

DMHAS-EQMI

SPECIAL PROVIDER ALERT

NOVEMBER 2020

Additional Codes effective November 1, 2020

The increase of services being provided via virtual platforms has generated a need for updated service codes to reflect this new trend. To that end, please be advised that as November 1, 2020, additional codes became available to reflect the services provided to clients that incorporate an “audio and visual” component:

- **H2025A - Employment Services – Individual Audio and Visual**
- **G0177V - Supported Education – Individual Audio and Visual**

All locations are available for these new codes; however, in order for billing to be processed, the “audio and visual” location must be selected.

Location code name change

As previously indicated, “telehealth” was added as a location to accommodate the change in how services were delivered to clients in the last six months. The name of the “telehealth” location has been changed to “**Audio and Visual**”.

We understand that the new codes may impact programming, certain reports in the EDW and the fidelity measures. We will continue to review this and work collaboratively with each provider to address any concerns that might arise. If you have any specific questions about your program, please contact your manager at DMHAS.
