The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project relates directly to CTDOT's ongoing commitment to improve commuter rail services. The proposed work at the town's Shore Line East Station will make commuter rail services modern, reliable and convenient so that the future transportation needs of Connecticut's residents are met. The improvements to Madison SLE Station will efficiently and effectively provide this enhanced service by making this station a full-service dual-platform station.

Right-of-way impacts associated with the proposed improvements include partial takes from the town, and an access easement and permanent easement for a wetland mitigation site on Copse Road.

Construction is expected to start in fall 2027, depending on funding, right-of-way acquisition, and permits. The estimated cost is \$35 million, with 100% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Wednesday, February 25, 2026, to (860) 594-2020 or to Scott Anderson at Scott.T.Anderson@ct.gov or (860) 594-3301. Please reference Project No. 310-0058 in the email or voicemail.
