

Money Management

Learning Inventory Skills Training

Created By: CRMHC OT staff and students

BASIC (Must know 4 out of 6)

1. Knows values of coins/currency

Coin values:

Penny: \$0.1 / 1 cent

Nickel: \$0.5 / 5 cents

Dime: \$0.10 / 10 cents

Quarter: \$0.25 / 25 cents

Bill values

1 dollar: \$1.00

5 dollars: \$5.00

10 dollars: \$10.00 bill

20 dollars: \$20.00 bill

Practice Worksheet:

For each coin or bill fill in the appropriate value:

Value: _____

Value: _____

Value: _____

Value: _____

Value: _____

Value: _____

Value: _____

Value: _____

Or ADD up value of these coins:

= _____

Answer

Worksheet:

For each coin or bill fill in the appropriate value:

Value: 1¢

Value: 5¢

Value: 10¢

Value: 25¢

Value: \$1.00

Value: \$5.00

Value: \$10.00

Value: \$20.00

Or ADD up value of these coins:

2. Knows how to make a transaction at a store and count change correctly

Consumer: A person who purchases goods and services for personal use

Cashier: A person handling payments and receipts in a store, bank or other business.

Sales tax: a fee collected on certain goods or services additional to cost of an item.

Sales Tax estimate:

\$0.6 per \$1

Ex: Dollar store=

Each item = \$1.06 OR

1 dollar (D), 1 nickel (N), 1 penny (P)

1 D, 1 N, 1 P

TIPS:

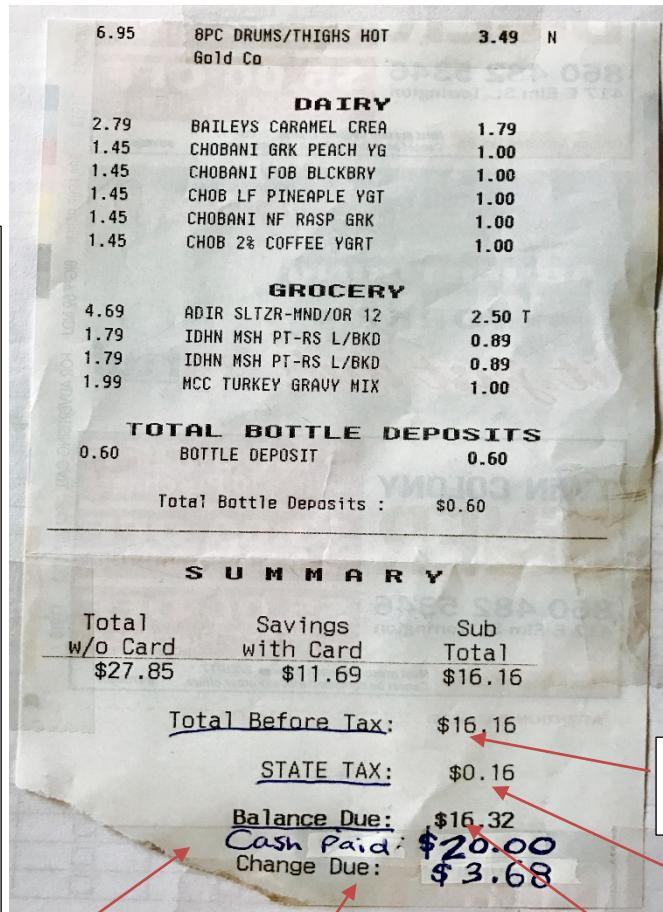

Always collect and save your receipt for your records in a familiar place

- To keep track of your spending
- To make sure there were no errors
- In case you need to make a return

Always check your receipt to make sure you were charged for the proper amount of items.

If paying with cash, check your receipt and count your change to make sure you received the proper amount of change back.

How to read a receipt

Source of payment:
Cash paid: \$20.00

\$20.00 = cash paid
- 16.32 = total cost
= 3.68 = \$3.68 change due

Subtotal:
\$16.16

Tax= \$0.16

Total Cost:
\$16.32

Estimate items purchased by rounding up cost to nearest dollar:

Chicken \$3.49= \$4

Creamer 1.79= \$2

5 Yogurts @ \$1 x 5=\$5

Soda 2.50= \$3

Spice 0.89= \$1

Spice 0.89= \$1

Gravy = + \$1

(without tax) = **\$17**

Tax: 0.06 per dollar x 17

+4

\$17

X.06

\$1.02

OR

ESTIMATE

For \$10, tax of 0.06 = \$0.60

Round up to \$1.00

For \$20 round up to \$2.00 to Estimate tax

Practice Worksheet:

Imagine that you are a consumer or a cashier, how would you complete these transactions?

- 1) **As a CONSUMER:** You go to the store to buy milk, cereal, bread, and soda, your total is \$14.33 (including tax). You pay with a \$20.00. How much change do you receive from the cashier? Circle the correct answer below.

\$20.00

-\$14.33

- a) 5.67 b) 2.75 c) 3.01 d) 1.50

- 2) **As a CONSUMER:** You purchase a Dove deodorant that costs \$3.03 and hand the cashier a \$5.00. How much change do you get back? Set up the equation to find the answer, and circle the correct answer below.

- a) 2.75 b) 1.97 c) 3.75 d) 1.15

- 3) **As a CASHIER:** You're assisting a consumer who purchases Dove deodorant that costs \$4.48 and hands you \$10.00. How much change do you provide the individual? Set up the equation to find the answer, and circle the correct answer below.

- a) 6.73 b) 4.04 c) 3.23 d) 5.52

Answer Worksheet:

Imagine that you are a consumer or a cashier, how would you complete these transactions?

- 4) As a CONSUMER:** You go to the store to buy milk, cereal, bread, and soda, your total is \$14.33 (including tax). You pay with a \$20.00. How much change do you receive from the cashier? Circle the correct answer below.

\$20.00

-\$14.33

- a) **5.67** b) 2.75 c) 3.01 d) 1.50

- 5) As a CONSUMER:** You purchase a Dove deodorant that costs \$3.03 and hand the cashier a \$5.00. How much change do you get back? Set up the equation to find the answer, and circle the correct answer below.

- a) 2.75 **b) 1.97** c) 3.75 d) 1.15

- 6) As a CASHIER:** You're assisting a consumer who purchases Dove deodorant that costs \$4.48 and hands you \$10.00. How much change do you provide the individual? Set up the equation to find the answer, and circle the correct answer below.

- a) 6.73 b) 4.04 c) 3.23 **d) 5.52**

Practice Worksheet:

Answer the questions about the receipt in the boxes below:

Point to and state
the total cost of
the receipt

Was any change
received?

YES or No

What method of
payment was
used?

Should you keep the receipt?

YES or NO

- Cocktail Dress
- Nike sneakers
- Underwear

HOUSING:

- Apartment
- House
- Condo
- Homeless Shelter

HOUSING:

- Apartment
- House
- Condo
- Homeless Shelter

4. Understands the difference between sale price and regular price

Regular priced item: Ongoing price that occurs every day, week or month.

Sale priced item: an event or occasion during which a business sells goods or services at prices that are lower than usual. (Merriam-Webster)

Sales Tag:

Sale Item:

Sale Section:

Coupon:

Store Flyer:

Practice Worksheet

In each picture identify the sale price of one item and the regular price of one item

Answer Worksheet

In each picture identify the sale price of one item and the regular price of one item.

5. Knows at least one way to save money on purchases

What are ways to save money on purchases?

- Use a coupon from mail flyers/newspapers

○

- Buy sale items that are marked by sale/clearance tags

○

- Buy Generic or store brand products rather than name brand products

○

- Shop at a discount grocery or convenient stores

- *Dollar tree, Dollar General, Family Dollar*
- *Wal-Mart*
- *Price Right/Shop Rite*
- *Aldi's*
- *5 Below*
- *Big Lots*
- *Ocean State Job Lot*

- Buy used items such as clothing or kitchen appliances

- *Thrift store: Goodwill, Salvation Army, Savers*
- *Local Consignment stores*

- Buy in bulk: Costco, Sam's Club, BJ's

- Sign up for free membership cards typically available at:

- *Grocery/Convenient stores such as:*
 - Stop & shop
 - Price Chopper
 - Walgreens/ CVS

P

6. Knows how to use a calculator to perform simple math equations

Calculator: an electronic device used to complete mathematical equations.

Tip: You may also use the calculator on your cell phone:

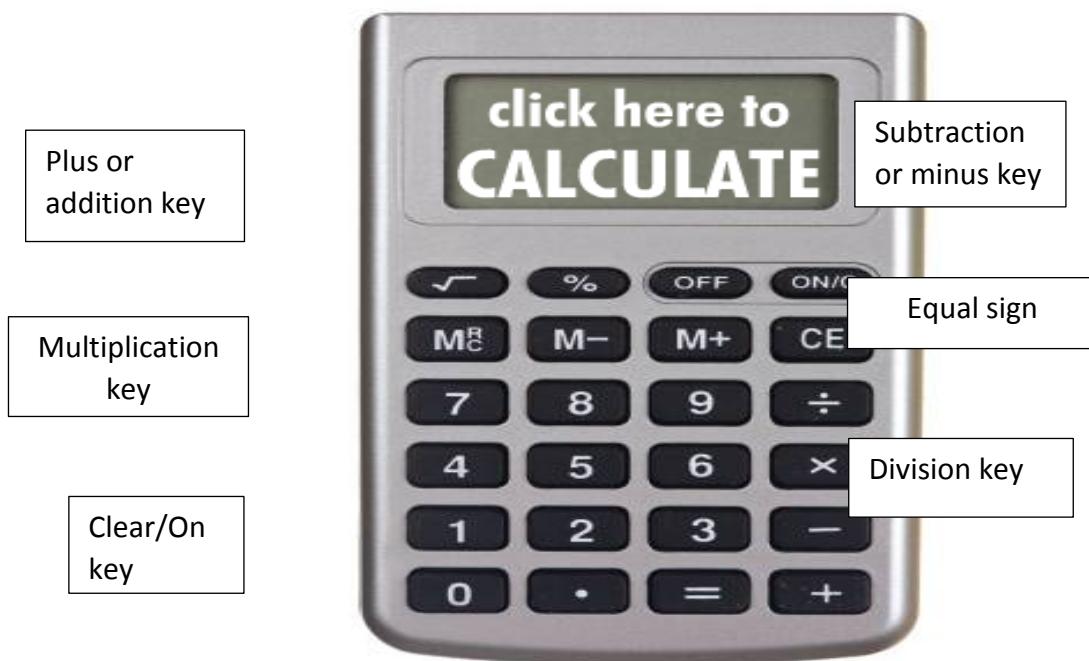

the

Identify the keys on calculator by drawing and arrow

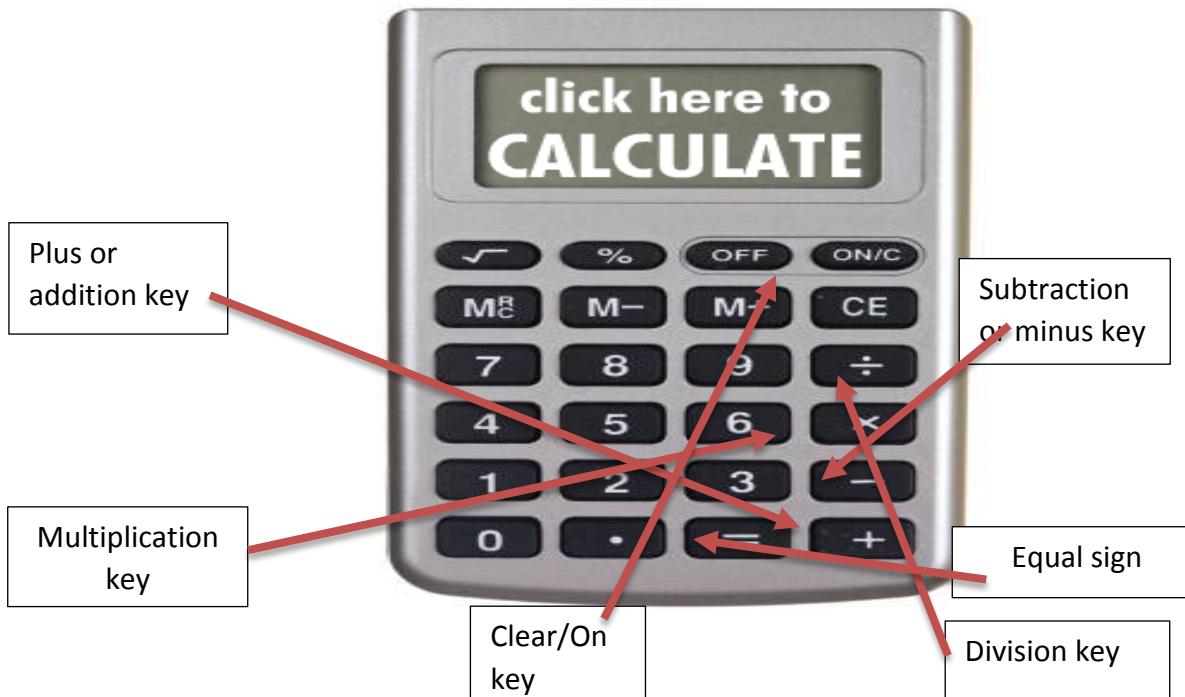

from the correct box to the matching key below:

Using a calculator complete the equations below:

1. At the store and bought a carvel ice cream cake for \$13.25 and 3lbs of chicken breast for \$12.00. How much will you pay?
2. You bought a pair of sneakers for \$37 and a pair of socks for \$7. How much will you pay?
3. Your cable bill costs \$53, and you have a \$5 discount for the month. How much will you owe once you deduct the discount?
4. You go to the grocery and your bill is \$21, but you have a coupon that takes off \$8.00 from your total. How much will you owe?
5. You are buying a prepaid cell phone card for \$15, but if you buy 3 of them you receive a special deal where you receive double the prepaid minutes. How much will you pay for 3 cards?
6. Your electric bill averages \$60 per month, you want to find out how much it will cost you for 12 months to find out the average cost for the year. What is the average you will pay for your electric bill for the year?
7. You want to save up to \$100 for Christmas gifts, but you only have 4 months to save, how much money do you need to save each month for those 4 months?
8. You receive \$190 a month in food stamps, how much can you spend each week?
9. At Aldi's your groceries cost you \$53.00, if you had a coupon for 20% off your entire purchase, how much would your total cost?
10. Your total bill for lunch at Denny's cost you \$16.50, if you gave an 18% tip how much would you owe?

Identify the keys on the calculator by drawing and arrow from the correct box to the matching key below: ANSWER SHEET

Using a calculator complete the equations below:

1. At the store and bought a carvel ice cream cake for \$13.25 and 3lbs of chicken breast for \$12.00. How much will you pay? $13.25 + 12 = \$25.25$
2. You bought a pair of sneakers for \$37 and a pair of socks for \$7. How much will you pay?
 $37 + 7 = \$44.00$
3. Your cable bill costs \$53, and you have a \$5 discount for the month. How much will you owe once you deduct the discount? $53 - 5 = \$48.00$
4. You go to the grocery and your bill is \$21, but you have a coupon that takes off \$8.00 from your total. How much will you owe? $21 - 8 = \$13.00$
5. You are buying a prepaid cell phone card for \$15, but if you buy 3 of them you receive a special deal where you receive double the prepaid minutes. How much will you pay for 3 cards? $15 \times 3 = \$45.00$
6. Your electric bill averages \$60 per month, you want to find out how much it will cost you for 12 months to find out the average cost for the year. What is the average you will pay for your electric bill for the year? $60 \times 12 = \$720.00$
7. You want to save up to \$100 for Christmas gifts, but you only have 4 months to save, how much money do you need to save each month for those 4 months? $100 / 4 = \$25.00 \text{ per month}$
8. You receive \$190 a month in food stamps, how much can you spend each week? $\$47.50$
9. At Aldi's your groceries cost you \$53.00, if you had a coupon for 20% off your entire purchase, how much would your discount be? $53 \times 20\% = \$10.60$
10. Your total bill for lunch at Denny's cost you \$16.50, if you gave an 18% tip how much would you owe?
 $16.50 \times 18\% = \$2.97 \text{ tip}, 16.50 + 2.97 = \19.47

Practice Worksheet:

Using calculator, complete these problems:

$19 + 55 = \underline{\hspace{2cm}}$

$55 - 13 = \underline{\hspace{2cm}}$

$14 \times 88 = \underline{\hspace{2cm}}$

$135 \div 15 = \underline{\hspace{2cm}}$

Answers Worksheet:

Using calculator, complete these problems:

$$19 + 55 = \underline{\hspace{2cm}} 74 \underline{\hspace{2cm}}$$

$$55 - 13 = \underline{\hspace{2cm}} 42 \underline{\hspace{2cm}}$$

$$14 \times 44 = \underline{\hspace{2cm}} 616 \underline{\hspace{2cm}}$$

$$135 \div 15 = \underline{\hspace{2cm}} 9 \underline{\hspace{2cm}}$$
