

DMHAS-EQMI

MONTHLY PROVIDER DATA QUALITY NEWSLETTER FEBRUARY 2021

Admissions, Discharges and Services

DMHAS contracts require providers to submit monthly admission, discharge, and service data. When providers do not submit the data timely it becomes difficult to monitor the effectiveness of the services that are being offered across the whole system. The effects of NOT following this contractual requirement are as follows:

- 1) DMHAS EQMI is unable to calculate human service contract performance outcome measures for contract monitoring and missing data negatively impacts Provider Quality Reports.
- 2) DMHAS Federal reporting requirements may be affected which may negatively impact grant applications or federal funding levels.
- 3) DMHAS state reporting requirements may be negatively impacted. Missing data impacts on a range of data used to evaluate DMHAS funding allocations and service provision.
- 4) Revenue for certain services like Targeted Case Management (TCM) or Behavioral Health Homes (BHH) may be reduced because data is unavailable.

The following are DMHAS EDW reports, found in the “Data Quality” folder in the EDW that will help you to monitor the timeliness and completeness of your data submissions:

- **Monthly Admission and Discharges Submission Report**
- **Monthly Service Submission Report**
- **Service Summary and Detail Report**
- **Program Roster Report**

Please use these reports to ensure that you are meeting this important requirement by the 15th of each month.
