

# ALERT/NOTIFICATION/GPS UPDATES

- Statewide expansion is complete– Stamford is the last court and will be operational this month
- JB-Family Services is shifting to a AN/GPS monitoring unit- this will streamline alert triage and communication with internal and external stakeholders
- After discussion with our stakeholders, the threshold for a mobile exclusion zone was reduced from 2500 feet to 1000 to limit both non-emergent alerts for law enforcement and victim fatigue resulting in too many alerts
- A survey will be developed and distributed to gain input from law enforcement regarding what works well regarding AN/GPS and what modifications we can make to program operations
- Currently there are 279 defendants on the program statewide, with a majority in Hartford and Bridgeport
