Today's Agenda

Addiction Treatment History at CT
DOC

Expansion of Current MOUD
Programs

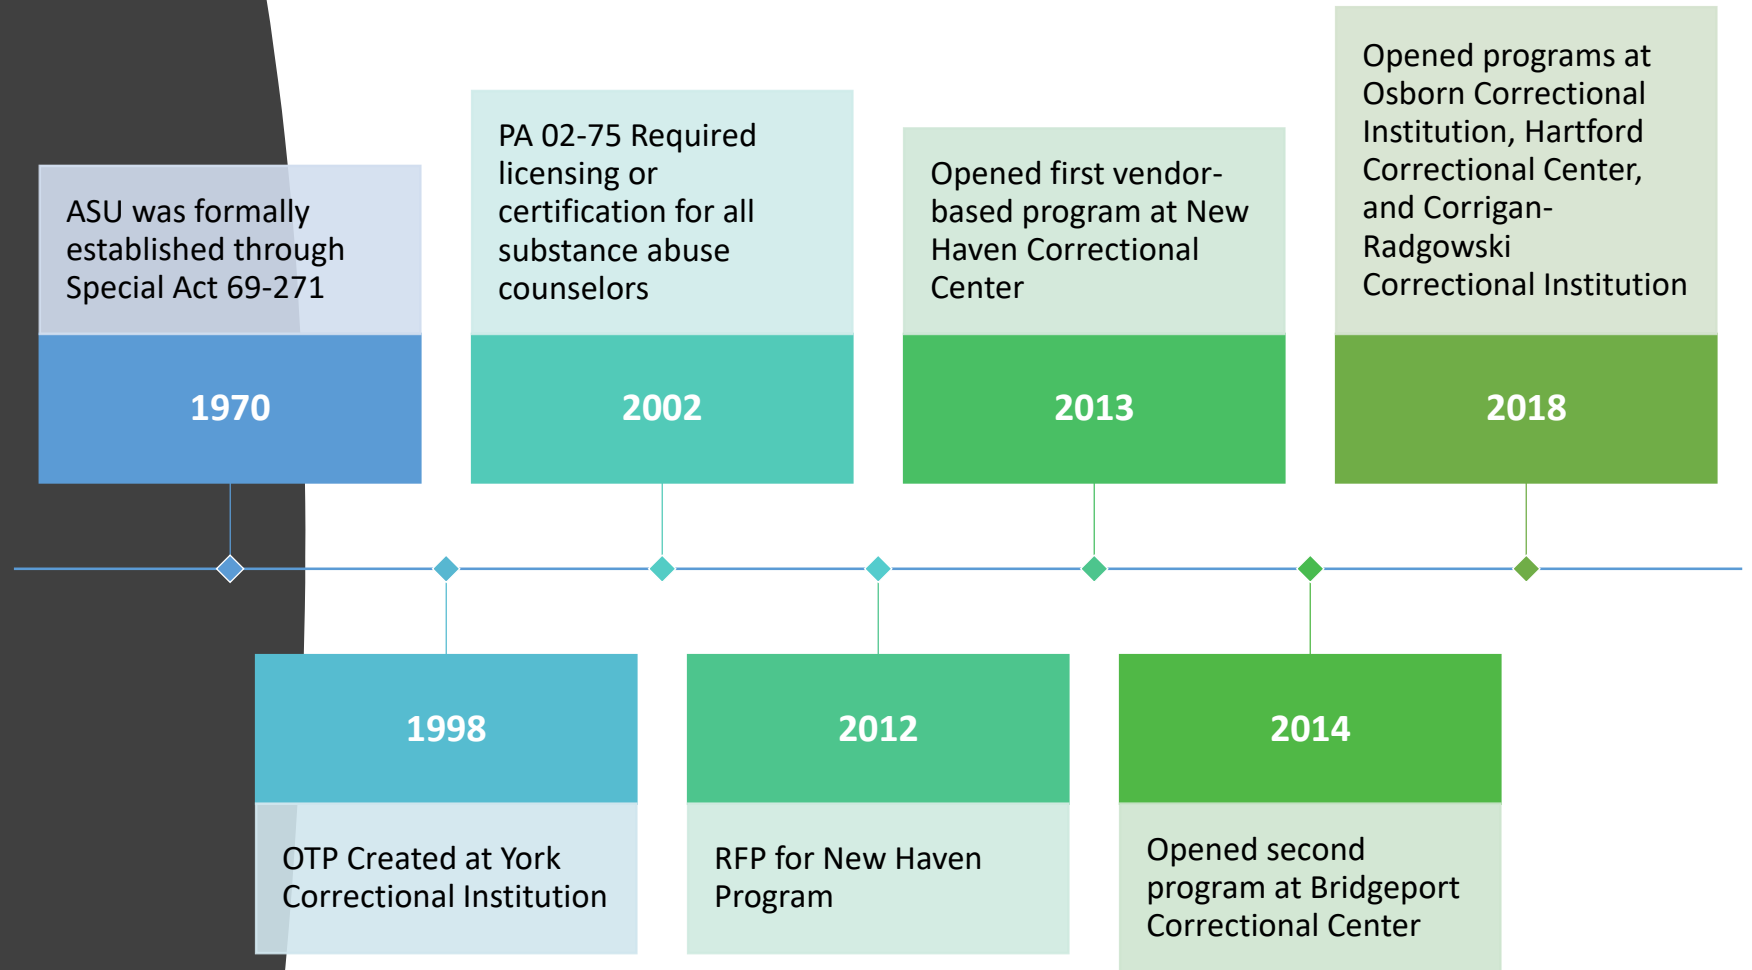

New Facilities to start MOUD
Program

MOUD today at CT DOC

no disclosures.

Disclosures

Addiction Treatment History

Expansion Barriers

York CI

- Dissolving methadone tablets for 100+ women daily

Vendor run programs

- meeting capacity
- Maintenance only
- Transporting large number of methadone doses daily

Challenges with population transfers

- Facilities without programs
- Security levels

Next Steps. . .

Current facility expansion

Enhance the medication delivery system

Offer all three FDA approved medications
for MAT

Add programs in additional facilities

NCCHC Accreditation

York Correctional Institution

Internal OTP

- Only facility in CT DOC that manages and operates

Modify and construct a room to meet DEA standards

- Security cameras
- Safes
- Specialty doors and locks

Enhance the medication delivery

- State of art dispensing equipment and software

State budget additions and Continued SOR funds

Governor assigned 8 million over 2 years,
then followed by 6 million following year

SOR funding for Naloxone

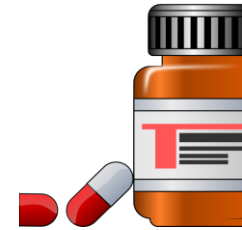

CDC funding for continued DPH positions
for Opioid Services Coordinator

CDC funds for new position for Naloxone
Coordinator for CT DOC

Expansion of MOUD Programs

Expand all
current
programs

Expand the use
of all 3 FDA
approved
medication

Enhance
medication
delivery
system

Induction:
Initiate
medications

Add MOUD
programs in
Additional CT
DOC Facilities

National
Commission on
Correctional
Healthcare

	Vendor- APT
	Program- Satellite

Connecticut DOC System

Unified System

Average Daily Population decreased
with Covid

13 Facilities

MOUD Model

Internal OTP

Vendor-based

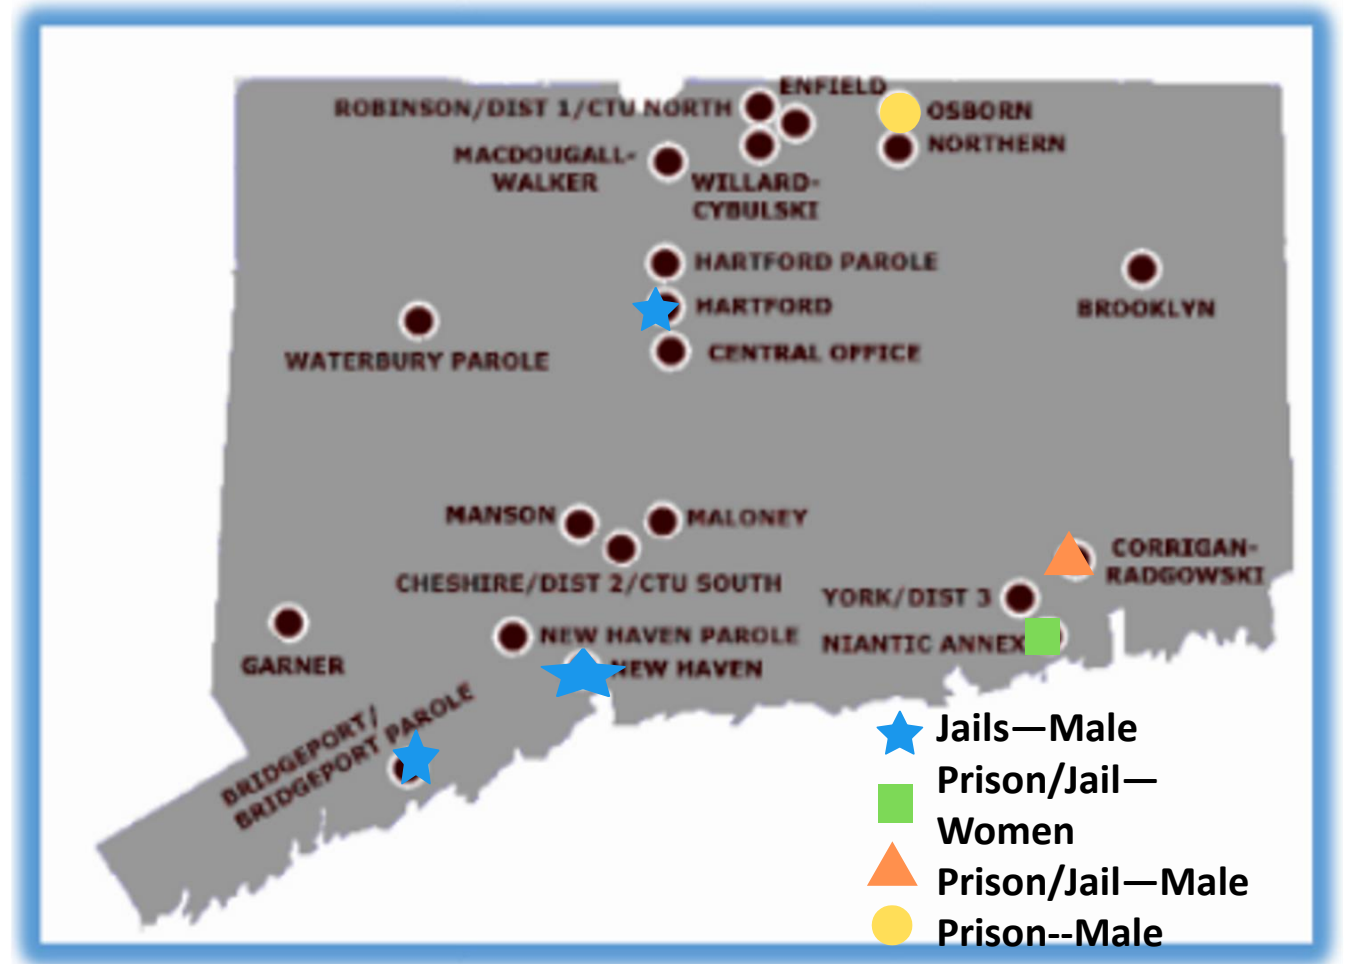

10 MOUD treatment programs

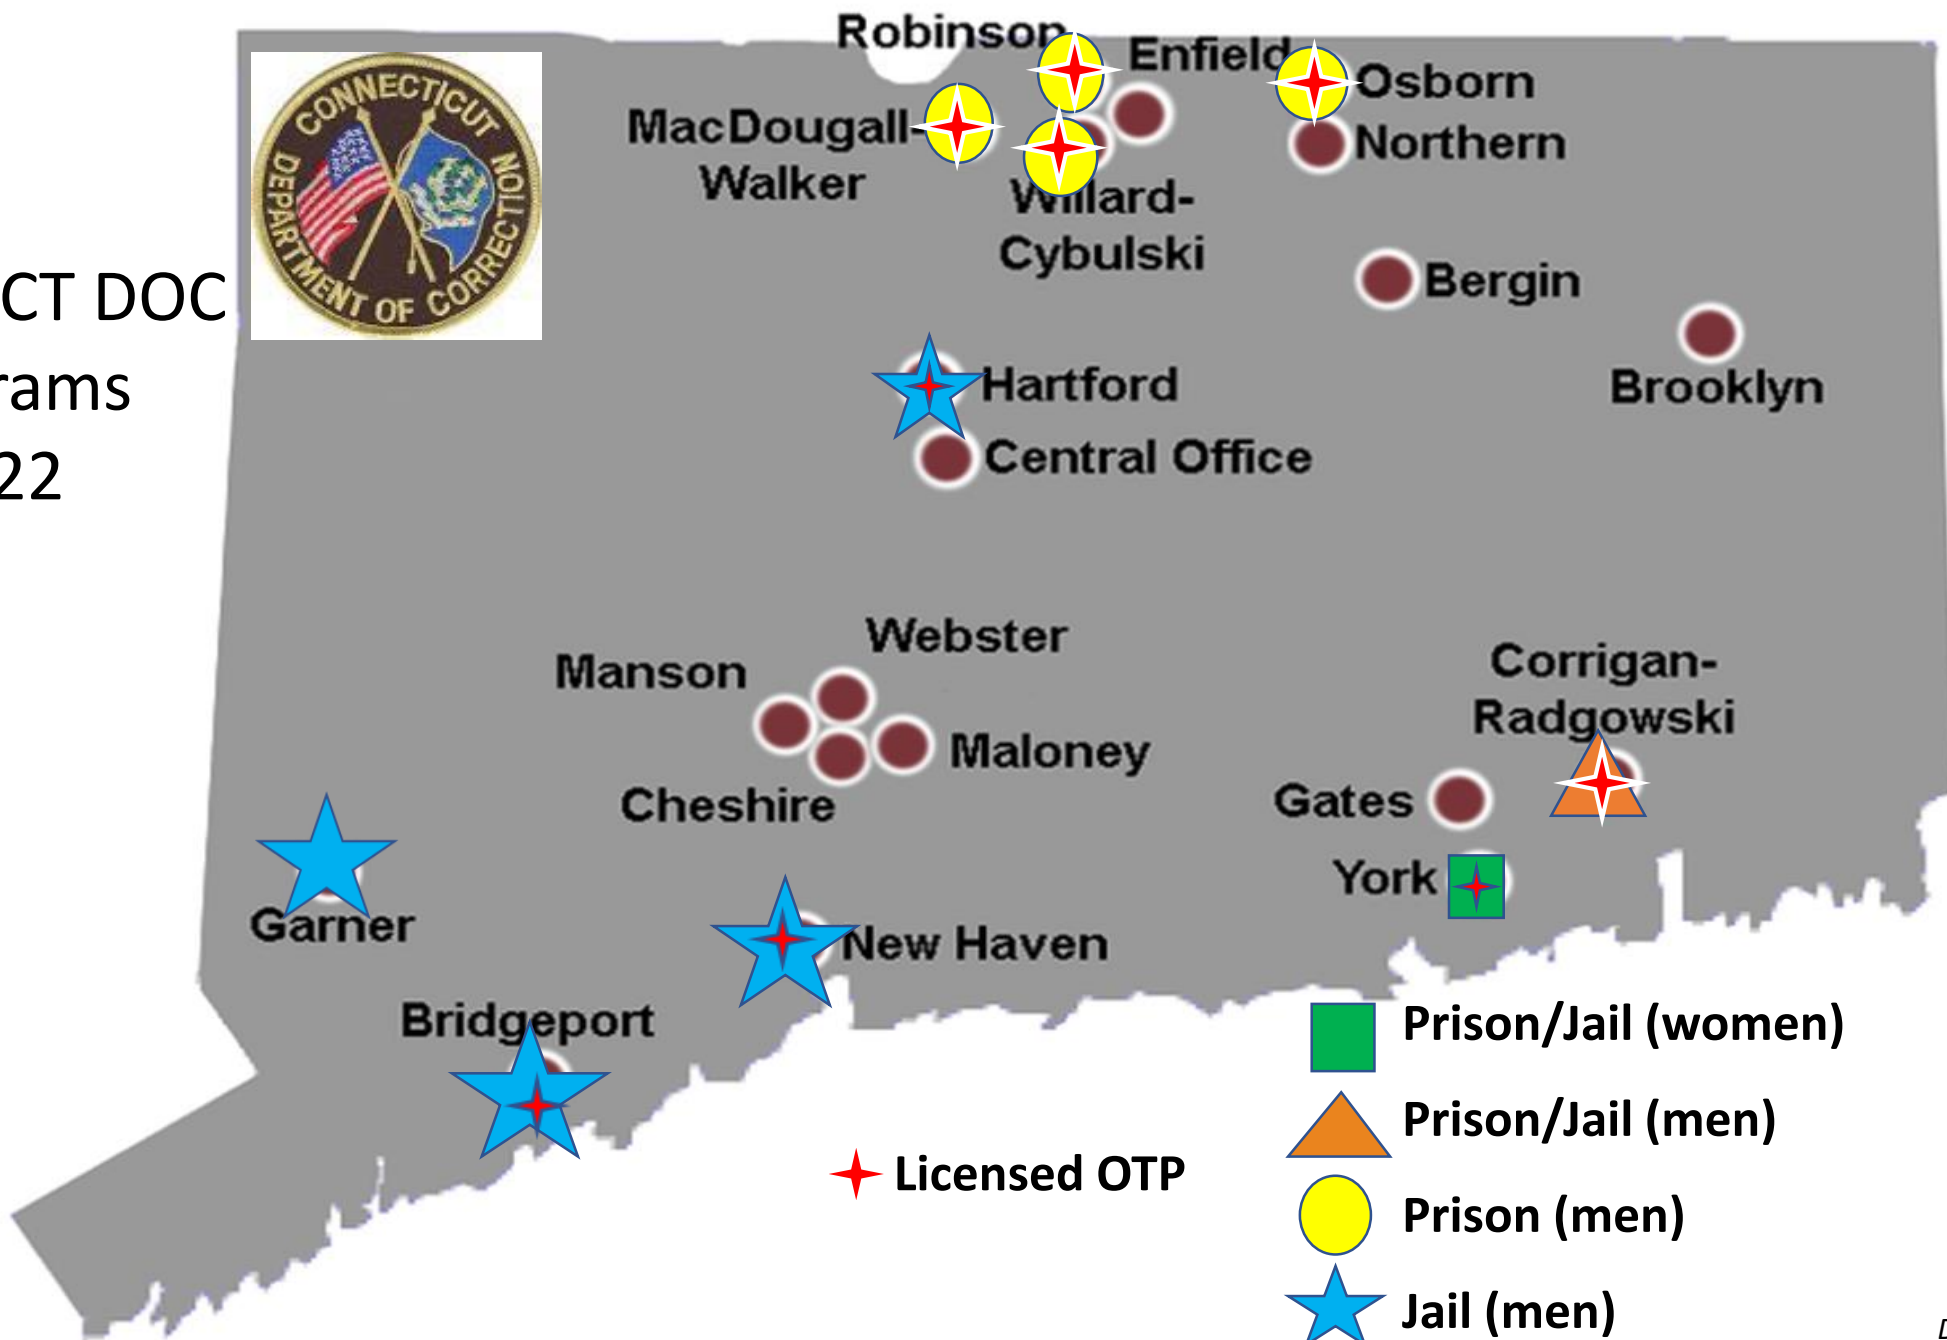

Treating ~ 850-875 inmate-patients daily
(methadone/buprenorphine/naltrexone)

MOUD System--2019

- Treat ~ 200 patients daily
- Largely methadone
 - buprenorphine at YCI
- 6 Facility-based programs
 - 1-Internal OTP
 - 5-vendor-based OTPs

Current CT DOC Programs 2022

Conclusion

All three approved FDA medications available

9 programs are DEA licensed OTPs, SAMHSA certified and NCCHC accredited, 1 program is a satellite licensed through DPH

10 Facilities will offer a full MOUD program covering services through the continuum of care.

Hope
