х	Deborah Lake			Rebecca Allen		Tom Russo
	Don Maleto			Rodrick Marriott		
Su	pporting Leadership & Ot	her Participan	its			
х	Diana Shaw (DCP)			Stephanie Welch (DMHAS)	х	Jack King (Presenter)
х	Samantha Allard (DCP)		Х	Kelly Edwards (DMHAS)	х	Alyson Codner (DPH)
х	Ramona Anderson (DCP))		Kelly Leppard (DMHAS)	х	Austin Terreri (Presenter)
х	Karonesa Logan (DCP)		Х	Kris Robles (DCF)	х	Reem Hadid
х	Steven Wolf (DCP)		Х	Alison Wiser	х	Kayla Champagne
	Allison Sullivan (DPH)		Х	Cynthia Petronia-Vazquez	х	Sharon Greaves
х	Seth Baker (DPH)		Х	Allyson Nadeau	х	Erica Previti
	Robin-Tousey Ayers (DP	H)	Х	Lauren Kittle		
			Х	Wendy Mill		

TOPIC	DISCUSSION	ACTIONS / DECISIONS
Welcome Review of Minutes	The meeting began at 1:23p.m. Approval of meeting minutes from last meeting. Bob Kanehl motioned to approve the minutes; Judy Stonger seconded.	Minutes Approved
DPH Cannabis Health Statistics	Jack King, MPH, Epidemiologist in Community, Family Health and Prevention Section of DPH	Jack King Jack.King@ct.gov
	Jack King presented on 2023 CT Cannabis Health Statistics. Public Act 21-1 Section 146 mandates DPH to establish a program for cannabis public health surveillance and directs DPH to be the source of	Alyson Codner Alyson.codner@ct.gov
	cannabis data and statistics on cannabis related illness, adverse events, injury, pregnancy outcomes, childhood poisonings, adult and youth use and cannabis related emergency room and urgent care	Stephanie Poulin Stephanie.poulin@ct.gov
	mental health visits.	For more information:
	DPH is in the process of identifying and/or collecting cannabis related data from the following sources: EPICENTER, DCP, crash	Cannabis Health Statistics (ct.gov)
	data, FARS (fatal motor vehicle), death data, poison control data; and as well as other sources.	Presentation Attached
	Information points from the presentation include:	
	 2021 was a strange year was different and saw dips in a lot of behavior. 	

- Seeing a trend that those using cannabis before the age of 13 decreased over time. In 2005 it was 8.5% and in 2021 was 2.4%
- Edible usage/ingestion has increased.
- Risk perception has decreased in the 18–25-year-old age group.
- Initiation of cannabis use in older adults (26+) is on the rise.
- 2016 2017 There was a 13 ½ percent increase in overall cannabis related ED visits and is expected to go up.
 - A very large increase among those ages 0-9 42 cannabis related hospitalizations in 2021 compared to zero cases in 2016.
 - Rates increased by 85% among ages 10-14
 - o 125% among ages 60-64 and
 - o 218% among those aged 65 plus.
- Males are at a higher rate than females much higher in 2016 -139 percent higher; however, it shrunk by 65% in 2021.
- Non-Hispanic Black the most; non-Hispanic Asian less
- Young adults had the most adverse health events lowest perceived risk of use

PreventionCorps: Impact on Prevention Workforce

Austin Terreri, Program Director for Prevention Corps: VISTA, NCCC, State/National

Austin provided an overview of AmeriCorps and its provision to improve lives and foster civic engagement. There are three branches of AmeriCorps – VISTA, NCCC, and State/National.

Prevention Corps falls under the state/national category and concentrates on community health and education. With a mission to provide proactive community-focused solutions in opioid education, awareness, and stigma reduction. However, an underline goal is to build capacity at the local levels so that organizations have the ability to do more 'boots on the ground' prevention work.

Members serve 8-10-month service placements from either November-August or February- September. These are either 900 hours or 1200 hours placements.

Serving members receive a living stipend and will receive the Segal Education Award, similar to a scholarship to pay off federal student loan debt or current education.

Placement can also count as an internship depending on the requirements of the school.

Coaching plays a big part in professional development providing the tools needed when entering the professional workforce from program staff & site supervisors. AmeriCorps members have:

- Trained as naloxone trainers
- Attend SPF workshops
- Become certified QPR gatekeepers and MHFA

Members also receive professional development trainings – for example the opioid epidemic, professional etiquette, public

Austin Terreri austin@ryasap.org

speaking, resume/cover letter writing, interviews skills, financial planning, among other subjects.

There has been 40 Prevention Corps AmeriCorps graduates- 10 currently serving.

Trained over 3,300 individuals in naloxone use – coordinated 346 community education sessions and partnered with 327 pharmacies and prescribers.

AmeriCorps are 3 year grant cycles currently in the middle of a 3-year grant. Ways to support AmeriCorps is by spreading the word and to continue engaging members that are serving near you and involving them in whatever you may need.

Workgroup Updates

Naloxone Workgroup

The Naloxone workgroup is preparing recommendations and will share draft recommendations shortly. The timeline is to finalize recommendations by August $\mathbf{1}^{st}$. Next meeting is on May $\mathbf{4}^{th}$ – all are welcome to join to writing the draft.

Discussion/Comments

- In PA, there was a RWF certified restaurant that had on overdose prevention kits including naloxone kit, fentanyl and xzaline test strips in the bathroom. It was also mentioned that the restaurant was recovery friendly themed. How do we get there?
- Where does the cost of the naloxone stand? The FDA
 hosted a webinar the day after the approval announcement
 where there was over 1,000 were listening in. There is a
 fine line of making OTC Naloxone affordable while ensuring
 it it is still profitable.
 - Prescribed OTC is not paid by insurance what happens to those socioeconomically depressed?
 Sometimes it is covered and sometimes it is not.
- The is also the Medication Access and Training Expansion (MATE) Act – which ensures that all DEA controlled medication prescribers have a baseline knowledge of how to prevent addiction and how to identify, treat and manage patience who have a SUD. – this 8 hrs of training in addiction medicine is needed to renew your DEA license.
- What are the successes to co-prescribe success stories. Who are the champions?

Media and Stigma Workgroup

Will continue to continue to host forums but will move to a yearly format. Believes their work for the ADPC= happy to move off the recommendations having been on the list for 3 years. While continuing to do the work, will likely move to a yearly forum.

<u>Cannabis Awareness and Education Campaign</u> has been doing great work, with the "Be In The Know Campaign" in association with
