**\* Even though a Pre-Award, Good Faith Effort (GFE) was determined, the Contractor is required to perform and document Post Award GFEs to meet or exceed the project DBE goal established in the bid documents and Contract. In addition the contractor must complete the required reporting of GFEs and should exhaust all methods outlined in the project DBE specification and applicable CFRs. The Contractor is reminded that failure to comply related to GFEs or also PAC modification requirements may result in a reduction of payment. In addition: The Contractor has committed in its PAC to pay John Paul Garcia a lump sum of \$17,000.00. Variation resulting in a change of payment method or calculation without pre-approval of a PAC modification would likely result in a reduction of payment. The contractor is reminded that they have committed to unit prices, hours, quantities, and amounts for other subcontractors and failure to obtain pre-approval for PAC modifications may result in a reduction of payment to the Contractor. The Contractor is also reminded that they are required to monitor Commercial Useful function (CUF) of the DBE subcontractors. Failure to perform a CUF by the DBE subcontractors is a reason for a reduction of DBE credit and could result in reduction of payment to the Contractor, depending on the circumstances. See additional notes on the GFE approval letter attached to this form.**
