CTDOT V8i SELECTSeries Digital Design Environment ***Now in SharePoint***

The MicroStation\InRoads **SelectSeries V8i** workspace is now available to Sync from SharePoint for projects that have moved from the server based X Drive into a cloud based COMPASS Project. Users who have received State Issued Laptops will no longer need to RDP to use the V8i Workspace and can now completely work through SharePoint\COMPASS once both the workspace and project(s) have been synced.

A. To sync the workspace, browse to the **DOT CTDOT_DDE** SharePoint page, and from the left menu select **SELECTSeries**, or simply click the following link:

https://ctgovexec.sharepoint.com/sites/DOTCTDOT_DDE/SELECTSeries/Forms/AllItems.aspx

B. Select the Sync Button:

- C. From the desktop Accounting program, select Compass MicroStation V8i to initialize MicroStation.
- D. From the MicroStation Manager, ensure that User is untitled and No Project has been picked:

User:	untitled	~
Project:	No Project	~
Interface:	default	\sim

E. Browse to the locally synced COMPASS project folder for your V8i files within your State of Connecticut SharePoint connection:
