The purpose of this meeting is to provide the community an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of the project is to rehabilitate Bridge No. 01164, which carries South Street over I-84. The rehabilitation will correct structural deficiencies of the existing pin and hanger assemblies, replace the existing reinforced concrete deck, repair/strengthen structural steel, and clean and paint the entire superstructure. The Maintenance and Protection of Traffic and Construction Sequencing are considering site access from I-84, and a detour of South Street for bridge work.

Right-of-way impacts associated with the proposed project are not anticipated.

Construction is anticipated to begin Spring 2026 based on the availability of funding, acquisition of rights of way, and approval of permit(s). The estimated construction cost for this project is approximately \$10,500,000. This project is anticipated to be undertaken with 80% Federal funds and 20% State funds.
