

# **Safety Education And Training Catalog**

***For DMHAS State Operated Employees***

***July 2018 - June 2019***

Revised 8/22/18

CT Department of Mental Health and Addiction Services

Office of the Commissioner, Division of Safety Services

Safety Education and Training Unit

**Division of Safety Services**  
**Safety Education and Training Unit**

Dear Colleagues,

The Safety Education and Training Unit (SETU) is pleased to present the FY19 Annual Safety Education and Training Catalog. These courses meet training regulations established by federal, state, DMHAS policy, The Joint Commission, and the New England Healthcare Union District 1199 Contract. All of the courses offered are aligned with our mission to “promote safety, health and wellness in the DMHAS community”. All classes listed in this catalog include the class Offering Number and are also listed on line via the Saba Learning Management System. As always, feel free to contact me for any matter pertaining to the courses.

Sincerely,

*Gerry Thorington*

Gerry Thorington, M.ED.

6. CT. Valley Hospital
7. River Valley Services
8. Southeastern Mental Health Authority
9. Southwestern Mental Health System
10. Western CT Mental Health Network-Waterbury Area
11. Whiting Forensic Hospital

## Course Descriptions

### **Collaborative Safety Strategies – New (3 Days)**

(Audience – Direct care staff, new employees or anyone required by their facility)

This course, offered once a month, teaches direct care staff how to prevent angry Patient/Client behavior from escalating to physically dangerous behavior. Staff also learn how to safely intervene to manage assaultive/aggressive behaviors and avoid or escape potentially dangerous situations in the workplace. The goal is to reduce the rate and severity of injuries.

### **Collaborative Safety Strategies – Inpatient Review (5.50 Hours)**

(Audience – Inpatient direct care staff or anyone required by their facility)

This course provides a comprehensive review of the knowledge and skills taught in CSS New with the focus on the inpatient environment. Staff also review the application of mechanical restraints or seclusion to protect from harm.

### **Collaborative Safety Strategies – Outpatient New (2.50 Hours)**

(Audience – Outpatient direct care staff)

This module is conducted during the 3 day CSS New Employee course, on day 3, and teaches direct care staff who work in the outpatient and community setting how to avoid and escape potentially dangerous situations to reduce the risk of becoming a victim of crime.

### **Collaborative Safety Strategies – Outpatient Review ( 5.25 Hours)**

(Audience – Outpatient direct care staff)

This course provides a comprehensive review of the knowledge and skills taught in CSS New with the focus on the Outpatient environment. Staff also review safe practices in the outpatient/community settings and how to avoid and escape potentially dangerous situations to reduce the risk of becoming a victim.

### **Collaborative Safety Strategies New for Professional Students (7 Hours )**

(Audience – Professional students)

Professional students are taught DMHAS approved interventions for preventing behavior from escalating to physically dangerous behavior and should physically dangerous behavior occur, how to safely intervene to reduce the rate and severity of injuries. Course is available in review format.

### **CPR for the Professional Rescuer w/AED Challenge (3.50 Hours)**

(Audience – DMHAS police personnel and lifeguards)

This ARC program includes the CPR skills for adult, child, infant, and the use of the AED. Included are First Aid skills in a challenge format.

### **New Employee Orientation Program (2.75 Hours)**

(Audience – All new DMHAS employees)

This new employee orientation program covers the required topics for safety for all new employees in DMHAS. Topics include: Ergonomics Awareness, Hazardous Communication, Fire Safety and Workplace Violence Prevention.

### **Restraint and Seclusion Application Training New (2.50 Hours)**

(Audience – Inpatient direct care staff & outpatient staff working inpatient overtime)

The focus of this program will be on the prevention of injury or death from restraint use. Participants will learn and demonstrate the application of restraints in accordance to manufactures guidelines and DMHAS policies

### **Safety Measures for Support Staff (2 Hours)**

(Audience – Non-clinical staff, e.g., housekeeping, clerical, maintenance, etc.)

Non-clinical support staff will learn how to recognize potentially unsafe behavior, when to alert clinical staff, and use basic safety measures during patient contact..

### **Standard First Aid/AED – New (6 Hours)**

(Audience – Direct care staff, new employees or anyone required by their facility)

This American Red Cross certification class combines the skills taught in Adult CPR, AED and First Aid. It provides a competency skill check of the knowledge and skills needed to assess and provide emergency care in response to respiratory and cardiac emergencies for adult victims and first aid emergencies.

### **Standard First Aid/AED – Challenge (2 Hours)**

(Audience – Direct care staff, new employees or anyone required by their facility)

This American Red Cross certification class provides a competency skill check of the knowledge and skills needed to assess and provide emergency care in response to respiratory and cardiac emergencies for adult victims and first aid emergencies.

### **Standard First Aid/AED – Alternate (2 Hours)**

(Audience – Direct care staff, new employees or anyone required by their facility)

This non-certificate course is based on the Standard First Aid/AED Challenge and is offered every other year.

### **Take Charge (2 Hours)**

(Audience – Outpatient staff, Clients living in the community)

This program is designed to provide participants information which will assist in protecting yourself and your property and reduce the potential that you will become a victim of crime.

## Course Descriptions (Blended Learning)

For the 2018-2019 training year, we are offering the Blended Learning option for the SFA/AED Challenge/CSS Reviews for both the Inpatient and Outpatient programs.

**Blended Learning** – is defined as an instructional design combining digital media (**Web-based Learning/Training**) with traditional (**Instructor-led**) classroom methods. The web-based classes will be used to provide the Theory/Didactic Training, and the Instructor-led classes will provide Skills Review. Completion of web-based classes are a prerequisite for registration and attendance of Instructor-led classes.

- **Web-based Training** - The web-based training model used in our courses include narrated information, animated character and visuals, instructional videos, knowledge check quizzes, and interactive Learning Activities (games). Narration on each page/slide is timed and in sync with navigation tools, meaning participants are unable to navigate forward until the end of page/slide narration. Each course includes a test as the primary assessment tool. Participants have unlimited attempts to achieve a passing score of 80% for successful course completion.  
**SABA** generated email notification, typically 30 days before CPPR/CSS recertification date, will be extended to 60 days before recertification date to allow adequate time to complete Web-based and Instructor-led instruction for those participants choosing or assigned to the Blended Learning option.
- **Instructor-led Training** – The focus for the CPR and CSS classes is the review, practice, and demonstrated competency of all skills needed to meet course objectives. In addition, time is allowed to answer participants' questions specific to course content and the application of skills and strategies in the workplace.

### **Collaborative Safety Strategies – Inpatient Review Part 1 (Web – based Training, 2.75 Hours)**

This course provides a comprehensive review of CSS Theory/Didactic (**contextual framework for the prevention and management of dangerous and violent behavior applicable for the DMHAS Inpatient settings**).

### **Collaborative Safety Strategies – Inpatient Review Part 2 (Instructor – led Skills Review, 2.25 Hours)**

This course provides a review/practice of skills and participants demonstrate skill competency in escape techniques, physical restraints, mechanical restraint application, verbal de-escalation skill practice and an open discussion period to assist staff in problem-solving challenging situations and policy/practice clarifications.

### **Collaborative Safety Strategies – Outpatient Review Part 1 ( Web – based Training, 2.75 Hours)**

This course provides a comprehensive review of CSS Theory/Didactic (**contextual framework for the prevention and management of dangerous and violent behavior applicable for the DMHAS Outpatient settings**). In addition, staff will also review safe practices for working in the community.

### **Collaborative Safety Strategies – Outpatient Review Part 2 ( Instructor – led Skills Review, 2.25 Hours)**

This course provides participants a review/practice of skills and participants demonstrate skill competency in escape techniques, physical restraints, personal safety skills for the community, verbal de-escalation skill practice and an open discussion period to assist staff in problem-solving challenging situations and policy/practice clarifications.

### **Standard First Aid/AED – Challenge, Part 1(Web – based Training, 1.00 Hour)**

This course is consistent with ARC/ECC standards and provides a comprehensive review of science and knowledge needed to assess and provide emergency care in response to respiratory and cardiac emergencies for adult victims and first aid emergencies.

### **Standard First Aid/AED – Challenge, Part 2(Instructor – led Skills Review, 1.00 Hour)**

This course is consistent with ARC/ECC standards and provides a comprehensive review /practice of skills and participants demonstrate skill competency needed to provide emergency care in response to respiratory and cardiac emergencies for adult victims and first aid emergencies.
