

EQMI

SPECIAL PROVIDER ALERT

May 2025

DDaP and EDW Access Clean-up

EQMI will begin a process to deactivate DDaP, EDW, and associated VPN access for accounts that have not been touched in more than one year. This is a concerted effort to maintain appropriate access to client level data and to protect PHI in accordance with HIPAA and compliance standards.

If a staff account is deactivated who has been deemed to need ongoing access to these platforms, please contact Meagan McGuire, Data and Quality Program Manager, to re-establish access. Quality Directors and Managers can also request a list of current agency staff who have access to DDaP and EDW to proactively advise EQMI which staff accounts can be deactivated.

Still have questions? Please contact:

Meagan McGuire at (860) 418-6976 or Meagan.McGuire@ct.gov
