CONSTRUCTION DIRECTIVE

DocuSigned by:
John S. Dunham, P.E.
3B4888B5B717446...

Construction Administrator

Construction Manual Update/Version 3.3 January 2022

This Construction Directive establishes the Construction Manual version 3.3, dated January 2022 (CM-3.3), supplementing Construction Directive CD-2021-2, Construction Manual Update/Version 3.2 January 2021. **CM-3.3 is to be used for all for all projects awarded after June 1, 2022.** Projects awarded prior to June 1, 2022, may continue to use the previous versions as instructed in previous directives.

CM - 3.3 includes minor updates to Volume 1 to incorporate procedural updates necessitated by:

- Engineering & Construction Directives and Bulletins,
- Construction Directives and Bulletins,
- and miscellaneous revisions due to changes in software and other clarifications.
 - This version of the CM contains references to AASHTOWare Project Construction and Materials as well as SiteManager. Personnel should refer any questions related to AASHTOWare Construction and Materials to DOT.AWP-Support@ct.gov.
 - As part of the software revisions, the Division of Construction Operations is currently migrating all Office of Construction, manuals, guides, approved forms, and checklists from ProjectWise to the Division of Construction Operations SharePoint page. Updates to the Office of Construction Webpage will be completed as soon as possible to reflect organizational clarifications and update resources. Questions related to content from these resources should be forwarded to Douglas Harz (douglas.harz@ct.gov) or Thales Oliveira (Thales.Oliveira@ct.gov) in the Central Construction Unit.

The Table of Contents in the CM- 3.3 Volume 1 identifies the chapter sections updated in January 2022. CM - 3.3 is available at the following link: [Construction Manual version 3.3 January 2022.](#)
