Description:

This Request for Qualifications (RFQ) is issued by the Connecticut Institute for Resilience and Climate Adaptation (CIRCA), of the University of Connecticut (UConn). The purpose of this RFQ is to solicit proposals from interdisciplinary teams encompassing engineering, landscape architecture, applied ecology, planning and engagement (a selected team shall hereinafter be referred to as “Consultant”) to perform the tasks necessary to complete a regional scale climate change vulnerability analysis and adaptation planning process in Fairfield and New Haven Counties, as well as provide stakeholder engagement and recommendations on the prioritization and selection of resilience pilot projects.

This planning process is funded through a competitively awarded grant from the United States Department of Housing and Urban Development (HUD) to the State of Connecticut (State) as an outcome of the National Disaster Resilience Competition (NDR). Grants shall be administered by UConn for the State. The work under the contemplated contract will be funded and/or reimbursed in whole or in part with CDBG-DR funding from HUD administered by DOH for the State. The Consultant must comply with all requirements applicable to CDBG-DR funded projects.

CT DOH Distribution Date: February 14, 2020
