Recommendation for discussion and vote:

Enhance access to the ATM model to a targeted population of youth and young adults who are transitioning out of the Department of Correction and/or who are under the supervision of the Juvenile/Adult Probation. Provide information to referral sources and develop an effective referral process that meets the needs of the clients. Referral sources will be educated on the specialized programming available through ATM with an emphasis on services not currently available through the Department of Correction or the Court Support Services Division contracts. Examples of these services include Recovery Management Checkups and Support (RMCS) and 12-month post discharge client and family support.

While the Department of Correction and Court Support Services Division already offer MAT at several of their facilities and are connecting inmates with MAT services post discharge, the utilization of ATM will expand the continuum of services for youth and young adults. The focus will be on client centered recovery services to reduce opioid use and commonly associated substance use problems.

7. Discussion regarding year in review and SUD/ODU and suggestions for Council follow up in CY 2021. Council (10 min)
8. Other business Council (10 min)
