal Bureau of Investigation (FBI).[5] Hate/bias against the victim in-and-of itself is not enough to categorize a crime as motivated by said hate/bias.

The reported crime must be motivated, in whole or in substantial part, by hate/bias in order for it to be categorized as a hate crime. As the FBI points out, motivation is subjective, so it is difficult to know with absolute certainty that a crime is driven by hate/bias. Because of this, a set of objective indicators that would lead a reasonable person to conclude that the offender's actions were motivated by hate/bias should be present and are to be used by law enforcement in making the final determination of hate/bias motivation.

Some of these indicators[5] include:
• Bias-related drawings, markings, symbols, or graffiti were left at the crime scene.
• The victim was engaged in activities related to their race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.
• The incident coincided with a holiday or a date of significance relating to a particular race, religion, disability, sexual orientation, ethnicity, gender, or gender identity
• The offender was previously involved in a similar hate crime or is a hate group member.
• Bias-related oral comments, written statements, or gestures were made by the offender indicating their bias.
• Certain objects, items, or things which indicate bias were used (swastika, burning cross, etc.)

Summary of Hate Crimes

A Hate crime is a crime that is motivated in whole or substantial part by the bias of the offender against the victim. A single victim can be subject to more than one bias motivation, exceeding the total number of crimes, and an incident may have multiple associated crimes. These crimes are a subset of all crimes and arrests in 2024 and are not mutually exclusive.

21.2%

Bias Motivated crimes have increased by 21.2% compared to 2023.
0.1%

Hate Crimes are roughly 0.1% of the crimes that were reported in Connecticut in 2024.

2024 Analysis

There were 137 Bias Motivated crimes reported in 2024. This was about a 21.2% increase from 2023. The month with the highest counts of this crime was June and the month with the lowest counts was August. Of the arrests, 31 were for offenses that occurred in 2024. The most common Motivation Type was Race of the victim. The most common age to be a victim of a Bias Motivated crime was Under 18 or 25-34 for males and Under 18 and 35-44 for females. The number of arrestees ages 14-26 was 6. A weapon was involved in 3.5% of the crimes (knife 1.4%; other-unspecified 1.4%; and blunt object 0.7%).

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Law Enforcement Officers Killed or Assaulted

The Connecticut UCR Program collects data on law enforcement officers who were feloniously or accidentally killed or assaulted in the line-of-duty. Law enforcement officers from city, university and college, county, state, and tribal agencies are included. Deaths from natural causes while on duty, deaths resulting from a personal situation, or suicides are not included.

10.5%

Number of law enforcement officers assaulted have decreased by 10.5% compared to 2023.

One Law Enforcement Officer was killed in the line-of-duty in 2024

2024 Analysis

There were a reported 383 law enforcement officers killed or assaulted in 2024. This was a 10.5% decreased from 2023. Attempting Other Arrests and Responding to Disturbance Call comprised about 50% of the officer activity at the time of the assault. Minor injury was sustained by about 59% of officers assaulted. Roughly 60% of assaults occurred at a Residence/Home or Highway/Road/Sidewalk. Roughly 30% of arrestees of an assault on a law enforcement officer were female. The most common age to be an arrestee was 25-34 for males and females. The percentage of arrestees ages 14-26 was 33.8%.

LAW ENFORCEMENT PERSONNEL

The Crimes Analysis Unit annually surveys all law enforcement agencies throughout the state that participate in the Uniform Crime Reporting Program to determine the number of individuals employed in law enforcement. The count of full-time sworn male and female law enforcement officers and civilian employees as of October 31, 2024 was collected. Those figures are reported to the Federal Bureau of Investigation and are presented here.

MISSING PERSONS

This section of the publication details the number of persons reported missing in Connecticut to the National Crime Information Center, pursuant to CGS 29-1e.

Records in the Missing Person File are retained indefinitely, until the individual is located, or the record is canceled by the entering agency. The Missing Person File contains records for individuals reported missing in the following categories:

Disability -- a person of any age who is missing and under proven physical/mental disability or is senile, thereby subjecting him/ herself or others to personal and immediate danger.

Endangered -- a person of any age who is missing under circumstances indicating that his/her physical safety may be in danger.

Involuntary -- a person of any age who is missing under circumstances indicating that the disappearance may not have been voluntary, i.e., abduction or kidnapping.

Juvenile -- a person who is missing and not declared emancipated as defined by the laws of his/her state of residence and does not meet any of the entry criteria set forth in the Disability, Endangered, Involuntary, or Catastrophe Victim categories.

Catastrophe Victim -- a person of any age who is missing after a catastrophe.

Other -- a person not meeting the criteria for entry in any other category who is missing and (1) for whom there is a reasonable concern for his/her safety or (2) a person who is under age 21 and declared emancipated by the laws of his/her state of residence.

WEAPONS

The type of weapon is dictated by the NIBRS data element "Type of Weapon/Force Involved". The use of a weapon can be reported for Murder/Nonnegligent Manslaughter; Negligent Manslaughter; Kidnapping/Abduction; Rape; Criminal Sexual Contact; Robbery; Aggravated Assault; Simple Assault; Extortion/Blackmail; Weapon Law Violations; and Human Trafficking Offenses.

Weapons and physical force are defined as follows:

Personal Weapons—includes physical force exerted using hands, fist, feet, arms, teeth, etc.

Knife/Cutting Instrument—includes knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, ice picks, etc.

Firearms—includes the weapon types of firearm, handgun, rifle, shotgun and other firearm.

Blunt Object—includes baseball bats, butt of handgun, clubs, bricks, jack handles, tire irons, bottles, etc.

Other Weapon— includes BB guns, pellet guns, Tasers, pepper spray, stun guns, and other weapon that do not fit into any other category.

Asphyxiation- includes by drowning, strangulation, suffocation, and gas.

Motor Vehicle/Vessel-includes automobiles, motorcycles, buses, boats and other vehicles whose primary purpose is to transport people.

Poison/Drugs-includes toxic substances, drugs, narcotics, and sleeping pills

Fire/Explosives-includes fires used in arsons, dynamite, bombs, or any chemical compound, mixture, or device whose primary or common purpose is to function by explosion.

Unknown—unknown weapon type.

Weapons Used in Crimes in Connecticut

The type of weapon is dictated by the NIBRS data element "Type of Weapon/Force Involved". The use of a weapon can be reported for the following offenses: Murder/Nonnegligent Manslaughter; Negligent Manslaughter; Kidnapping/Abduction; Rape; Criminal Sexual Contact; Robbery; Aggravated Assault; Simple Assault; Extortion/Blackmail; and Human Trafficking Offenses

1.8%

Reported number of crimes committed with a weapon have decreased by 1.8% compared to 2023.
17.2%

Roughly 17.2% of Crimes Against Persons or Property that were reported in Connecticut in 2024 were committed with a weapon.

GLOSSARY

Acting in Concert - Requires all the offenders actually commit or assist in the commission of all of the crimes in an incident. The offenders must be aware of, and consent to, the commission of all the offenses; or even if nonconsenting, their actions assist in the commission of all the offenses.

All Other Offenses - Group B arrest-only offense for an arrest that is not a Group A offense and not included in one of the other specifically named Group B offenses..

Arrest Types - There are three types of arrests per the FBI UCR Program:
- **On-View**- Apprehension without a warrant or previous incident report
- **Summoned/Cited**- Not taken into custody
- **Taken into Custody**-Based on a warrant and/or previously submitted incident report

Arrestee - The person arrested for committing an offense. In incident-based reporting, one arrest clears the entire incident regardless of the number of offenses or offenders, known or unknown.

Arson - To unlawfully and intentionally damage or attempt to damage any real or personal property of another person or entity by fire or incendiary device.

Animal Cruelty - Intentionally, knowingly, or recklessly taking an action that mistreats or kills any animal without just cause. Animal Cruelty includes acts of torture, torment, mutilation, maiming, poisoning, or abandonment. There are four criminal activity types (see definition) associated with Animal Cruelty: simple/gross neglect, organized abuse, intentional abuse or torture, or animal sexual abuse. This definition does not include proper maintenance of animals for show or sport, use of animals for food, lawful hunting, fishing or trapping.

Assault Offenses - An unlawful attack by one person upon another:
- **Aggravated Assault** - An unlawful attack by one person upon another wherein the offender uses a dangerous weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury, or where there was a risk for serious injury/intent to seriously injure. Attempted Murders are reported as Aggravated Assaults.

- **Simple Assault** - An unlawful physical attack by one person upon another where neither the offender displays a dangerous weapon, nor the victim suffers obvious severe or aggravated bodily injury.

- **Intimidation** - To unlawfully place another person in reasonable fear of harm through the use of threatening words and/or other conduct without displaying a dangerous weapon or subjecting the victim to an actual physical attack. This offense includes stalking. The offender can make threats in person, over the telephone, or in writing.

Bad Checks - Knowingly and intentionally writing and or/negotiating checks drawn against insufficient or nonexistent funds. This was a Group B arrest-only offense that the FBI discontinued on January 1, 2021. If a law enforcement agency reported this offense to the Crimes Analysis Unit, it was converted to a 90Z in this report and for the Crime in the United States annual report.

Bias Motivated Crime - Offenses which are motivated, in whole or in substantial part, by the offender's bias against the victim's actual or perceived race, religion, ethnicity, disability, sex, sexual orientation, or gender identity or expression. **Synonymous with Hate Crime.**

Bribery - The offering, giving, receiving, or soliciting anything of value (e.g., a bribe, gratuity, or kickback) to sway the judgement or action of a person in a position of trust or influence – "Anything of value," includes favors or anything else used illegally to influence the outcome of something governed by law, fair play, contractual agreement, or any other guideline.

Burglary/Breaking & Entering - The unlawful entry into a building or some other structure to commit a felony or a theft. A structure is defined as having four walls, a roof, and a door.

Clearance - For the purpose of UCR, a clearance indicates an arrest has been made or **exceptional circumstances** (see definition) have occurred preventing an arrest. For UCR purposes, a clearance does not include a case for which the law enforcement agency could not proceed with an investigation due to an uncooperative or unavailable witness or victim. A clearance by arrest or exceptional means of one offense in a multiple-offense incident clears the entire incident.

Clearance Rate - The percentage of offenses cleared which is derived by dividing the number of arrests made in any offense category by the number of offenses reported in that category.

Cleared by Arrest - For UCR purposes, an offense is considered cleared (solved) by arrest when at least one person involved in the commission of the offense is arrested; charged with the commission of the offense; turned over for prosecution.

Cleared by Exceptional Means - For UCR purposes, an offense is considered exceptionally cleared (solved) in those instances in which law enforcement has definitely established the identity of the offender; has enough information to support an arrest, charge, and turn over to the court for prosecution; has knowledge of the exact location of the offender so that the subject could be taken into custody; and some factor outside their control precludes arresting, charging, and prosecuting the subject.

Counterfeiting/Forgery - The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine, or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

Criminal Activity Type – A NIBRS data element that captures the type of criminal activity that was involved in the offenses of Crimes Against Society, Counterfeiting/Forgery, and Stolen Property Offenses. Up to three types of criminal activity can be reported per offense. They include Buying/Receiving; Cultivating/Manufacturing/ Publishing; Distributing/Selling; Exploiting Children; Operating/Promoting /Assisting; Possessing/Concealing; Transporting / Transmitting/Importing; and Using/Consuming. In Animal Cruelty offenses only: Simple/Gross Neglect; Organized Abuse; Intentional Abuse or Torture; and Animal Sexual Abuse.

Curfew/Loitering/Vagrancy Violations - Group B arrest-only offense for the violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without a visible means of support – This offense includes begging, vagabondage, and panhandling, etc.

Criminal Event - For the purpose of this report it is the act of committing one or more crimes.

Crime - The intentional commission of an act usually deemed socially harmful or dangerous and specifically defined, prohibited, and punishable under criminal law. Defined by state statute.

Crimes Against Person - Those offenses whose victims are always individuals. They are murder and nonnegligent manslaughter; negligent manslaughter; sexual assault offenses; assault offenses; kidnapping; and human trafficking.

Crimes Against Property - Those offenses where the objective is to obtain money, property, or some other benefit. They are arson; bribery; burglary/breaking and entering; counterfeiting/forgery; destruction/damage/vandalism of property; embezzlement; extortion/blackmail; fraud offenses; larceny/theft offenses; motor vehicle theft; robbery; and stolen property offenses.

Crimes Against Society - Offenses that represent society's prohibition against engaging in certain types of activity. They are animal cruelty; drug equipment violations; drug/narcotics violations; gambling offenses; pornography and obscene materials; prostitution offenses; and weapons law violations.

Crime Index - The sum of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area during a given calendar year. Crime classifications used to calculate the index are murder; rape; robbery; aggravated assault; burglary; larceny; motor vehicle theft, and arson.

Crime Rate - Crime rates are indicators of reported crime activity standardized by population. This standardization occurs by dividing the number of crimes the occurred by the number of persons in the population, then multiplying the result by increments of 1000.

Curfew/Loitering/Vagrancy - Violations of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; prohibiting persons from going from place to place without visible means of support. This is a Group B arrest-only offense.

Destruction/Damage/Vandalism (of Property) - To willfully or maliciously destroy, damage, deface, or otherwise injure any public or private property without the consent of the owner or the person having custody or control of it.

Disorderly Conduct - Group B arrest-only offense for any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality – This offense includes affray (when not physical), blasphemy, profanity, , obscene language, disturbing the peace, indecent exposure, loud music, and public nuisance.

Distinct Count – The number of unique occurrences in a dataset whereas the Count is the number of all occurrences.

Domestic Violence - An incident resulting in physical harm, bodily injury or assault, or an act of threatened violence that constitutes fear of imminent physical harm, bodily injury or assault, including, but not limited to, stalking or a pattern of threatening, between family or household members. Family or household member as defined in Connecticut General Statutes 46b-38a means any of the following persons, regardless of age: (A) Spouses or former spouses; (B) parents or their children; (C) persons related by blood or marriage; (D) persons other than those persons described in subparagraph (C) of this subdivision presently residing together or who have resided together; (E) persons who have a child in common regardless of whether they are or have been married or have lived together at any time; and (F) persons in, or who have recently been in, a dating relationship.

Driving Under the Influence (DUI)/Driving While Impaired (DWI) - A person driving or operating a motor vehicle while under the influence of alcohol or drugs or with an elevated blood alcohol content (BAC). A person is under the influence if his/her ability to drive is affected to an appreciable degree. Connecticut drivers over the age of 21 have an elevated BAC if it is found to be .08% or more. Drivers operating a commercial motor vehicle (e.g., a large truck) have an elevated BAC if it is .04% or more. People younger than 21 have an elevated BAC if it is found to be .02% or more. Under Connecticut statute, motorists implicitly consent to be tested for drugs or alcohol when they drive. This is a Group B arrest-only offense.

Drunkenness - Violations of laws or ordinances prohibiting drinking alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. This was a Group B arrest-only offense that the FBI discontinued on January 1, 2021. If a law enforcement agency reported this offense to the Crimes Analysis Unit, it was converted to a 90Z in this report and for the Crime in the United States annual report.

Drug Offenses - Violations of state and/or local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs and the equipment or devices utilized in the preparation and/or use. They include the Drug/Narcotics Violations and Drug Equipment Violations.

Drug/Narcotic Violations - The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled substance.

Drug Equipment Violations - The unlawful manufacture, sale, purchase, possession, or transportation of equipment or devices utilized in preparing and/or using drugs or narcotics.

Drug types as categorized in this report:
- Marijuana/Hashish and its derivatives (gummies, vapes, dabs, caps, edibles)
- Narcotics -Crack Cocaine, Cocaine, Heroin, Morphine, Opium, and other narcotics (Codeine, Demerol, Dilaudid, Hydrocodone, Percodan, Methadone, Pentazocine, Darvon, Vicodin, Lortab, Fentanyl, Oxycontin, Suboxone)
- Depressants – Barbiturates, Other Depressants (Valium, Xanax, Librium, Klonopin, etc.), and Opiates (Morphine, Codeine, Opium, and OxyContin)
- Stimulants –Amphetamines, Methamphetamines, Adderall and other stimulants
- Hallucinogens – Includes but not limited to: LSD, PCP, Ketamine, Ecstasy, Mescaline, Psilocybin
- Other Drugs – Anti-depressants, Steroids, any other not categorized above

Embezzlement - The unlawful misappropriation by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Exceptional (Circumstances) Clearance - The offense is cleared by one of the following means other than arrest: death of offender; prosecution declined (by the prosecutor for other than lack of probable cause); in custody of other jurisdiction (includes extradition denied); victim refused to cooperate (in the prosecution); and juvenile/no custody.

Extortion/Blackmail - To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal prosecution, threat of destruction of reputation or social standing, or through other coercive means.

Family Offenses, Nonviolent - Group B arrest-only offense of unlawful, nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses such as assault, incest, and statutory rape. These offenses include abandonment, desertion, neglect, nonsupport, nonviolent abuse, and nonviolent cruelty to other family members. This category also includes the nonpayment of court-ordered alimony.

Fraud Offenses - The intentional perversion of the truth for the purpose of inducing another person or entity in reliance upon it to part with something of value or surrender a legal right. They include:

- **Credit Card/ATM Fraud** - The unlawful use of a credit/debit card, credit/debit card number, or automatic teller machine for fraudulent purposes.

- **False Pretenses/Swindle/Con Game** - The intentional misrepresentation of existing fact or condition or the use of some other deceptive scheme or device to obtain money, goods, or other things of value. Only includes fraud offenses that do not fit any of the definitions of the specific subcategories of fraud.

- **Hacking/Computer Invasion** - Gaining access to another person's or institution's computer software, hardware, or networks without authorized permissions.

- **Identity Theft** - Wrongfully obtaining and/or using another person's personal data (e.g., name and date of birth, Social Security number, driver's license number).

- **Impersonation** - Unlawfully representing one's position and acting in the character or position to deceive others and thereby gain a profit or advantage or enjoy some right or privilege.

- **Welfare Fraud** - The use of deceitful statements, practices, or devices to unlawfully obtain welfare benefits.

- **Wire Fraud** - The use of an electric or electronic communications facility to intentionally transmit a false and/or deceptive message in furtherance of a fraudulent activity.

Gambling Offenses - To unlawfully bet or wager money or something of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage. They include:

- **Betting/Wagering** - To unlawfully stake money or something else of value on the happening of an uncertain event or on the ascertainment of a fact in dispute.

- **Gambling Equipment Violations** - To unlawfully manufacture, sell, buy, possess, or transport equipment, devices, and/or goods used for gambling purposes. Gambling paraphernalia is another name for such equipment.

- **Operating/Promoting/Assisting Gambling** - To unlawfully operate, promote, or assist in the operation of a game of chance, lottery, or other gambling activity. This offense includes bookmaking, numbers running, transmitting wagering information, etc.

- **Sports Tampering** - To unlawfully alter, meddle in, or otherwise interfere with a sporting contest or event for the purpose of gaining a gambling advantage.

Group A Offenses - There are 28 Group A offense categories made up of 71 Group A offenses. See Crimes Against Person, Crimes Against Property, and Crimes Against Society.

Group B Offenses – Seven offenses not considered Group A offenses. These offenses are only reported when an arrest is made.

Hate Crime - Offenses which are motivated, in whole or in substantial part, by the offender's bias against the victim's actual or perceived race, religion, ethnicity, disability, sex, sexual orientation, or gender identity or expression. **Synonymous with Bias Motivated Crime.**

Hierarchy Rule - A standard Summary Reporting System scoring practice in which only the most serious offense is counted in a multiple offense incident. The rule has been eliminated in the National Incident-Based Reporting System.

Hotel Rule - When a hotel, motel, inn, other temporary lodging, or a rental storage facility is the object of a burglary, it is counted as one incident and the total number of premises burgled.

Homicide Offenses - The killing of one human being by another.

- **Murder and Nonnegligent Manslaughter** - The willful (nonnegligent) killing of one human being by another – Any death due to injuries received in fight, argument, quarrel, assault, or commission of a crime.

- **Negligent Manslaughter** - The killing of another person through gross negligence. Killings resulting from hunting accidents, gun cleaning, children playing with guns, and vehicular accidents associated with DUI, distracted driving (using a cell /smartphone), and reckless driving traffic fatalities.

- **Justifiable Homicide** - The killing of a perpetrator of a serious criminal offense by a law enforcement officer in the line of duty, or the killing, during the commission of a serious criminal offense, of the offender by a private individual. Justifiable Homicide, by definition, always occurs in conjunction with a serious criminal offense (i.e., a felony or high misdemeanor). Justifiable Homicide is not considered a crime and is not included in an agency's crime statistics.

Human Trafficking Offenses - The inducement of a person to perform a commercial sex act or labor or services through force, fraud, or coercion.

- **Human Trafficking Commercial Sex Act** - Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age. All juveniles should be considered a victim of human trafficking if considered to be induced to perform commercial sex acts.

- **Human Trafficking Involuntary Servitude** - The obtaining of person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

Incident - When one or more offenses are committed by the same offender, or group of offenders, acting in concert, at the same time and place. One incident may include up to ten offenses in the National Incident-Based Reporting System.

Incident-Based Reporting - A less restrictive and more expansive method of collecting crime data (as opposed to Summary Reporting) in which all the analytical elements associated with an offense or arrest are compiled on an incident-by-incident basis, also referred to as NIBRS - National Incident Based Reporting System.

Index Crime - Summary Reporting System eight major offenses used to measure the extent, fluctuation, and distribution of crime in a geographical area. The index crimes are murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.

Juvenile - A person who is under the age of 18 at the time of a criminal event or arrest.

Kidnapping/Abduction - The unlawful seizure, transportation, and/or detention of a person against his/her will or of a minor without the consent of his/her custodial parent(s) or legal guardian.

Known Offender - The person thought to have committed an offense, and some aspect of the person was identified. It does not imply the suspect's identity is known.

Larceny Offenses - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another person.

- **All Other Larceny** - All thefts which do not fit any of the Larceny/Theft or specific subcategories identified in UCR – Includes thefts from fenced enclosures, boats (houseboats if used for recreational purposes), and airplanes. It also includes the illegal entry of a tent, tent trailer, or travel trailer used for recreational purposes, followed by a theft or attempted theft. Examples of items stolen from areas in which the offender did not break into a structure are thefts of animals, lawnmowers, lawn furniture, hand tools, and farm and construction equipment. Taking gasoline from a self-service gas station without paying.

- **Pocket-Picking** - The theft of articles from another person's physical possession by stealth where the victim is not immediately aware a theft occurred.

- **Purse-Snatching** - The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

- **Shoplifting** - The unlawful taking of goods or merchandise exposed for sale by a person (other than an employee).

- **Theft from Building** - The unlawful taking of items from within a building which is either open to the public or to which the offender has legal access.

- **Theft from Coin Operated Machine or Device** - The unlawful taking of items from a machine or device that is operated or activated using coins.

- **Theft from Motor Vehicle** - The unlawful taking of articles from a motor vehicle, locked or unlocked.

- **Theft of Motor Vehicle Parts/Accessories** - The unlawful taking of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Liquor Law Violations - Group B arrest-only offense for the violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages. Liquor law violations include violation of laws/ordinances prohibiting the maintenance of unlawful drinking places; operating without a liquor license; underage drinking; furnishing liquor to a minor; bootlegging; operating a still; using a vehicle for the illegal transportation of liquor; etc.

Motor Vehicle Theft - The theft of a motor vehicle – A motor vehicle is a self-propelled vehicle that runs on the surface of land and not on rails that is not proceeds of another crime. This includes scooters.

National Incident-Based Reporting System (NIBRS) - The national program managed by the FBI that compiles state's crime statistics from their Uniform Crime Reporting program. NIBRS replaced the Summary Reporting System (SRS) on January 1, 2021. It captures details on each single crime incident—as well as on separate offenses within the same incident, regarding the offense, property involved, victim, offender, and arrestee. The **Hierarchy Rule** was retired and up to 10 offenses can now be reported per incident.

Offender - The person thought to have committed an offense. See Known Offender and Unknow Offender.

Offense(s) - The definitions used in NIBRS for crimes to standardize reporting practices across the country in order to compile a picture of crime in the United States.

Peeping Tom - Secretly looking through a window, doorway, keyhole, or other aperture for the purpose of voyeurism. This was a Group B arrest-only offense that the FBI discontinued on January 1, 2021. If a law enforcement agency reported this offense to the Crimes Analysis Unit, it was converted to a 90Z in this report and for the Crime in the United States annual report.

Personal Weapons - Includes hands, feet, fists, and teeth.

Pornography/Obscene Material - The violation of laws or ordinances prohibiting the manufacture, publishing (publication), distributing (distribution), sale, purchase, or possession of sexually explicit material deemed legally obscene.

Prostitution Offenses - To unlawfully engage in or promote sexual activities for anything of value.

- **Assisting or Promoting Prostitution** - To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.

- **Prostitution** - To engage in commercial sex acts for anything of value. This offense involves prostitution by both males and females.

- **Purchasing Prostitution** - To purchase or trade anything of value for sex acts.

Robbery - The taking of anything of value from the control, custody, or care of another person by force or threat of force and/or by putting the victim in fear of immediate harm.

Same Time and Place - This concept pre-supposes that if the same person or group of persons committed more than one crime and the time and space intervals separating them were insignificant, all the crimes make up a single incident. Normally, the offenses must have occurred during an unbroken period of time and at the same or adjoining locations. However, incidents can also be comprised of offenses which, by their nature, involve continuing criminal activity by the same offenders at different times and places if, a law enforcement agency deems the activity to constitute a single criminal transaction.

Sex Offenses- Any sexual act directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent. They are:

- **Criminal Sexual Contact** -RENAMED BY THE FBI 2023 - The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

- **Rape** – REVISED AND REDEFINED BY THE FBI 2023 Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, or by a sex-related object. This definition also includes instance in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (include due to the influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of the victim to demonstrate lack of consent.

- **Sexual Assault with an Object** – (DISCONTINUED AND RECODED TO RAPE in 2023) To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

- **Sodomy** - (DISCONTINUED AND RECODED TO RAPE in 2023) Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is unable to give consent because of /her age or because of his/her temporary or permanent mental or physical incapacity.

- **Incest** - Nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

- **Statutory Rape** - Nonforcible sexual intercourse with a person who is under the statutory age of consent. There is no force or coercion used in Statutory Rape; the act is not an attack. Age of consent in Connecticut is 16 years-old.

Stolen Property Offenses - Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

Structure – A structure has four walls, a roof, and a door (e.g., apartment, barn, cabin, church, condominium, dwelling house, factory, garage, house trailer or houseboat if used as a permanent dwelling, mill, office, outbuilding, public building, railroad car, room, school, stable, vessel or ship, warehouse). Related to Burglary/Breaking and Entering.

Summary Reporting System (SRS) - A method developed in the 1930s for state Uniform Crime Reporting (UCR) Programs to submit their crime statistics to the FBI UCR Program in order to compile a national report on an annual basis. Fully phased out January 1, 2021 and replaced by the National Incident-Based Reporting System (NIBRS).

Trespass of Real Property – A Group B arrest-only offense. The unlawfully entry of land, a dwelling, or other real property.

Unknown Offender - The person thought to have committed an offense, and no aspect of the person was identified.

Weapons Law Violations - The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.
