

## **Department of Correction Addiction Services**

Any inmate who has completed Tier 2, 3, or 4, or is on a waiting list for the same, is eligible for assistance for pre-release planning and referrals to substance abuse services in the community.

Each sentenced facility has Addiction Services staff who will help you to determine what areas you need help in and where to find that help. The counselor can help you make phone calls to programs, make appointments for interviews, or any other aspect of making connections to the appropriate resources.

For additional information regarding addiction services programs, or assistance with pre-release planning, write a request to the Addiction Services Unit.
