The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project is to address the structural deficiencies of the existing structure by replacing the existing corrugated steel arch pipe culverts with a concrete box culvert.

Right-of-way impacts are anticipated to accommodate the new structure and to facilitate temporary utility relocations during construction.

Construction is expected to begin spring 2028. The estimated construction cost is \$2.5 million, with 100% federal funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by February 27, 2025, to DOT-FLBP@ct.gov, (860) 594-2020, marc.byrnes@ct.gov, or (860) 594-3489.
