

**SECTION 9.46
LIMING**

9.46.01--Description: The work included under this item consists of furnishing and placing agricultural ground dolomitic limestone on those areas designated by the Engineer.

9.46.02--Material: Agricultural Ground Dolomitic Limestone shall conform to the requirements of Article M.13.02.

9.46.03--Construction Methods : On the basis of the subsequent tests, the Contractor shall apply limestone to such areas and in such amounts as the Engineer may direct. The limestone may be applied by any approved method.

9.46.04--Method of Measurement: This work will be measured for payment by the actual number of metric tons of limestone applied and accepted within the limits designated by the Engineer.

9.46.05--Basis of Payment: This work will be paid for at the contract unit price per metric ton for "Liming," which price shall include all materials, equipment, tools labor and work incidental thereto.
