

HIGHWAY LOG

CONNECTICUT
STATE NUMBERED
ROUTES AND ROADS

AS OF DECEMBER 31, 2014

CONNECTICUT DEPARTMENT OF TRANSPORTATION
BUREAU OF POLICY AND PLANNING
OFFICE OF ROADWAY INFORMATION SYSTEMS
ROADWAY INVENTORY SECTION

PREFACE TO
THE STATE HIGHWAY LOG

The State Highway Log provides the user with information relating to the State's highway system. This information was extracted from the State Highway Mileage File and reflects the data contained therein as of December 31, 2014.

The log is presented by route number order in the log direction. Log direction is defined to run from south to north or from west to east. An exception to this is Interstate 691 which is east to west, and any route or road which is one way. The State Highway Log provides the location, by cumulative mileage and kilometers, of various intersecting roadway features encountered as though one were traveling along the road. These features include intersecting bridges, ramps, turning roadways (TR's), all state routes and state roads, local roads where an ADT change occurs, brooks and rivers, and town lines. The numbers following ramp and turning roadway descriptions do not reflect the posted exit numbers. Posted exit numbers are shown in the last data field where applicable. The log also gives pertinent roadway administrative information, such as functional classification, state maintenance responsibility, rural or urban designation, etc.

The following "Example", "Definition of Data Items" and "Abbreviations" are provided to assist the user in reading the log.

Example

U.S. Route 1 starts at 0.00 miles (0.00 kilometers) at the New York State Line in Greenwich (Town Number 056 under Town Number). It is State maintained, State secondary, Urban and Other Principal Arterial. There is no control of access (Item 12), and it is divided with two lanes (Item 13) in each direction, and is in District 3. All of the above data is found on the first line at mileage 0.00 (0.00 kilometers). The maintenance responsibility (Item 7) through functional classification (Item 11) remains the same from 0.00 miles (0.00 kilometers) until it changes at mileage 56.88 (91.54 kilometers). At this point, the urban (Item 10) will remain the same and the functional classification (Item 11) changes from Other Principal Arterial to Minor Arterial. This data is repeated each time the town line changes or when there is any change to the data fields.

OP (overpass) Horseneck Brook at 1.52 miles (2.45 kilometers) is bridge number 1870 (Item 14).

At mileage 7.28 (11.72 kilometers), HPMS section A163 (Item 5) starts, and ends at 7.46 miles (12.01 kilometers).

The Town Number (Item 1) changes when the route enters a new town.

At mileage 8.64 (13.90 kilometers), the "Y" indicates that an interchange (Item 3) exists.

The Department's Maintenance District (Item 15) is 3 at 0.00 miles (0.00 kilometers), and changes to 2 at mileage 70.66 (113.72 kilometers).

At mileage 81.98 (131.93 kilometers), all data fields are dashed, indicating the beginning of the overlap of U.S. Route 1 on Interstate 95, which ends at 82.86 miles (133.35 kilometers), with new data appearing in the data fields.

U.S. Route 1 appears at the bottom of the page, indicating it is the last route shown on the page.

Definition of Data Items

ITEM

- 1 TWN # - Town Number
The town number at the beginning of each town (the town number remains blank until a new town is entered or on the first line of each new page).

- 2 ROUTE & LOCATION DESCRIPTION
Provides user with Route Number, Route Name, Route Limits and Log Direction, and description of intersecting roadway features.

- 3 INTCH - Interchange
When a route or road overpasses or underpasses another route or road, if there is an interchange (full or partial) between them, "Y" is coded in this column (blank if no interchange).

- 4 CUM MILES - Cumulative Miles
The distance of miles from the beginning of the route.

- 5 KILOMETERS - Cumulative Kilometers
The distance of kilometers from the beginning of the route.

- 6 HPMS - Highway Performance Monitoring System
The area and HPMS section number appear at the beginning of the section; when this section ends, the new section number will appear, or "----" if there is no section following.

- 7 MAINT - Maintenance Responsibility
S = State
L = Local

8 STA - State System
P - State Primary
S - State Secondary
X - Special Service Road
N - Not on State System
Z - Proposed
C - Built; not open to traffic

9 NHS - National Highway System
N - NHS

10 R - U - Rural or Urban Area
R - Rural
U - Urban

11 FUNCT CLASS - Functional Classification
IS - Interstate
O FR EXP - Other Freeway or Expressway
O PRI ART - Other Principal Arterial
MINOR ART - Minor Arterial
MAJ COL - Major Collector
MIN COL - Minor Collector
LOCAL - Local

12 A CTL - Access Control
1 - None
2 - Partial
3 - Full, not expressway or freeway
4 - Full, expressway or freeway
5 - Full, parkway
6 - Channelization, access controlled, including rotary intersection, underpass or overpass a controlled access highway
7 - Full, ramps or TR's (not main line)
8 - Full, parkway, trucks permitted

- 13 THR LNS - Lanes
 Number of through lanes (this does not include auxiliary, truck climbing and turning lanes).
REV - Reverse side of divided highway. REV is coded if the highway is divided, or if there are an odd number of lanes on a contiguous highway.
LOG - Log direction of divided highway or both directions of contiguous road.
DIV - C - Contiguous or Non Divided Roadway
 D - Divided Roadway
 O - One-Way

- 14 BRIDGE # - Bridge Number
 Bridge number and suffix assigned to the overpass or underpass at the cumulative mileage/kilometer indicated.

- 15 DIST - District
 The ConnDOT jurisdictional district in which that portion of roadway exists.

- 16 Exit # - Exit Number
 Exit Number and suffix assigned to the exit ramp at the cumulative mileage/kilometer indicated. Dash (-) means there is an exit without an exit number.
