

# 2024

## ANNUAL STATISTICAL REPORT

**PREPARED BY**

Evaluation, Quality  
Management, and  
Improvement Division

[portal.ct.gov/dmhas](https://portal.ct.gov/dmhas)

## Introduction

The Evaluation, Quality Management and Improvement (EQMI) Division at the Department of Mental Health and Addiction Services (DMHAS) is pleased to publish its eleventh Annual Statistical Report.

This report makes key information more accessible to departmental stakeholders and the public: it includes data on clients served, demographic characteristics, types of services provided, residential and inpatient bed utilization, and substance use trends.

It is important to note that this report covers Fiscal Year 2024 (July 1, 2023 – June 30, 2024).

This report utilizes data downloaded from DMHAS' Enterprise Data Warehouse on October 23, 2024.

Special thanks to all of the EQMI staff and University of Connecticut School of Social Work contractors who assisted with this report. Kristen Miller, Hsiu-Ju Lin, Jeff Johnson, and Ailan Jin compiled, tested, and analyzed the data. Kristen Miller developed this report.

Liz Feder, LMFT

Director, Evaluation, Quality Management and Improvement (EQMI)

## About the Data in this Report

The numbers contained in this report are the official DMHAS data for State Fiscal Year 2024 (SFY24).

These data include clients served in DMHAS-funded or DMHAS-operated programs. The clients and the services are diverse, and the data are complex. This report will, at different times, reflect numbers that refer to different subgroups or events that are based on specific filtering of the data.

For instance, we frequently filter out programs that are not required to report treatment data when we present information from the Level of Care (LOC) perspective. We also distinguish between clients and episodes. This distinction is important.

Each client may have multiple episodes of care that occur within the fiscal year; thus, the client may be counted multiple times (i.e. duplicated) – once for each episode, if applicable.

Thus, admissions and discharges are reported as episode counts, as many clients have multiple episodes. In addition, a client may be admitted to/enrolled in several programs simultaneously; therefore, each admission will be included in the overall Admission count.

The data contained in this report were downloaded from DMHAS' Enterprise Data Warehouse (EDW) on October 23, 2024. The data warehouse is a dynamic system, so reports or other analyses performed on different dates may produce slightly different results. Several levels of care (LOCs) are not included in these analyses, including Pre-Admit, Recovery Support and Other. These LOCs may be included in EDW reports, thus resulting in potential discrepancies when comparing numbers. Finally, we do not include data that has been submitted to the agency from programs that are not funded by DMHAS Human Service Agreements.

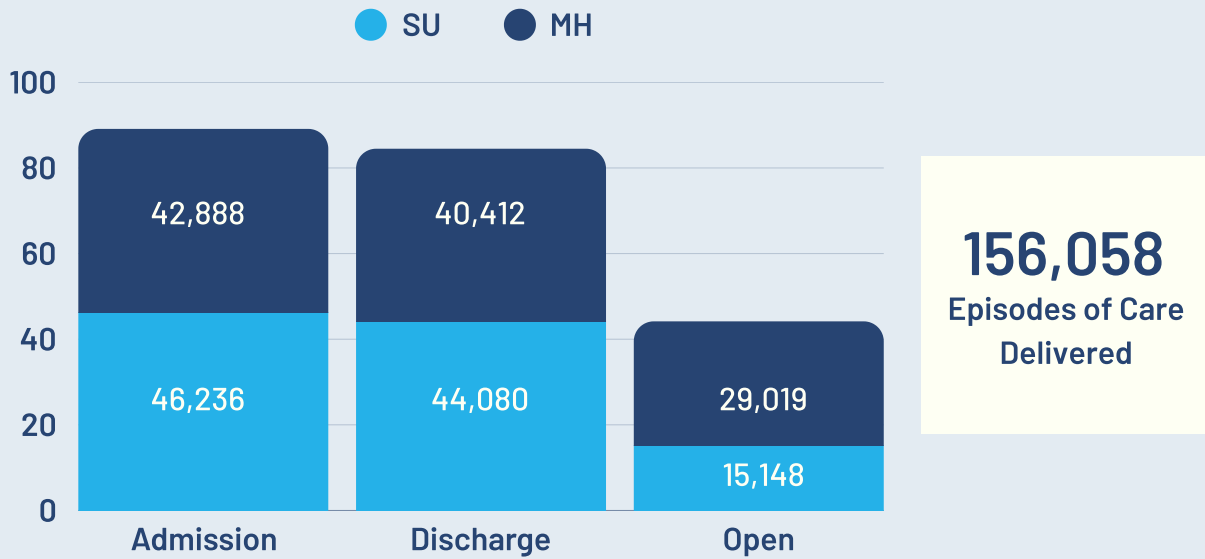

## DMHAS SFY24 Annual Statistical Data - Quick Facts

Program Type		Unduplicated Client Count		
Mental Health Programs		54,369		
Substance Use Programs		46,405		
Total Unduplicated Count		94,397		
Race		Unduplicated Client Count		%
White/Caucasian		54,936		58%
Black/African American		15,831		17%
Other		14,659		16%
Ethnicity		Unduplicated Client Count		%
Latino/Hispanic Ethnicity		20,176		21%
Gender		Unduplicated Client Count		%
Female		39,577		42%
Male		54,563		58%
Transgender/Other*		257		0.3%
Level of Care		Unduplicated Client Count		
MH Inpatient		1,022		
MH Residential		1,971		
MH Outpatient Levels of Care		53,727		
SU Inpatient Services (Withdrawal Management)		1,589		
SU Residential Rehab		8,807		
SU Outpatient Levels of Care		41,512		
Primary Substance at Admission - All SFY24 Admissions		N		%
Alcohol		15,683		44%
Heroin/Other Opioids		10,448		30%
Primary Substance at Admission - All SFY24 Active Clients		N		%
Alcohol		24,378		37%
Heroin/Other Opioids		22,658		35%
Cannabis (Marijuana/Hashish/THC)		7,724		12%
Diagnosis Categories		N		%
Serious Mental Illness (SMI)(includes PTSD)		51,172		58%
SU diagnosis		45,234		51%
Dual Diagnosis (SMI + SU)		24,982		28%

\*Category includes responses of "Unknown"

## SFY24 Episode Counts

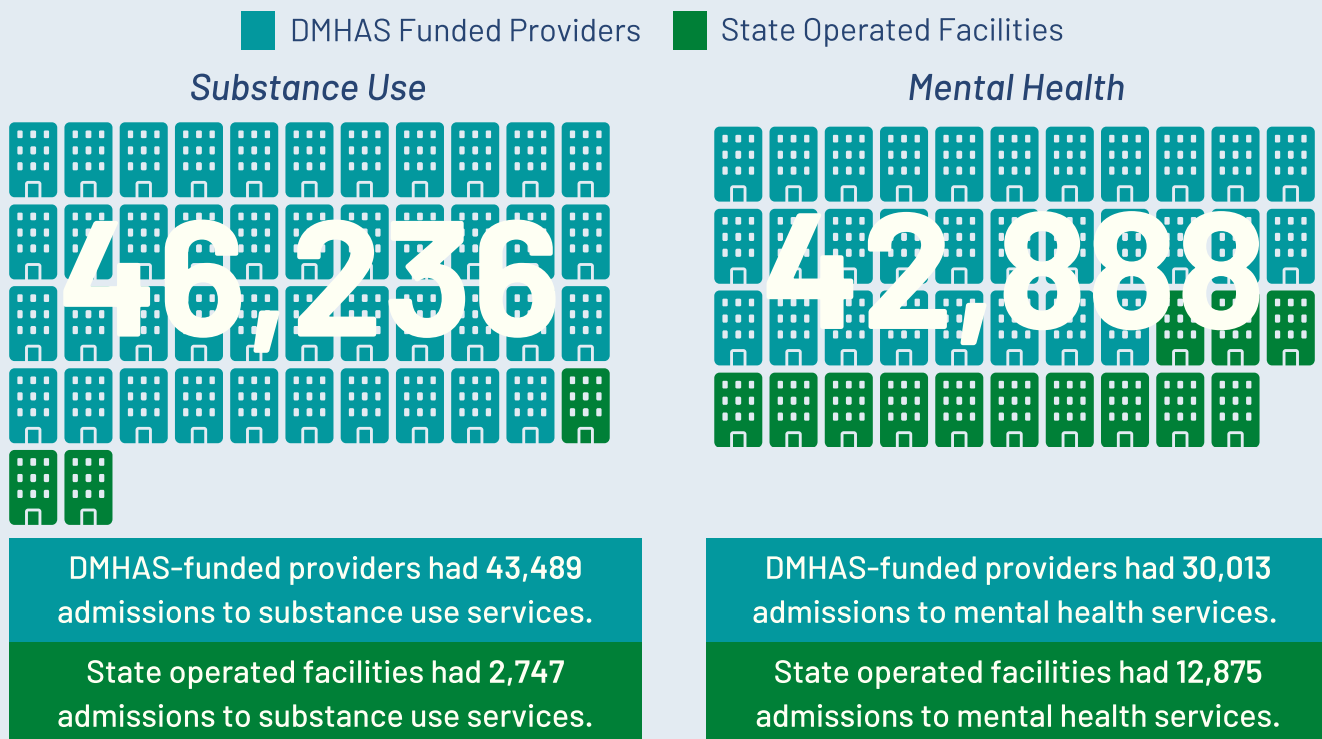

In SFY 2024, DMHAS-funded and DMHAS-operated programs had:

- 89,124 admissions
- 84,492 discharges

At year end, there were 44,167 open episodes. These are episodes with admissions before 7/1/23 and no discharges by 6/30/24.

## Admissions by Type of Provider

## Number of Clients Served

# 94,397 individuals

were served in SFY 2024 (July 1, 2023 - June 30, 2024).  
This is slightly more than the population of Norwalk.

Most clients were served by DMHAS-funded providers. State operated facilities served about 10% of the total client population, largely providing mental health services.

## Gender

**54,563 male clients**

SU	26,256
MH	24,210
Both	4,097

**39,577 female clients**

SU	13,691
MH	23,613
Both	2,273

### 257 transgender/other\* clients

DMHAS is working to update and standardize the way in which gender related information is collected across DMHAS platforms. Note that there can be numerous factors as to why this category may be underrepresented, such as outdated data collection practices, underreporting due to stigma, etc.

\*Responses of Unknown are included in this count

## Age

During FY24, the mean client age was 44.1 (±15) years.

Clients in Substance Use programs tend to be somewhat younger (mean age: 42.0 years) while in Mental Health programs, they tend to be somewhat older (mean age: 45.8 years).

## Race

For this report, the "Other" category includes the following DMHAS race categories: Other, American Indian/Native Alaskan, Asian, Native Hawaiian/Other Pacific Islander, and Multi-Race. Many (but not all) people who indicate "Other" as their race identify as Hispanic or Latino origin. Detailed statistics may be found in the Appendix.

## Ethnicity

In SFY24, the DMHAS population was 21% Hispanic/Latino origin.

While almost half (47%) of the Hispanic respondents are Puerto Rican, many have ties to Central and South America, Mexico, and Cuba.

## Substance Use Clients by Level of Care

This chart shows active client counts in addiction levels of care during SFY24. Some categories have been combined to enable easier rendering. Additionally, Case Management is found in both SU and Forensic SU services; those totals have been combined for this graph and thus that count may be slightly duplicated. Other categories represent unduplicated client counts. Detailed tables with active client, admission, and discharge counts may be found in the Appendix.

## Mental Health Clients by Level of Care

This chart shows active client counts in mental health levels of care during SFY24. Some categories have been combined to enable easier rendering. Additionally, some levels of care that are shared between Mental Health and Forensic MH (namely, Inpatient, Residential, Crisis, Case Management, and Outpatient) may have slightly duplicated counts.

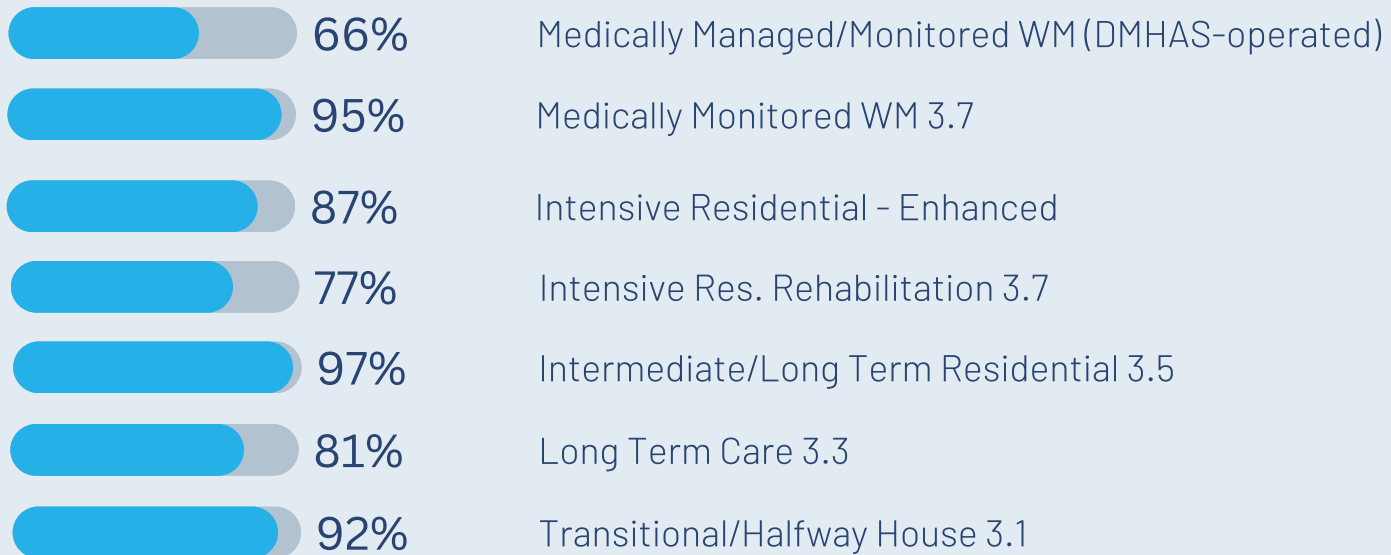

\*The Prevention LOC in this report represents only two programs. Most Prevention programs collect service data outside of DMHAS-operated and DMHAS-funded systems. Thus, the Prevention data presented in this report does not represent complete statewide Prevention services.

Detailed tables with active client, admission, and discharge counts may be found in the appendix.

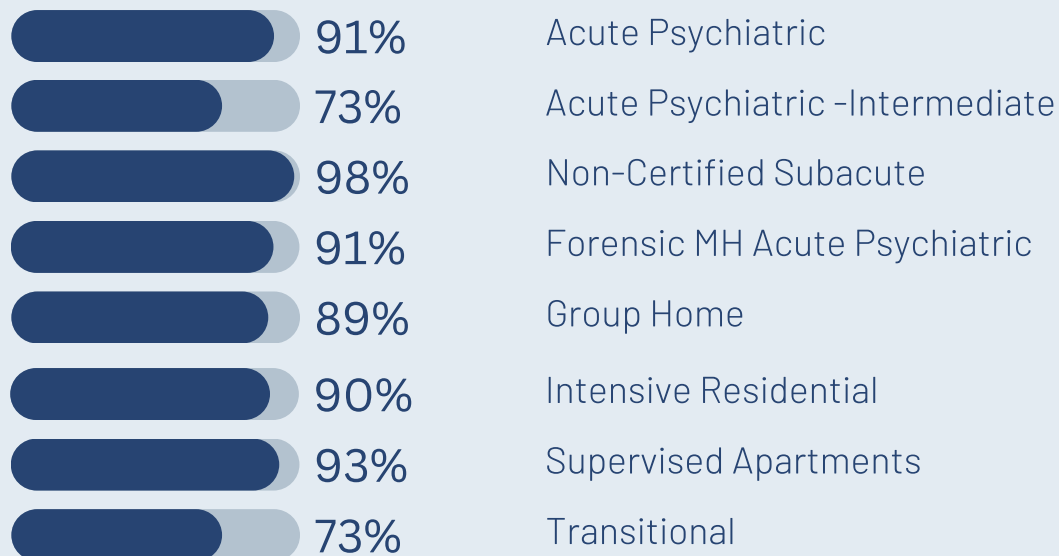

## Bed Utilization

In this section, combined utilization for both DMHAS-funded and DMHAS-operated beds is reported. For additional detailed information, including regional information and Forensic Mental Health/Crisis utilization, please see the appendix of this report.

### Substance Use Beds

### Mental Health Beds

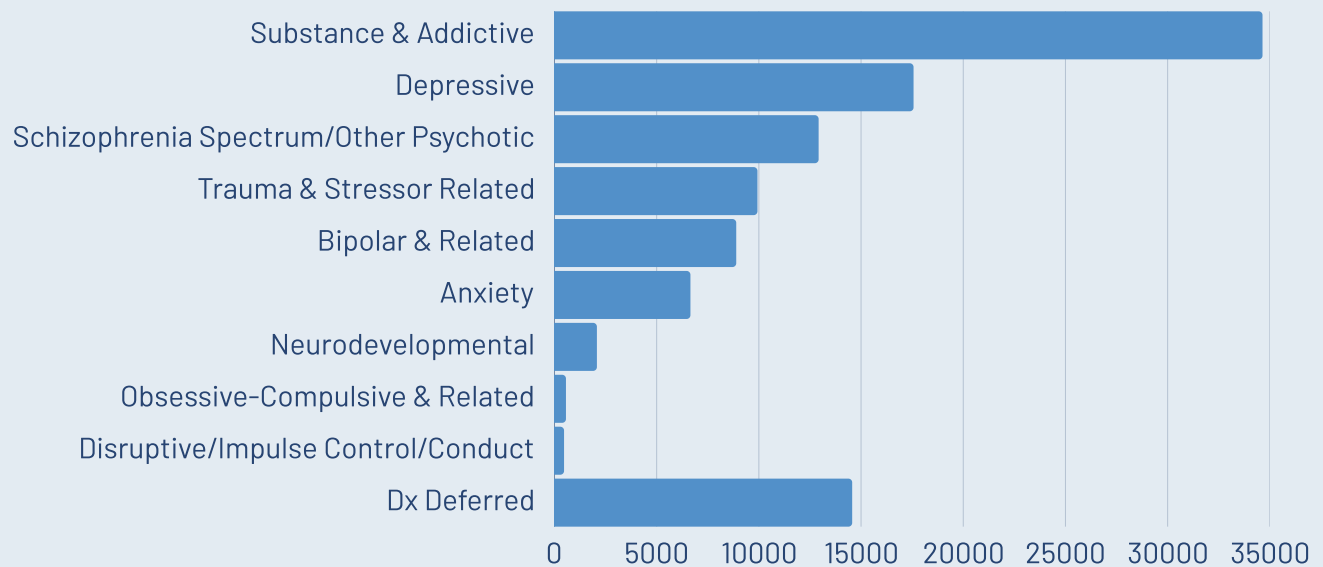

## Primary Substance of Choice at Admission

Over 65,000 admission records contained information about substance(s) of choice; the primary substance frequencies are charted below. Alcohol was the most common primary substance of choice at admission in SFY24, as it has been since SFY21.

\*This category includes benzodiazepines, PCP, amphetamines, hallucinogens, non-prescription methadone, other sedatives or hypnotics, barbiturates, inhalants, methamphetamines, other stimulants, tobacco, tranquilizers, and over the counter medications.

## Diagnosis

Diagnosis data come from treatment related programs, and reflect the *most recent primary diagnosis* during the *most recent episode of care* that was open during the fiscal year.

"Primary diagnosis" refers to the most concerning problem for which a person seeks help.

Note that clients may have more than one primary diagnosis, and many people have more than one diagnosis.

These values represent an unduplicated client count within each diagnostic category. The bar chart above represents over 99% of the diagnostic data; a detailed table may be found in the Appendix.

## Serious Mental Illness (SMI) Prevalence

**"Serious Mental Illness" refers to mental, behavioral, or emotional disorders that significantly interfere with one or more major life activities.\***

More than half of all clients qualify for an SMI diagnosis.

\*National Institute of Mental Health (NIMH). 2022. Mental Illness. [online] Available at: <https://www.nimh.nih.gov/health/statistics/mental-illness> [Accessed 5 February 2025].

## Substance Use and Co-Occurring Disorder Prevalence

**More than half of all clients served have a substance use disorder.**

This statistic is based on both primary and non-primary diagnoses from the most recent treatment episode.

of DMHAS clients had a substance use/abuse disorder during SFY24.

"Co-Occurring Disorder" refers to the condition of having co-existing mental illness and substance use disorders.†

of DMHAS clients had a co-occurring disorder, defined as SMI plus a substance use/abuse diagnosis.

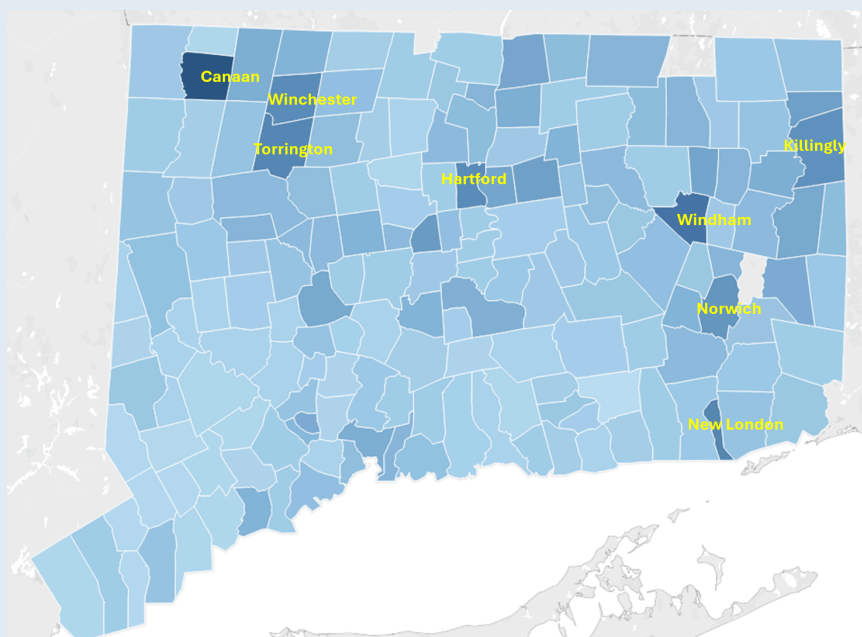

†Substance Abuse and Mental Health Services Administration (SAMHSA). 2022. [online] Available at: <https://www.samhsa.gov/medication-assisted-treatment/medications-counseling-related-conditions/co-occurring-disorders> [Accessed 5 February 2025].

## DMHAS Clients Served by Town

Most DMHAS clients reside in urban areas. This map shows the DMHAS population by volume; higher counts are shown in darker shading.

DMHAS penetration rates were calculated as number of clients per 1,000 residents\*. When mapped, this reveals a more complex picture. Note that two of the darkest towns – Canaan and Windham – are in rural areas. Clusters of towns appear – particularly in the eastern and western parts of the state where population density is lower.

\* Population estimates taken from CT DPH, Annual Town and County Population for Connecticut, accessed April 2023.

# Appendices

<u>15</u>	Counts
<u>16</u>	Demographics
<u>18</u>	Counts by Provider Type
<u>20</u>	Counts by Program Type and Level of Care
<u>27</u>	Primary Substance of Choice
<u>33</u>	Primary Diagnosis
<u>34</u>	Client Counts by Town
<u>40</u>	Bed Capacity and Utilization

## Episode Counts

**Episode** refers to a period of time (*episode of care*) when a client is admitted to a program, receives services, and is eventually discharged. A person can have more than one episode of care during the fiscal year.

Episode counts	SU	MH	Total
Admission	46,236	42,888	89,124
Discharge	44,080	40,412	84,492
Open*	15,148	29,019	44,167
Total	70,795	85,263	156,058

\* Open indicates episode that started before or during FY24, but not yet discharged by 6/30/24

## Unduplicated Client Counts

In the following tables, individuals are counted only once.

Unduplicated Clients	SU	MH	Both	Total
Admissions	23,182	23,834	3,878	50,894
Discharges	22,336	24,513	3,550	50,399
Open	14,121	22,904	648	37,673
Undup Clients	40,028	47,992	6,377	94,397

72% of all individuals receiving services had only one admission during FY24.

Program Type	N*
Substance Use Programs	46,405
Mental Health Programs	54,369
Total Unduplicated Count	94,397

\* Each category includes people who were in both types of program; for example, for substance use:  
 $40,028 + 6,377 = 46,405$

## Race and Ethnicity

### Detailed Race

Race	SU		MH		Both		Total	
	N	%	N	%	N	%	N	%
American Indian/ Native Alaskan*	189	0.5%	294	0.6%	39	0.6%	522	0.6%
Asian*	263	0.7%	647	1.3%	40	0.6%	950	1.0%
Black/African American	5,683	14.2%	8,866	18.5%	1,282	20.1%	15,831	16.8%
Native Hawaiian/ Other Pacific Islander*	73	0.2%	146	0.3%	18	0.3%	237	0.3%
White/Caucasian	23,611	59.0%	27,589	57.5%	3,736	58.6%	54,936	58.2%
Multi-race*	149	0.4%	383	0.8%	47	0.7%	579	0.6%
Missing/unknown	4,107	10.3%	4,544	9.5%	320	5.0%	8,971	9.5%
Other*	5,953	14.9%	5,523	11.5%	895	14.0%	12,371	13.1%
Total	40,028	100.0%	47,992	100.0%	6,377	100.0%	94,397	100.0%

\*These categories are rolled up into "Other" in other sections of this report

Ethnicity	N	%
Latino/Hispanic Identity	20,176	21%

### Detailed Ethnicity

Ethnicity	SU		MH		Both		Total	
	N	%	N	%	N	%	N	%
Hispanic-Cuban	86	0.2%	75	0.2%	11	0.2%	172	0.2%
Hispanic-Mexican	314	0.8%	316	0.7%	24	0.4%	654	0.7%
Hispanic-Other	4,017	10.0%	4,868	10.1%	596	9.3%	9,481	10.0%
Hispanic-Puerto Rican	4,788	12.0%	4,251	8.9%	830	13.0%	9,869	10.5%
Non-Hispanic	23,651	59.1%	32,679	68.1%	4,377	68.6%	60,707	64.3%
Unknown	7,172	17.9%	5,803	12.1%	539	8.5%	13,514	14.3%
Total	40,028	100.0%	47,992	100.0%	6,377	100.0%	94,397	100.0%

## Detailed Age

Age	SU		MH		Both		Total	
	N	%	N	%	N	%	N	%
18-25	3,706	9.3%	6,128	12.8%	398	6.2%	10,232	10.8%
26-34	9,272	23.2%	8,374	17.4%	1,319	20.7%	18,965	20.1%
35-44	11,315	28.3%	8,708	18.1%	1,865	29.2%	21,888	23.2%
45-54	7,259	18.1%	7,739	16.1%	1,344	21.1%	16,342	17.3%
55-64	5,911	14.8%	9,677	20.2%	1,158	18.2%	16,746	17.7%
65+	2,134	5.3%	6,807	14.2%	287	4.5%	9,228	9.8%
Missing/unknown/errors	431	1.1%	559	1.2%	6	0.1%	996	1.1%
Total	40,028	100.0%	47,992	100.0%	6,377	100.0%	94,397	100.0%

## Age Mean

Program Type	Mean (years)	N*	Std. Deviation
SU	42.0	39,597	13.1
MH	45.8	47,433	16.5
Both	43.5	6,371	12.4
Total	44.1	93,401	15.0

\*N is slightly lower than unduplicated client counts due to missing DOB data.

## Episode Counts by Provider Type (DMHAS-funded vs. DMHAS-operated)

### Admissions

Funding source	SU	MH	Total
DMHAS-funded	43,489	30,013	73,502
DMHAS-operated	2,747	12,875	15,622
Total	46,236	42,888	89,124

### Discharges

Funding source	SU	MH	Total
DMHAS-funded	41,336	27,599	68,935
DMHAS-operated	2,744	12,813	15,557
Total	44,080	40,412	84,492

### Open

Funding source	SU	MH	Total
DMHAS-funded	15,090	22,498	37,588
DMHAS-operated	58	6,521	6,579
Total	15,148	29,019	44,167

\* Open indicates episode that started before or during FY24, but not yet discharged by 6/30/24

## Unduplicated Client Counts

### Admitted during FY24

Funding source	SU	MH	Both	Total
DMHAS-funded	22,066	16,896	2,707	41,669
DMHAS-operated	494	6,067	119	6,680
Both	622	871	1,052	2,545
Total	23,182	23,834	3,878	50,894

### Discharged during FY24

Funding source	SU	MH	Both	Total
DMHAS-funded	21,153	16,997	2,449	40,599

## Primary Substance - Admissions - Substance Use

This table specifically addresses clients who were admitted to substance use treatment programs during FY24. The substance information was taken from the admission assessment for *treatment related* programs.

Primary Substance	# Admissions		%
Alcohol	12,591		44.5%
Amphetamines	66		0.2%
Barbiturates	11		0.0%
Benzodiazepines	552		1.9%
Cocaine/Crack	3,805		10.9%
Hallucinogens: LSD, DMS, STP, etc	59		0.2%
Heroin	4,717		16.7%
Inhalants	12		0.0%
Cannabis (Marijuana, Hashish, THC)	1,253		4.4%
Methamphetamines	58		0.2%
Non-Prescriptive Methadone	26		0.1%
None	14		0.0%
Other	137		0.5%
Other Opiates and Synthetics	5,072		17.9%
Other Sedatives or Hypnotics	51		0.2%
Other Stimulants	25		0.1%
Over-the-Counter	3		0.0%
PCP	228		0.8%
Tobacco	28		0.1%
Tranquilizers	1		0.0%
Unknown	329		1.2%
<b>Total</b>	<b>28,318</b>		<b>100.0%</b>

## Primary Substance - Admissions - Mental Health

This table specifically addresses clients who were admitted to mental health treatment programs during FY24. The substance information was taken from the admission assessment for *treatment related* programs.

Primary Substance	# Admissions	%
Alcohol	3,092	43.6%
Amphetamines	29	0.4%
Barbiturates	2	0.0%
Benzodiazepines	67	0.9%
Cocaine/Crack	710	10.0%
Hallucinogens: LSD, DMS, STP, etc	30	0.4%

## Primary Substance - Admissions - Total (All Program Types)

This table specifically addresses clients who were admitted to treatment programs (substance use and/or mental health) during FY24. The substance information was taken from the admission assessment for *treatment related* programs.

Primary Substance	# Admissions		%
Alcohol	15,683		44.3%
Amphetamines	95		0.3%
Barbiturates	13		0.0%
Benzodiazepines	619		1.7%
Cocaine/Crack	3,795		10.7%
Hallucinogens: LSD, DMS, STP, etc	89		0.3%
Heroin	5,019		14.2%
Inhalants	19		0.1%
Cannabis (Marijuana, Hashish, THC)	3,270		9.2%
Methamphetamines	80		0.2%
Non-Prescriptive Methadone	29		0.1%
None	95		0.3%
Other	167		0.5%
Other Opiates and Synthetics	5,429		15.3%
Other Sedatives or Hypnotics	59		0.2%
Other Stimulants	51		0.1%
Over-the-Counter	13		0.0%
PCP	291		0.8%
Tobacco	204		0.6%
Tranquilizers	1		0.0%
Unknown	383		1.1%
<b>Total</b>	<b>35,404</b>		<b>100.0%</b>

## Primary Substance - Active Clients - Substance Use

This table summarizes clients (by episode) who were **active** in substance use treatment programs during FY24. The Substance information was taken from the **most recent** record update within the episode.

Primary Substance	# Episodes		%
Alcohol	15,247		33.8%
Amphetamines	95		0.2%
Barbiturates	15		0.0%
Benzodiazepines	626		1.4%
Cocaine/Crack	3,927		8.7%
Hallucinogens: LSD, DMS, STP, etc	118		0.3%
Heroin	12,987		28.8%
Inhalants	24		0.1%
Cannabis (Marijuana, Hashish, THC)	2,424		5.4%
Methamphetamines	74		0.2%
Non-Prescriptive Methadone	73		0.2%
None	134		0.3%
Other	186		0.4%
Other Opiates and Synthetics	8,019		17.8%
Other Sedatives or Hypnotics	69		0.2%
Other Stimulants	37		0.1%
Over-the-Counter	8		0.0%
PCP	304		0.7%
Tobacco	49		0.1%
Tranquilizers	1		0.0%
Unknown	716		1.6%
<b>Total</b>	<b>45,133</b>		<b>100.0%</b>

## Primary Substance - Active Clients - Mental Health

This table summarizes clients (by episode) who were active in mental health treatment programs during FY24. The substance information was taken from the **most recent** record update within the episode.

Primary Substance	# Episodes		%
Alcohol	9,131		44.8%
Amphetamines	81		0.4%
Barbiturates	18		0.1%
Benzodiazepines	154		0.8%
Cocaine/Crack	1874		9.2%
Hallucinogens: LSD, DMS, STP, etc	83		0.4%
Heroin	877		4.3%
Inhalants	21		0.1%
Cannabis (Marijuana, Hashish, THC)	5,300		26.0%
Methamphetamines	63		0.3%
Non-Prescriptive Methadone	12		0.1%
None	430		2.1%
Other	134		0.7%
Other Opiates and Synthetics	775		3.8%
Other Sedatives or Hypnotics	25		0.1%
Other Stimulants	62		0.3%
Over-the-Counter	57		0.3%
PCP	139		0.7%
Tobacco	667		3.3%
Tranquilizers	7		0.0%
Unknown	447		2.2%
<b>Total</b>	<b>20,366</b>		<b>100.0%</b>

## Primary Substance - Active Clients - Total (All Program Types)

This table summarizes clients (by episode) who were active in treatment programs (substance use and/or mental health) during FY24. The substance information was taken from the **most recent** record update within the episode.

Primary Substance	# Episodes		%
Alcohol	24,378		37.2%
Amphetamines	176		0.3%
Barbiturates	33		0.1%
Benzodiazepines	780		1.2%
Cocaine/Crack	5,801		8.9%
