EQMI Data Quality

- GAF Replacement - We are currently collecting the replacement tools from each agency. Any agency that is still looking for the replacement tool and needs a resource list, can contact us. If any provider is interested in the DLA-20, can also contact us to discuss. Please complete the survey that was sent out about the Functional Assessment and the EHR.
- Non-funded substance abuse programs - Per statute, all substance abuse programs should be reporting data to DMHAS. Karolina has been contacting providers who have non-funded programs. The goal is to start reporting into DDAP as of this Fiscal Year. Most of those programs are already set up in DDAP and data can be uploaded. This applies to all programs that hold a license from DPH for SA. Report cards for non-funded programs will be generated for each agency to provide them a visual resource on how those programs are performing, however these report cards will not be posted to the DMHAS website, rather made available to respective agencies for their own use.
- DDAP new user registration process - Please use the attached form and remind staff that they have 10 calendar days to activate the passwords once they are sent out by the help desk.
- Contact information updates - Please send the contact information of new staff to ensure continued communication. Make all the necessary updates to the existing contacts before new FY22 schedule is distributed.
- EDW information - Please check EDW Providers Profiles periodically to make sure all the information we have in DDAP is accurate (capacity, address). If you see an empty program on the report card, please let us know so we can check if that program should be closed in DDAP.
- Virtual office hours - 2nd Monday of the month 1-3 PM. Next session is June 14th
- Data Corrections - EQMI:
 - Maria Cabrera - Maria.Cabrera@ct.gov
 - Karen Oliver - Karen.Oliver@ct.gov.
- Consumer Satisfaction Surveys - Surveys are now available on the EMQI site and can be distributed to clients.
- Schedule of meetings and trainings for FY22 - schedule will be distributed at the end of June. The times and dates for the meeting will remain the same.
- Residential capacity - EDW - Please check that the capacity of all your residential programs is accurate in EDW. Please send any corrections to Karolina.

Training Tips

- Entering Insurance Information into DDAP – it is important to keep this information up to date. If you do not have the insurance information available at the time of intake, please go back and enter it when it becomes available.

Quarterly Dashboards / Report Cards

- FY 21 Quarter 3 – the time line for corrections to this draft are June 25th. The final report cards will be distributed and published the last week of June.

Data Quality Notes

- Monthly Alert – Co-occurring assessments – If you are required to complete these assessments please make sure they are entered into DDAP.
- Special Alert – Critical Incident Updates – There were some significant updates that were made to our Critical Incident reporting. Please review the guidelines.

File Uploads

- DMHAS contact for file upload questions/issues – please contact Karolina to coordinate the process with IT if you have any problems.
- New E.H.R. – Please let us know if your agency is switching systems or plans to go with a new EHR as it can disrupt the reporting of data. A new process for testing an upload file involves the provider to set up a file with real information and uploading it.

Critical Incident Reporting

- Guidelines for submitting CI –There are two parts in the system that are required for the CI. One involves entering the incident and the other requires the closure and the outcome of the incident. Both parts are required for each incident.
- CI old reports closure – Please check the system and close all incidents that are past 60 days.
- Covid-19 reporting requirements – There is a separate field that was created to allow individuals to enter the actual diagnosis of COVID-19. When picking "other" as a subcategory, please type in COVID-19 in the box (it was previously not available).

CI Training – dates of training are included at the end of the minutes.
