

State of Connecticut Department of Transportation

2005 Traffic Volumes State Maintained Highway Network (Traffic Log)

Prepared By

Division of Systems Information, Bureau of Policy and Planning

In Cooperation with U.S. Department of Transportation – Federal Highway Administration

PREFACE TO THE 2005 TRAFFIC LOG

The Traffic Log list the estimated average daily traffic volumes (ADT) for segments of highway where significant traffic volume changes occur. Town lines are shown for reference purposes.

The ADTs shown in this Traffic Log are estimates of the number of vehicles passing through the defined section of highway on an average day in 2005 for both directions of travel combined, except where a ramp serves as the main line of a route or where the highway, or a portion thereof, has been designated as one way.

In addition to the ADT and the length of the highway section to which it applies, the entry “OVLP” appears in the body of this log. The term “OVLP” means, “overlap” and is used to indicate that the ADT volumes will be found on the route being overlapped.

The ADTs shown should not be used for point-specific locations. Information regarding estimated ADTs for specific locations may be obtained by contacting the Traffic Monitoring and Data Analysis Section at (860) 594-2093.

**TRAFFIC VOLUMES
IN ROUTE NUMBER ORDER**

LOGGED DIRECTION/NORTH
