Depression Screening Day
Public Service Announcement

Woman Talking:
Last year things got really difficult for me. I lost half the hours at work…. My family was under a lot of stress. I couldn't eat… I couldn't concentrate… I couldn't sleep. I was uptight with everyone all the time. And then I saw an ad for the National Depression Screening Day and I thought it's free and confidential, why not. It takes a half hour to bake a batch of brownies, I could use that half hour myself. It was the best call and it was the best thing I ever did.

Narrator:
Find a location near you… it will change your life!
